

B. WILBERT, N. S. ENGLE, Publishers. SUNBURY, PA. SATURDAY, AUGUST 1, 1868.

Local Affairs.

The August session of Court will commence in this place on Monday next, and will continue two weeks.

A NEW Post Office has been established in Jordan township, this county, called Urban, and John Schwartz appointed Postmaster.

SEVENSON & BAISER, selling Books and Stationery at lower than ordinary prices, and good glassware and knives and forks at wholesale prices.

We observe that the Executive Committee of the so-called Northumberland County Agricultural Society are making arrangements for holding their annual exhibition at Milton, next fall.

A CONVENTION of the Methodist Sunday School of the Northumberland District was held in the Methodist Church, in Northumberland, on Tuesday, Wednesday and Thursday of this week.

URGICAL OPERATION.—On Saturday last a large tumor was successfully removed from the body of Mr. Valentine Deitz, of this place. The operation was performed by Drs. Agnew and Maser.

THE STRIKE.—The Shamokin Herald, of Thursday last, says there is little to note in connection with the strike in that region during the past week. Work has been resumed at one or two collieries.

The Methodist Church at McEwenville, this county, having been painted, carpeted, &c., will be re-opened, and public services held to-morrow, Sunday, in the morning at 10 o'clock and in the evening at 7 o'clock.

THE WEATHER.—Since the refreshing rains of Friday last the atmosphere has been cooler and more pleasant. Our farmers have been blessed not only with good crops, but most favorable weather to secure them.

THE BUILDING ASSOCIATION.—A meeting of the Sunbury Mutual Loan and Building Association was held on Friday evening of last week, at which eight shares were sold—five at \$100 and three at \$101. The shares are now worth \$107.03.

COAL BREAKER.—Messrs. Tillet & Crickbank, Proprietors of Daniel Webster Colliery, No. 2, have completed their breaker at the red ash vein, near the furnace at Shamokin, and commenced shipping coal last week. It is capable of preparing about 25 car loads per day.

SPECTACLES AND EYE GLASSES.—Mr. T. S. Shannon, the enterprising Jeweler, in Miller's stone building, Market Square, has secured the sole agency for the sale of LASARUS & MORRIS' celebrated Perfected Spectacles and Eye Glasses, in Sunbury and vicinity. See advertisement.

THE MAINS SAWMILL.—This property, at Selinagro, has lately been purchased by Messrs. Schure and Fry for the sum of \$30,000. This includes the mill and all the ground and improvements attached thereto and all lumber and logs on hand, as well as the timber land up in the mountains, amounting to 2,300 acres.

NEW MACHINE SHOP.—Geo. Rohrbach & Son, of this place, have established a machine shop in connection with their foundry. They have new lathes, planing and boring machines, and skilled mechanics. They have also enlarged their foundry, and in connection with all other castings are now enabled to make all kinds of mill castings.

MASS MEETINGS.—A mass meeting of the friends of temperance will be held in the Court House, in Sunbury, on Tuesday evening, Aug. 4th. Addresses will be delivered by Rev. Irvin H. Torrence and Rev. M. Hemphry. The friends of temperance from all parts of the county are invited.

FRUIT AND VEGETABLE MARKET.—The late hot weather and want of rain was unfavorable for whortle and blackberries. Dewberries have been in market for several weeks, and sold at 10 cents per quart. Blackberries and whortleberries are now in season and sell at 10 cents per quart.

MR. D. H. DEINSMACHER recently returned from Kansas, having returned through investigation of the opportunities in that young State, concluded to locate at Lawrence. He purchased two houses and lots in the city, and bought a farm of 320 acres in Lawrence county, about twelve miles northeast of Lawrence, which latter place is in Douglas county. Mr. D. is returning to his new home in October next.—Milwaukee.

STONE PUMPS.—Mr. Peter Weaver, whose advertisement appears in another column, has supplied a number of our citizens, ourselves included, with his stone pumps, all of which give entire satisfaction. These pumps are constructed of sections of stone-work pipe or tubing. The chamber being of stone, will not warp, and the woody taste of the old-fashioned pump is avoided. The pumps will discharge a barrel of water in less than three minutes.

