THE REPUBLICAN COUNTY CONVENTION.

The Convention of Republican delegates assembled at the Court House, in this place, on Tuesday last, to nominate a candidate for Congress in this district, member of Assembly and other county officers, was one of the largest ever held in the county, and in point of intelligence, character and standing, reflected the highest credit upon the party. The delegates, themselves, had no axes to grind, and were anxious only to nominate a ticket which at least deserved success if they even should fail to obtain it, and which a few years more of the progress of intelligence will be certain to confer upon the party in this county.

The most prominent feature of the Convention was the nomination of a candidate for Congress, in this district. It was pretty well understood, throughout the county, that J. D. Packer, Esq., of this place, was the almost unanimous choice of the party. But Mr. Packer, who had no taste for the contests and struggles for office, was constrained to announce, a week previous to the delegate election, that he would not offer himself as a candidate. The delegates in Convention, however, came to the conclusion that he was the proper man for the position, and without a single dissenting voice, nominated him by acclamation as our candidate for Congress in this district. On appearing before the Convention, Mr. Packer tendered his thanks for the honor conferred upon him, and said he felt that he could not decline a nomination so unanimously conferred.

There can be no question that Mr. Packer is the choice not only of this county, but of a large majority in this district. That Northumberland county is fairly entitled to the candidate, hardly admits of an argument, and when we present a candidate, so unexceptionable in every respect as Mr. Packer, it seems almost incredible that any serious opposition could be made. Our opponents admit that if Mr. Packer is nominated, there is scarcely a ray of hope left for their candidate.

Mr. Fiske, our candidate for Assembly, did not seek for the nomination, and only accepted it as a matter of duty. He is so well known favorably in this county, especially in the Eastern end, that it is hardly necessary to say that all who know him concede that no better selection could have been made. Mr. Fiske has long been the efficient Superintendent of the Shamokin Valley Railroad. He is not a holiday man, but a skillful and educated mechanic, whose activity and intelligence fit him for almost any position.

Mr. Sobor, the candidate for District Attorney, is a native of Shamokin township. He comes well recommended, and his qualifications will hardly be disputed by his opponents.

Our candidate for Commissioner, Jos. M. Nesbitt, of Chillisquaque, is a gentleman of character and intelligence, and one of the best business men in the county, and just such a man as is wanted.

SOME of the Copperhead papers are very indignant that their friend Woolley has been imprisoned for refusing to testify where he got the money used for the bribery of Senators on the impeachment of the President. His guilt is not questioned, but as he is a Democrat, to be imprisoned by Butler is so great an outrage that our neighbor of the Independent advises Woolley to shoot Butler, "let the consequence be what they may." The editor, no doubt thinks if all the rogues in the ranks of the Democracy were imprisoned the greatest prop of the party would be gone.

THE NEW TAX BILL.—The separate tax bill, relating only to distilled spirits, tobacco, and the tax on banks, passed the House on Friday last. It is provided that there shall be a tax of fifty cents on every proof gallon of distilled spirits, to be paid before removal from the distillery warehouses. The compensation of internal revenue storekeepers is to be paid by the Government instead of by the distillers, as heretofore. The sixty-sixth section imposes a tax of 32 cents a pound on snuff, 32 cents on chewing tobacco, 16 cents on smoking tobacco, and \$2.50 a pound on all imported cigars.

THE RECONSTITUTION STATE.—General Schofield having officially informed General Grant of the passage of the Arkansas admission bill and the admission of Congressmen from that State, General Grant has issued an order directing General McDowell to withdraw as far as possible the military control over the State, and when finally the civil government is fully established, withdraw it altogether, except so far as it may be retained at the request of the civil authorities. The same course will be followed in regard to the other six States just admitted.

