SATURDAY, NOVEMBER 21, 1968. THE SUDDEN RISE AND FALL OF COAL .-A few weeks since our community was surprised to learn that coal had advanced about two dollars per ton. Of course, this sudden advance on an article of necessity, to more Beaver, than war prices, in time of peace, was based Bedford, on no legitimate law of trade, but was the Berks, work of rascally speculators. This sudden Blair, Bradford, and extravagant advance finds no favor Bucks, with intelligent operators in the Shamokin or Schuylkill regions. Some may, temporarily, profit by it, but in the end they are the Carbon, sufferers. Miners and railway officials take Centre, advantage of it, in raising wages and tolls. Chester, The primary cause of this advance was caused by the Scranton coal speculators in Clearfield, Clinton, Columbia, long in New York, and we learn, that in Crawford, Schuylkill Haven, the prices of some kinds of coal have already declined one dollar and Delaware, fifty cents per ton. The Pottsville Miners' Elk, Journal, speaking of the sudden rise, which | Erie, it terms "The Rascality of Speculation,"says : | Fayette,

"The New York TRIBUNE, a few days Franklia, since, in speaking of the great pressure in Forest. the money market, said : Greene. "The present depression is caused by a Huntingdon, "Democratic ring, who have locked up Indiana, "twelve to fifteen millions to break all Jefferson "values, and assisted by secret sales by the Juniata, "Treasury, they have been able to give an ap-

"pearance of a want of confidence to our

securities that is entirely artificial and

One of the objects was to create the impression that the election of Grant would Lycoming result in depressing instead of benefitting M'Kean, the business of the country—but in that re- Mercer, spect they will fail, although these gamblers Mifflin, will put millions into their own pockets by Monroe, buying up these very securities at the reduced rates, caused by these manipulations.

The high prices of coal were caused by two or three speculators, who had a large quantity of coal to receive from the Scranton quantity of coal to receive from the Scranton Perry, Company, who ran up the prices regardless Philadelphia, of the interests of producers and consumers, and probably pocketed not less than \$50,000 by the operation. The high prices obtained Schuylkill. by the Company at the last sale remunerated them for the loss sustained in furnish- Snyder, ing the quantity still due purchasers, at the lower rates.

A RECISTRY LAW .- Our Legislature is

Republican, and if it does its duty as an 8020 Warren. honest and faithful body, much of the pri- Washington, 4946 4948 5051 vate legislation which occupied the time of Wayne, 2909 3397 2698 Westmorel'd, 6569 5285 former legislatures will be discountenanced. What is done should be solely with a view York. Such a measure is 321739 313882 a Registry Law. The experience of the last 09898 Majorities. election serves to strengthen the conviction RECAPITULATION. of honest men'as to its necessity. Frauds Republican vote in November, 342,280 doubtless have always been perpetrated at 313,382 Democratic elections, and always will be so long as men are found dishonest enough to see no end 655,662 " October, 331,416 in them beyond the success of their candi-Republican 221,739 Democratic dates. But every measure which makes it 653,155 nearer impossible to cast fraudulent votes Increase of the total vots should be adopted by our Legislature, if it does not encumber or prevent the free exer-Republican majority in Nov., cise of the elective franchise by those who have the right to exercise it. Of course every attempt to effect this will be resisted Increase of Republican majority, the Democratic party, a large per centage Decrease of Democratic vote. of whose voters belong to that class which can readily be used by it in any attempt to The Presidency. override the wishes of the lawful voters. FOR GRANT AND COLFAX. Honest elections are always burtful to the Electors. Popular Maj States. Democracy. Stringent election laws, how-28,000 Maine, ever fair and impartial, are invariably resist-

ed by Democratic journals. Now is the time to prevent a repetition of the disgraceful experiences of the last election, and they are so fresh in the memory of every member that he must see the necessity of doing something. Care should be taken to make the provisions of the law as simple, yet as stringent as possible.

In addition to this, Congress should do something toward stopping the leaks in our naturalization laws. As they now stand, in our principal cities where foreigners most California, de congregate, it would be little worse if Nevada, there were no restraints upon the voting at Kansas all. So long as we jealously withhold the North Carolina, right of suffrage from a large class of native Minnesota. born citizens, might we not do wisely to South Carolina, protect it from foreigners who cannot possibly understand asything about the genius and spirit of our institutions? Let the law be framed that none can vote until he is naturalized, and none can be naturalized until legally entitled so to be.