THE HAZLETON RAILROAD.—We are pleased to learn that the new railroad from this place to Hazleton, now in progress, will be prosecuted with renewed vigor. Mr. Dunn, lately connected with a railroad in the western part of the State, has taken charge of the engineering department of the road, and informs us that Col. F. C. Ames, formerly of this place, who first located the road, has been appointed Chief Engineer of the company. We trust that this is correct. Col. Ames' connection with the road will add greatly to its prosperity.

ACCIDENTS IN CHILLICOTHE.—High Martin, Esq., formerly Commissioner of this county, was recently injured last week by being thrown in front of a horse rake and dragged and raked until he was insensible. The rake finally passed over him, the horse being at full speed, leaving several serious wounds in his arm, head, &c. His family physician, Dr. N. C. Parsy, was called immediately, and we learn that Mr. Martin is in a fair way to recover from his injuries. We also learn that Mr. Peter Zentgraf has his heel cut off by getting in front of a reaper.—Democrat of last week.

MORE PRISONERS.—On Sunday last our county jail received three more prisoners. Daniel Williams and two women named Sylvia Apping and Elizabeth Williams, from Jordan township, were committed for larceny, &c. Mrs. Apping, who is represented as an abandoned character, has her child, aged about eighteen months, with her in jail. The little innocent is perhaps the youngest person that has ever been incarcerated within the walls of our prison.

On Tuesday last Andrew Saxson, an Irishman, residing in Oake's addition, was committed by Justice Beard, on oath of Ruff Hovey, charged with keeping a disorderly and lewd house.

THE REPAIRING OF THE RIVER BANK.—Our Chief Burgess, J. W. Bucher, Esq., will receive proposals until Tuesday next for the work of widening the river bank, from the Shamokin Valley Railroad to the south side of Spruce street, which was badly damaged by the flood last Spring. The proposals for the improvement is to be taken from the bed of the river, in such a manner as not to interfere with the navigation, and will be pushed forward and completed this season, in order that our town may be spared from the damaging effects of the Spring freshets. Had the river bank been properly repaired, last season, we would not have experienced any inconvenience from the late flood.

A STRANGER'S OPINION OF SUNBURY.—A correspondent of the Chambersburg Repository, writing from this place under date of July 7th, gives his impression of Sunbury, together with a description of the scenery, and improvements along the Susquehanna from Harrisburg to Sunbury, from which we extract the following: "Leaving Harrisburg at 2 P. M., we reached Sunbury after a most pleasant ride of two and a half hours along the banks of the beautiful Susquehanna. The scenery along this, the largest and grandest of Pennsylvania's rivers, must be seen to be properly appreciated. Towns are springing up, as if by magic, every where, and there along the course of the Northern tributaries, which surround Sunbury and Erie Road is opening up so settlement and commerce a vast extent of the richest mineral and lumbering portion of your great State.

"Sunbury is one of the oldest points of settlement in Middle Pennsylvania. An Indian town called Shoo-be-mokin existed there long before the present town was laid out. It was the rallying point of the Indian warriors and warriors who roamed over a great extent of the surrounding country. It was first settled by Shikellamy, a Cayuga Chief, of the party of the celebrated Logan. After his death, in 1739, the Indians burnt their town and abandoned the place, and it was occupied by the whites. "Fort Augusta," one of the earliest Colonial fortifications, was erected by Governor Robert Hunter Morris, in 1756, for security against the Indians, and for the safety of the pioneers of the frontier in times of danger. It stood about half a mile north of the present town. Some traces of it yet remain to be seen, but it has been almost entirely obliterated by the march of improvement, and the habitations of the white man now stand where one hundred years ago the savage Indian howled among its protecting walls, thirsting for the life and scalp of the daring settlers.

"It was reserved for the opening of the railroad to give Sunbury the impetus which is now sending it into the arms of the future. Prosperity of all kinds has trebled in value since then. Many new and beautiful public and private buildings have been erected—a spirit of emulation and improvement has seized upon the people, and in a few years the old place will not know itself.