ADVICE OF GEN. GRANT.—This is the only argument the lower order of Copperhead journals seem to possess. We can respect men who oppose Gen. Grant on principle, but have the utmost contempt for the scoundrels of the press whose only arguments are scurrilous abuse. No man of intelligence or common sense, who has any regard for decency, or the proprieties of life, can afford to assail the character of a man who has done so much for his country, and whose personal faults are so few that respectable journalists have none to urge against him. Washington had his traducers, and so had Gen. Jackson, and Gen. Grant will have his as long as fools and knaves have the freedom of speech. Thank fortune, experience has proved, that to give to such men plenty of rope, is the surest punishment for their knavery and stupidity, as they are certain to hang themselves in the end. If those Copperhead journals, not omitting our own, who have any qualms of conscience or gleams of intellect left, and who, not many months since, were courting Gen. Grant, with a view of making him their candidate, could be induced to reflect on the absurdity of their position, to say nothing of the meanness of their conduct, we might hope for their reform. But fate has decreed that folly, fanaticism, stupidity and malignity, must prevail in this world, and that we must contend against these ills and bear our afflictions as the leper bears up against the sores that afflict his body.

Proceedings of the Mass Temperance Convention.

A Mass Temperance Convention, called by Rev. Pennell Coombe, Secretary for the Eastern District of Pennsylvania, met in the Court House in Sunbury, on Tuesday, June 23d, at 10 o'clock, A. M., for the purpose of forming a County Union. Mr. Coombe called the Convention to order, and nominated Rev. Mr. Hemperly, of the Lutheran Church of Sunbury, as Temporary Chairman, who was duly elected. On motion, A. N. Brice was elected Secretary. Rev. P. Coombe then gave an explanation of the work and system of the Pennsylvania State Temperance Union.

On motion, a committee was appointed to draft constitution and rules for County Union, and to report officers for permanent organization as follows:—Rev. E. B. Riddle, Jas. Beard, Esq., Rev. J. F. The Committee then reported a Constitution, which was adopted. [We regret that, for want of room, we are unable to publish it this week.]

The Committee on Resolutions reported the following, which were unanimously adopted:
Resolved, That as a Convention, we gratefully acknowledge the good Hand of God in the past history of the Temperance reformation, and exhort its friends to a constant dependence on the Divine Spirit to guide and direct their efforts to abolish the business and customs that produce intemperance with all its train of evils. The Temperance movement is a christian movement and we invoke the increased and continued services of Christian Ministers and Christian Professors. That human legislation cannot make that motto which God declares to be wrong, and as He has pronounced a way against him that putteth the bottle in his neighbor's lips and maketh him drunken, we are compelled to believe that a people who authorize the sale of intoxicating liquors as a beverage, violate the Divine Law and are responsible for all the evils which flow from the traffic. That in promoting the cause of Temperance, while it is proper to invoke the aid of the laws of the land, the principles of science and whatever will aid in the progress of the cause, the pure fare of men, the ultimate reliance of the friends of Temperance must be on the religious principle and the co-operation of the religious community. That the violation of the Sabbath more or less openly by those engaged in the sale of liquor, while the sacredness of the day is observed by all other classes of citizens, is a proof of the demoralizing tendency of the liquor trade and its disregard of restraint, human and Divine, and that the advocates of "Free Liquor," will, when they can, take away the quietness and sacred observance of the Sabbath of our land—Sunday Laws and Liquor Laws, being equally the object of their detestation.

Resolved, That the recent reports of the United States Internal Revenue Department, and other official statistics, prove the liquor traffic of the country to be a most gigantic fraud on the Government, and a system of cruel oppression and wrong to the people. In proof of which we submit the following facts drawn from official documents: The capital invested is at least \$250,000,000. The illegal sale of liquor are greater than those which pay duty, the Government having derived in 1867, of \$75,000,000 and in 1868, of \$75,000,000. The retail sales during the year 1867 were \$1,483,000,000 and the illegal sale on equal amount showing the first cost of liquor to consumers to be more than the ENTIRE NATIONAL DEBT! The licensed sales for the year were more than double the amount of all the States west of the Rocky Mountains during the last twenty years, they were more than