Deleware, GENERAL GRANT will go into the Presi-Mareland. dential office less trammeled by promises to | Kentucky, politicians, than any man that ever swore Georgia, to perform the duties of President with fi-Louisians. delity. Even Washington had about him Oregon, when he entered on the discharge of civil duty, what was regarded as a clique of favorites, however little the Father of his country practiced partiality. But Grant is election day, by which Republicans, and not suspected of having such favorites. especially colored voters were not permitted He has no confidents among politiciansin many places to approach the polls, was more frightful than any could have supposed. he has no interest in common with office. Just think how it must have been, when it hunters, and may be justly regarded as the is shown, by the official returns that Grant most independent President elect ever received 1 vote and Seymour 1735 in a Parhonored with such a glory. We have every registered last year. In Caddo, where the reason to believe that the great soldier will registry stood 2987 blacks to 776 whites, not deviate from his course of independent Grant gets I vote and Seymour 2895. St. action. As a warrior, he obeyed certain Mary, East Baton Rouge, East Feliciana, and fixed principles in the science of war, and St. Landry, the scene of the late rebel masother Parishes show similar figures. But then gave himself up to persistent labor to sacre, goes the whole hog, casting 4800 carry out his plans, whereby he won the votes for Seymour and none for Grant, grandest victories of the age. If, as President, Grant obeys equally great principles of right and justice, and ignores the professen through his beloved follower Rousseau. sional political tricksters which constantly What would Louisiana have done had the swarm in Washington, his victory in the illustrious Sheridan commanded in New White House will be as great and glorious, Orleans ? for all the real interests of the people, as were those he won on the battlefield.

THE FREEDMEN'S BUREAU reports that the expenditures in South Carolina during the past year were \$195,500, besides \$286,-000 used in buying subsistence stores issued President is hereby authorized, whenever he to planters with a lien on their crops. Bonds with the advice of the Senate, a General of were taken from the planters for this last the army of the United States, selected from ed through the kitchen and into the yard, amount, nearly or quite all of which will be among these officers in the military armies collected before New Year's. The crops this year are tolerably good, and all who were industrious have now abundant means of support.

Inst Saturday:
U.S. NAVAL OBSERVATORY, WASHINGTON,
Nov. 14, 1868.—Sir:—I have the honor to submit the following preliminary report of the meteoric shower of this morning. Dur-ing the evening of the 13th inst., there were 3170 14671 no greater number of meteors to be seen than are usually observed on clear nights until about eleven o'clock, when there seemed to be an increase in numbers and brilliancy, though not sufficient to indicate the begin ning of a shower. At midnight the number had considerably increased, and the prevalence of trains was generally noted.

FROM WASHINGTON.

At thirty five minutes past midnight Pro-fessor Eastman, and Messrs. Harrison, Frisby 3646 and Hays, began to count meteors and to plot the tracks of the principal ones that appeared in that portion of the heavens covered by the star chart constructed at the Observatory in 1867. At one hour and thirty-five minutes A. M., 300 meteors had been counted, most quite brilliant, and nearly 4594 all of them leaving green, blue or red trains. 4397 Thus far the display had not been confined 2616 to any portion of the sky, but most of them 1119 were in the northern and southern heavens, 4555 and scarcely any in epposition to the place 4508 in the star chart. Many of the trains were 4171 visible several minutes. One lasted ten 1107 minutes, and the track of one near Ursa 294 Minor was seen thirty minutes after the ap-

pearance of the meteor. After one hour and fifty minutes Professor 2223 Eastman, assisted by Mr. Harrison, devoted 2068 his time to mapping and noting the time of 1753 apparition of the principal meteors, and succeeded in sketching tracks of about 90 .-1647 During one hour and forty minutes 400 had been counted, and afterwards the successive hundreds were observed in the following 14303 intervals. (The intervals are here given by 4839 Commodore Sands.) The observations were 780 continued until after six o'clock in the morn-4078 ing, at which time there had been counted 1807 five thousand and seventy-eight.

2915 At two hours and twenty minutes A. M. 8803 Professor Mores and son joined the party of observation, and assisted in counting me-7762 teors in the western heavens. During the raising of this flag as an indication that the 4240 whole display there were many meteors seen insurgents intend to declare the independ2416 in the west, but from four o'clock till five ence of Spain, and says:—"We are glad 55173 the numbers were about equal in the east 1313 and west. The time of maximum frequency 693 was about five hours, when they fell at the 9428 rate of about two thousand per hour. The traitors is no longer a question of politics.

1778 radiant point was quite well defined during It becomes a question of national unity." It 1778 radiant point was quite well defined during 1318 the latter end of the shower, and found by 851 estimation to be about one hundred and ary leaders are either Domonicans or Mexi-8392 forty-nine degrees in right ascension and cans. A number of Rebel prisoners cap-1951 twenty-two minutes thirty seconds in de- tured clination.

The trains were unusually brilliant, pre-1757 senting the various green, blue, orange and 4867 red, &c., remained visible for an unusual time, frequently as many as five could be seen at once presenting an appearance when nearly dissipated of light cirrus clouds. 1766 9094 The shower commenced several bours before it was expected, as it was predicted last year it would be seen in 1868 in the Pacific ocean only. A number of star charts were distributed a few days ago to the various Ob-servatories and Pacific men of the country, and it is likely many valuable observations have been made, of which we shall soon

Very respectfully, your obd't servant, B. F. Sands, Superintendent, A dispatch from San Francisco says, there was an extraordinary meteoric shower last night, commencing about 10:30 P. M., and asting till an early bour this morning. The

display at 2 P. M. rivailed in splendor that of November 14, 1867. Several meteors left trails of light distinguishable for many seconds. Their general rection appeared to be from east to west. Dispatches from Hartford, Poughkeepsie,

Fortress Monroe and Richmond mention orilliant meteoric displays during Friday The number of meteors seen at New York,

Monday night, exceeds two thousand five hundred by actual count.