"The new Court House recently erected by Northumberland county, at a cost of about \$125,000, is one of the finest looking county buildings in the State, and in many respects one of the best. Its tower, or bell-tower, is of solid stone and brick masonry, arched over head. The next, or the first story above ground, is perfectly fire-proof, with wire girders, and large, cool, comfortable and secure public offices and vaults—while the Court Hall is one of the most elegant, yet neat and commodious rooms I have ever seen.

"The First National Bank of Sunbury has recently erected one of the most elegant houses I have seen in the interior of the State. An immense and steadily increasing trade in lumber and coal is done there requiring large capital—and it is said that much more money could be advantageously used at this point. A good private bank would do well there."

THE NEW INDIAN AVENUE.—The Commissioners appointed to locate the new Indian Avenue are in town, having the deed executed, conveying to the State the property on which the Institution is to be built. Mr. Andrews, the Assistant Architect, is also here, under the direction of the Commissioners, making the necessary arrangements to commence operations by having the ground surveyed preparatory to commencing work on the foundation.

"Our people can scarcely realize what it will be the magnitude of this building when finished. It is to be eleven hundred and thirty-three feet in length, showing a frontage, which, if the institution was located on Mill street, would reach from the Company's store to the south side of the bridge. Taking the length of the main building, and recording wings, together with the frontage, it would reach a distance of over seventeen hundred feet. The importance to this town in the building and completing of such a public improvement, cannot be properly estimated. It will give work to a very large number of laborers and mechanics, and disburse thousands upon thousands of dollars in our midst while the character and importance of the Institution when finished will be of the kind that will always draw to it a large number of settlers and strangers. The Legislature have appropriated \$200,000 towards the erection of the building, exclusive of the cost of the farm. Fifty thousand dollars of the above fund is allowed to be drawn from the treasury of the State during the present year, to commence operations.—Democrat Intelligence.

BITTEN BY A RATTLEBAKE.—Hiram Callahan, of Melleny township, this county, was bitten by a rattlesnake under rather peculiar circumstances. He was out on a field near the snake-creek, in contact with the scythe and was cut in two. They went on round the field until they came back to the same point when they went to move the snake out of the way. One of the men attempted to lift it with the point of the scythe, but falling to do so, Hiram took hold of the piece which the head was attached, intending to jerk it away, but as quick as lightning the head came back and the fangs fastened in his thumb so firmly that he could not pull it off, except by using a knife. He cut the thumb off, and the snake crawled away. He is now recovering from his wounds.—Sunbury Advertiser.

THE HAZLETON RAILROAD.—We are pleased to learn that the new railroad from this place to Hazleton, now in progress, will be prosecuted with renewed vigor. Mr. Dunn, lately connected with a railroad in the western part of the State, has taken charge of the engineering department of the road, and informs us that Col. F. C. Ames, formerly of this place, who first located the road, has been appointed Chief Engineer of the company. We trust that this is correct. Col. Ames' connection with the road will add greatly to its prosperity.

BY virtue of a certain writ of Levari Facias issued out of the Court of Common Pleas of Northumberland county, and to the Sheriff, will be exposed to public sale, at the Court House, in the Borough of Sunbury, on SATURDAY, the 1st day of AUGUST, A. D. 1868, at one o'clock P. M., the following property, viz:

All that certain tract, piece or parcel of land situate in said township, in two counties to-wit Northumberland, in the State of Pennsylvania, surveyed on the twenty-eighth (28th) day of October, in the year of our Lord one thousand and ninety-four, for Samuel Stet, beginning at a white oak stump in the north of the lot, containing six acres, more or less, and bounded by the following lines, to-wit: north by the lot of John H. Stet, containing six acres, more or less; east by the lot of John H. Stet, containing six acres, more or less; south by the lot of John H. Stet, containing six acres, more or less; west by the lot of John H. Stet, containing six acres, more or less.

By virtue of a certain writ of Levari Facias issued out of the Court of Common Pleas of Northumberland county, and to the Sheriff, will be exposed to public sale, at the Court House, in the Borough of Sunbury, on SATURDAY, the 1st day of AUGUST, A.
