known that it is justly regarded in many countries as a medicine of indiscensible necessity. In Great Britain, France and Germany, where medical science has reached its highest perfection, it is pre-scribed in domestic practice, and constantly used in the armies, in hospitals and other public institu-tions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be employed. Scarcely any neighborhood can be found where well known cases of discassed lungs, which had baffled the efforts of the most skillful and

which had buffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing procis of the superior curative properties of this prepara-tion; and to them the authors point with pecsimi-satisfication. While it is most powerful against con-firmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously. This health-restorer accomplishes even more by prevention than cure. If taken in reason it heals all irritations of the throat and hunca, whether ari-

THE SEASON .- This is the time to get chesp clohing, and at the Continental Clothing Bazaar, in Market Square, is the place to find it. Slaymaker makes to order any selection from his large and ele-

gant stock of goods, at short notice, and in the best manner. Call in, see his assortment, and learn his prices.

A PROVERS .--- The influence on men's appear-Our business has grown so rapidly within a short Our business has grown so rapidly within a short space of time, and so much expenditure has been necessary to perfect the track, extend sidings, and farnish equipment, that we have delayed as far as we could the building of shops for the repair of en-gines and cars. Additional shops have now become an urgent necessity, and we propose to erect suita-ble buildings for that purpose at Sanbury. During this year we have added to the equipment seven locomotives, two passenger cars, twenty-nine gondolas, thirty-four line cars and three hundred and seventy-seven coal cars, at a coat of \$265.124 41. ance, made by the tailor, has long since gone into a proverb; and those who get their clothes at J. O. Beck's, on Fourth street, are living witnesses of the truth it contains. At Beck's all kinds of men's and boys' clothing are made in splendid style, cheap, elegant and warranted to fit.

hundred stock cars, and five hundred coal cars. The increase of the coal trade for the past year over that of the proceeding year has been large. The coal transported in 1867 amounted to 453,916 tons. against 303,189 tons in 1866-an increase of 150,730 tons. Of this increase 49,186 tons were carried to Baltimore and 101,564 tons to local sta-tions. The remaining increase of tonage, amount-ing to 147,641 tons, has been mainly from points on the line of the Elmira and Canandaigua Divisions and from points on the lakes.
