THE UNION LEAGUE of Philadelphia, at its annual meeting, recently, nominated Halletin, of that city, in speaking of the meeting, thus expresses itself :

solid men of the city. Merchants, judges, any other country to do what he has. His lawyers, soldiers, manufacturers, physicians, artists, bankers, capitalists, the gray-headed Nestors of the community, and the active, energetic young men who are the bone and sinew of the present generation, public men and private citizens, the best types of the enterprise, the intelligence, the patriotism, the public spirit, the moral power of Philadelphia.

The World sava: fact. 'The World says :

Fifty thousand persons in New York, who live by the labor of their hands, out of cmploy, is a more truthful statement of our financial condition than columns of defily arranged figures relating to the national debt. Look at some of the facts : Of the 28,000° artisans enfployed in the jewelry business, 40 per cent. are out of employ; carpenters' wages have been reduced from \$3 50 to \$3 50 a day, and only half of the journeymen can find employment; of hatters, there are 400 who can get work but one day in six; of the 20,000 tailors in the city, one-quarter are unemployed, the quantity of work for them is 30 per cent. less than that assigned them at this time last year, and their wages have been reduced by 833 per cent.; the iron-workers say that their business has not been, in twenty years, so dull as it is now ; at least 1,000 shipwrights are out of employ, and from one end of the East river to the other but five vessels are building, of which two are steam boats, two are

Among the papers is a letter to General Grant from Major-General Sheridan, dated New Orleans, January 25, 1867, in relation to matters in Texas, and particularly refer-ring to the condition of Union men and freedmen in different parts of the State, which he says is truly horrible. He says the government is denounced, freedmen are shot, and Union men are persecuted, if they have the temerity to express their opinions.

respondent calls attention to the necessity of legislation to protect the workingwomen, and says: "There are thousands of indus-trious women in this city who have to work hard for \$3 a week-less than enough to furnish the bare necessaries of life." "A class of middle men and women." our correspondent continues, "are persistently advertising in this city for good operators on linen coats, and they pay only from 8c. to 12c. each, four coats being an average day's work. A visit to the 'piece-paid fac-tories' of this city, as they are called, would move the heart of even the most stolid .-There, crowded together in ill-lighted, badly

ventilated rooms, are hundreds of these balf starved, half-clad, less than half-paid daughters of toil. Although still young, the buoyancy of youth has departed from their spirits, and the glow of health from their cheeks .-Sorrow and suffering have plowed deep furrows into their countenances, and still they

are forced to toil though the brow be fevered and the frame exhausted. This is when business is good. When the market is full and trade dull, the workingwoman is the first to suffer, for then comes reduction of wages and loss of work, and the poor girl, driven to desperation, has but one alternative-starvation or a life of crime. And yet in the midst of all this, the employers are growing immensely rich. While the Society the Prevention of Cruelty to Animals has secured the passage of just laws, and caused the penalties to be visited upon the inhuman wretches that willfully or carelessly inflict unnecessary pain upon the helpless beast, who will interest himself in the prevention of cruelty to women, and bring down just odium upon their oppressors. The communication closes with : "The fellow who fired his store the other day in

order to cheat the Insurance Companies out of \$60,000 and is now under arrest, never had \$6,000 worth of property in his life ; but for years past had been practicing every kind of imposition upon his employes, and paid them in full only when compelled by law."-Y. Tribune.

THIS is to give notice, that on the 16th day of December, A. D. 1867, a warrant in Bankruptcy was lesued against the cetate of Frederick Dibner, of Shamokin, in the county of Northumberland, and State of Pennsylvania, who has been adjudged a Bankrupt on his own petition; that the payment of b) recognitions from their associates else-only, as a rule, unpunished, but uninvesti-gated, and constitute practically a state of insurrection, and believing it to be the province and duty of every good government to afford protection to the lives, liberty and property of her citizens, I would recommend the declaration of martial law in Texas to secure these ends. The necessity for go-verning any portion of our territory by mar-tial law is to be deplored.

FOR THE FOLLOWING REASONS.

They are more simple and durable, easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other They sew all fabrics from two common spools, require no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip.