thirty times the value of the whole liquor property of the country; they were more than one hundred and thirty times as much as was spent in the United States for education purposes; they were ninety three times as much as was raised for religious objects. There are 1,500,000 licensed liquor houses in the country, making a solid block of buildings 495 miles long, and making a larger city, if put together, than Philadelphia is today. There are more liquor houses than churches and school houses combined. We have only 145,000 ministers combined, and 508,000 persons engaged in making and selling liquor. Distilleries have increased in the last seven years from 1,103 to over 3,000. The use of malt liquor is increasing at the rate of five per cent. annually, while drunkenness is increasing in proportion, showing that their use does not prevent intemperance. And especially do we call attention to the reason why all this capital and labor is employed, viz: 3d Resolved, That the drunkards are the greatest sufferers by the class from the evils of intemperance, and whereas, recent statistics show that many of the sex are addicted to the vice, therefore we urge all mothers, daughters, sisters and wives to be thoroughly and earnestly active in this cause; and to rejoice in the efforts of the friends of the cause, and so thoroughly convinced of their efficiency as to admit them to membership and co-operation.

4th Resolved, That we believe that moderate drinking leads to all the drunkenness in the land; and that the moderate drinker does more injury than the drunkard, because he is trusted by the community; his example is followed; his custom supports and continues the liquor traffic and he gives respectability to the whole business.

5th Resolved, That we believe the spirit of the law in this liquor traffic is to the most bitter and oppressive principle known by the action of the Brewer's Convention which met in Chicago, June 1867, said action being that "they will sustain no candidate of any party, in any election, who is in any way disposed toward the total abstinence cause; that they will sustain all political papers advocating temperance principles. In a business point of view, they will patronize only such business men as will work hand in hand with them, and will publish from time to time the names of the officers of the various Temperance Societies."

6th Resolved, That we highly approve of the adoption of a Financial Plan by the Pennsylvania State Temperance Union, and that we do earnestly urge the friends in this cause to contribute liberally to the funds of the Union.

7th Resolved, That we most affectionately and earnestly request all Temperance organizations in Christian Churches and Sunday Schools to co-operate with the State Temperance Union, especially as the Union has the largest Church membership of any of the same terms as pledged Temperance Societies.

8th Resolved, That the moral and material interests of this community and county will be greatly subserved by the hearty co-operation and sympathy of all our citizens in promoting the following resolutions: and that we therefore most cordially and earnestly ask the help of all good men and women in the suppression of the terrible vice of drinking intoxicating liquors among us, and our appeal is made all the more confidently because this organization is composed of persons from all christian denominations and all political parties.

9th Resolved, That the duties of those gentlemen who have been named as managers of this organization demand close and careful personal attention and unwearied vigilance and attention to public duty in a large measure depends the success of the cause of Temperance in this county; that for their efforts our officers and members look to that character, power and influence which are so essentially necessary to the attainment of our objects; and that we most earnestly and solemnly urge them, individually and collectively, to the utmost interest in the cause, an aggressive action against its opposers and a thoroughly faithful discharge of all their responsibilities.

10th Resolved, That Rev. Pennell Coombe, Sec'y of the Penna. State Temperance Union, by his public efforts, as well as his private labors in our midst, has fully sustained the favorable reputation which he bears as an active, energetic, and competent advocate of the Temperance Reform, and that we heartily commend to the confidence and assistance of all true temperance men and women everywhere.

On motion, Convention adjourned sine die.

JOHN HAAS, Pres't.

FROM WASHINGTON.
WASHINGTON, June 29.—The Ways and Means Committee had up the tariff bill this morning, and after some discussion it went over until to-morrow. Its prospects of passage, faint at the start, are growing dimmer daily.

ONE of the arguments used against Grant's election to the Presidency, is, that he smokes. It cannot be denied that Grant smoked the pipe of the nation by his proclivity to smoke. He smoked at Belmont, at Donelson, and at Pittsburg Landing. He smoked furiously at Chattanooga, at the Wilderness, and at Spotsylvania, and kept it up all summer until he reached Petersburg. He smoked around Petersburg and Richmond for nine months, and took a final smoke with Gen. Lee under the faming Appomattox apple tree. The old adage assures us that a good deal of smoke must necessarily be accompanied by some fire; and it must be admitted that on all these occasions Grant did much of his smoking under fire.

