ment. Without waiting for an answer they seleed and threw him down on the ground. They then searched him, taking his revolver, which he had no opportunity to use, the attack being so sudden and expected. They out his vest and pantaloons in search of money. Finally they ripped up the boot containing the \$1,475, and took the money. They then released him and he came to Ashland, where he narrated the occurrence.

We understand that Mr. Bixler was formerly resident of Hegins township, this county, a carpenter by trade, and always bore the reputation of being a sober, industrious and worthy citizen. During the rebellion he was in the service for about a year .-Lately he has kept a boarding-house at a mine above Ashland. We understand that the money, of which he was robbed, he had received from the Company whose workmen he boarded.

Oun neighbor of the Democrat, commenting on an article that recently appeared in the AMERICAN relative to the miscarriage of our Northumberland pack to Philadelphia, very kindly advises us to endeavor to increase the size of our pack sent to that Post Office," and thinks that at present our pack is so small that he doubts "whether either the Post Master or Mail Agent seem it at all." We are anifested in the circulation of our paper, and hope an opportunity may soon occur by which we can reciprocate it. We shall most certainly take advantage of the suggestion, and endeavor to increase the pack to a size that even the most blind "my policy" official can "see it," and then trust our neighbor will no longer have occasion to doubt whether the Post Master or Mail Agent "seen it at all." The Democrat may, probably, send a few more copies to Northumberland than ourselves, as it has, until within a few years back, been considered one of the strongholds of modern democracy in this county, but we are quite sure, pecuniarily, that we would not exchange ours for two of the size of the Democrat's .-We do not send the AMERICAN to any who are not bona fide subscribers, having long since discovered the fact that publishing a paper "for the fun of the

thing" don't pay. THE MIDDLECREEK RAILROAD .- Our cotempora ry of the Selinsgrove Times, speaking of the prosects of the construction of this road, says :- "At present there seems to be no prospect of the Lacka-wanna & Bioomsburg Railroad Company engaging to construct and work the Middlecreek Valley Railroad. We understand it is the intention of the President of the company to interest other parties, and we think better ones. The Shamokin Valley, the Quakake, the Lehigh Valley and the New Jersey Central Railroads form a continuous and pretty direct route to New York, and the Middlecreek Valley road would be a continuation of the same route westward and a connecting link with the Pennsylvania road at Lewistown-thus forming a direct through route to New York. It is proposed to interest the above companies in behalf of our road and

Pouce says : "We do not believe in spiritualism or magic, but the other day a veracious witness actually saw a young man turn into a public house." That is nothing strange. Sydney Shirm said that a certain person was so fond of contradicting that he would throw up the window in the middle of the night and contradict the watchman who was calling the hours. POETRY AND FACT .- A poet, who had just pur-chased a pair of boots, which suited him very much, roke out in the following lines:

Your boots and shoes at Thacher's buy,
You'll find them just the thing.

MANY PERSONS are to-day suffering from Dys pepsia who do not know it; they feel a heaviness after eating, a sort of languor or lack of energy, and attribute it to the Spring weather. It is nothing but Indigestion, and one dose of Con's Dyspersia CURE will confirm this fact.

A MISSIONARY to the South Sea Islands was so unfortunate as to lose a fine head of hair by sickness. and being unprovided with proper restoratives returned to England to recruit his bealth. "Barrett's Vegetable Hair Restorative" had not then been discovered, and on regaining his health the missionary provided himself with a wig. and returned to the scene of his labors. The natives with natural simplicity supposed he had obtained some hair seed which he had planted on his poll and produced a luxuriant crop of the capillary substance. The missionary humored this idea for a while and promised to get them some hair seed, but finally astonished them by lifting his wig. They all shouted with one accord, "He has come from England with his head thatched." turned to England to recruit his be-

There are too many grey and thatched heads at the present day, and these would be fewer were the use of "Barrett's Vegetable Hair Restorative" more universal in the country. While it is not exactly a "hair seed," it will prevent premature baldness and greyness, and is a delightful article for the toilet.

Mr. JOHN BUNTO, OF BALDWIN, CRIMONS COUNTY, N. Y.—writes OF BALDWIN, CREMUNG COUNTY, N. Y.—writes:

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the Physicians termed Shaved Consumption as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely RESTORED REE TO SHALTH, doing that which several physicians had tried to do but had failed."