It is reported that the Democracy have carried the state of Mississippi by the help of the negro voters, and the following advertisement from the Port Gibson Standard shows by what means this important contest was won:
The Colored Democratic Club of Port Gibson, assisted by their white friends, will give a ball on the lawn of the Port Gibson, on Saturday, June 13th. The other colored Democratic clubs, and the white citizens of the county, as well as our friends in Jefferson and Copiah, white and colored, are especially invited to attend. There will be speaking during the day. Dinner will be served at 2 o'clock. A program will be published in the next issue of the Standard.

THE "GLORIOUS FOURTH"—An occasion of general rejoicing among all patriotic citizens, when every body enjoys a holiday, and all minds unite in a proper observance of the anniversary of our independence—has again arrived, and following in its wake we are about to have the much dreaded "dog days" extending over a period of six weeks, when all dogs exhibiting the slightest symptoms of illness are pronounced mad, and a horrible fear of hydrophobia pervades the minds of all who are so sensitive. One-half the sickness that prevails in July could be prevented and the other half cured if every family would keep on hand a supply of the Great Zingari Bitters. They are ready for immediate use and never fail to afford relief, while their timely application is a sure preventive of disease.

HOOPLAND'S GERMAN BITTERS.—Under this caption, we would call the attention of our readers to a highly scientific preparation, the merits of which have been attested by hundreds of our most intelligent citizens. It has acquired a reputation over the whole country as the best tonic known, and for Dyspepsia and all diseases arising from a disordered stomach, it has no equal. It contains no alcoholic spirits of any kind, but is purely vegetable in its character; and we can fully vouch for its curative properties, having used it ourselves.
HOOPLAND'S GERMAN TONIC is a combination of all the ingredients of the Bitters, with pure Santa Cruz Garam, orange, and Citrus. It is used for the same diseases as the Bitters, in cases where any Alcohol Stimulant is required. It is a preparation of rare medical virtue, and most agreeable to the palate.

MURDERS BY THE KU KLUX KLAN.
BOWLING GREEN, Ky., June 27.—Nathan Dawson, a returned Union soldier, was murdered near here on Saturday, by the Ku Klux Klan. He was being quietly at his home, unconscious of danger, the assassins went to his house, called him to the door, and fired a volley at him, killing him instantly, and dangerously, if not mortally, wounding his wife, who ran to his assistance. These assassins are the terror of this entire section, and their deeds are a snare of the net of Unionism is safe. Not a day passes but some deed of horror is perpetrated by them.

GRAPE WINE.—We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated grape wine upon which we have no occasion to use wine may most implicitly rely.
The wine is made at Speer's vineyards, Passaic, N. J., and has a rich flavor, mellow juicyness, and is highly beneficial in its properties. We know this to be a fact, having tried the article in the case of an invalid. The Wine bears the signature on the cork, and you are sure of getting a pure article.—*Dispatch Democrat.*

He smoked around Petersburg and Richmond for nine months, and took a final smoke with Gen. Lee under the faming Appomattox apple tree. The old adage assures us that a good deal of smoke must necessarily be accompanied by some fire; and it must be admitted that on all these occasions Grant did much of his smoking under fire.

It is reported that the Democracy have carried the state of Mississippi by the help of the negro voters, and the following advertisement from the Port Gibson Standard shows by what means this important contest was won:
The Colored Democratic Club of Port Gibson, assisted by their white friends, will give a ball on the lawn of the Port Gibson, on Saturday, June 13th. The other colored Democratic clubs, and the white citizens of the county, as well as our friends in Jefferson and Copiah, white and colored, are especially invited to attend. There will be speaking during the day. Dinner will be served at 2 o'clock. A program will be published in the next issue of the Standard.

President Colored Dem. Club,
JOSEPH DILLON, Sec.

GRAPE WINE.—We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated grape wine upon which we have no occasion to use wine may most implicitly rely.
The wine is made at Speer's vineyards, Passaic, N. J., and has a rich flavor, mellow juicyness, and is highly beneficial in its properties. We know this to be a fact, having tried the article in the case of an invalid. The Wine bears the signature on the cork, and you are sure of getting a pure article.—*Dispatch Democrat.*