PIRE IN PHELADELPHIA.

PHILADELPHIA, Nov. 16 .- About helf past six o'clock Saturday evening flames were discovered issuing from a large double threa-3,400 story building, near the junction of Ridge avenue and Jefferson street, occupied by in a short time they attained such headway as seemed to baffle the efforts of the firemen 20,000 to check them. The fire then communicated 40,000 to a long row of shedding in the rear of the 1,000 about \$5,000, upon which there is an insur-20,000 ance of \$1,500 in the Royal Insurance Com-

8,000 at \$7,000, and on stock about \$5,000. Adjoining on the north was a large struc-10,000 ture of frame and brick, which was owned annual pilgrimage to a place where I have [By Leg.] and occupied by Adam Forepaugh for wintering the animals composing his menagerie, and which had been taken possession of but a few days before for that purpose.

Messengers were promptly dispatched to the men employed about the menagerie, and fortunately hastened to the scene. The fears 33 [by fraud] 6,000 that the building would take fire were realized, as the flames spread from the shedding attached to the saw mill. 45.000

The quick vibrations of the pistons of the steam fire engines, the exhaust steam, the shrick of their whistles, the springing of hosecarriage bells, and the general tumult incident to a fire, were enough to frighten the beasts. When, however, scores of men dashed in upon them, clad in all sorts of equipments, the animals for awhile must have thought an exhibition was being gotten up for their edification.

The flames spread rapidly, and the cry went up to save the animals, and the firemen pitched in regardless of consequences. The animals, when the flames came in such proximity, were frantic, the additional excitement, added to the noises, becoming unbear able. The dens seized by the firemen, and they moved away with them as though they were solid structures. The consequence was that some of the bars became displaced, and the animals, seeing a chance for escape, lest no time in availing themselves of it.

The dens were rudely but securely built for the purpose of holding the animals, but it was not expected that a speedy removal of them would be necessitated. In removing the den containing the lion from the struc ture on which it was placed, it received a severe jar, and the result was it commenced to fall to pieces. A large number of men, however, surrounded it and held it together until it was landed in the street, when a cage was brought up and placed over it, thus safely securing the lion, which had not ob much discussion of the law creating the tained its freedom, thanks to the bravery of grade of General of the Armies, under which the men who held the den together.

General Grant was appointed, that it has been deemed necessary to publish the act in breaking of a plank in the den during its question. It is, in full, as follows; "The removal and started off up Ridge avenue. followed by a boy. The animal jumped over a fence and went into the dinning room and so to the stable, where it was captured

ing at the fire. One of them, thinking the thing was a dog, kicked at it, but the thing would not be driven off that way, and walked into the house, the ladies making room for it when they found it would not be kicked away. A man suddenly dashed by the ladies

and into the house, where he found the thing he was in search of—a Brazilian tiger -in the kitchen, amusing itself with a cat. Whether his tigership was playing around the cat until it recovered its breath after its till further orders from Ku-Klux headquar-excitement, and then intended to devour it, ters. Saturday they burned their records. excitement, and then intended to devour it does not transpire, for the man suddenly

were moving about their cages like bats in a lighted room.

Mr. Forepaugh thinks some of the smaller animals, such as rabbits and Guinea pigs, were burned, but the largest animal missing is a monkey. It is said that a fellow was seen going down Ridge avenue with a monkey under his cont, but whether that was the missing monkey or one he runs to fires with has not transpired.

Mr. Forepaugh estimates his less at \$47,-000, upon which there is no insurance.

The Election in Georgia.

ATLANTA, GA., Nov. 14.—The official returns from all the State but nine counties make Seymour's majority 45,500. The counties to be heard from will increase his majority about 1,000. The Republican majority for Gov. Bullock in April was 7,000. The counties which in that election gave from 600 to 1,200 votes for Bullock, gave only one vote each for Grant. In six counties, which then cast 1,800 Republican votes, there was not one single vote for Grant,

The Revolution in Cuba

CAPTURE OF REBEL FLAGS. HAVANA, Nov. 16 .- The Diario to-day, published the following :- Colonel Leno remains at Tunas. Several flags carried by the Revolutionists have been captured They are triangular in shape, and have the sun in the centre, with radiating stripes of different colors. The Diario regards the that the Rebels have removed their mask. The right and duty of the Spanish Government to dispossess and annihilate these is represented that nearly all the revolution by the troops, were brought to Havana to-day.

Important from Havana. HAVANA, Nov. 11,-The provisional government of Spain has conferred on Count Baimaseda the full power to pardon all persons engaged in the present insurrection ex cept the leaders. The District Governors of the Island

have been changed, The rebels are in possession of Remate, Mata, and some other towns in the jurisdiction of Puerto Principe. Remate is on the southern slope of the Island, about forty miles west southwest of Puerto Principe, and about ten miles inlaud.

There is much fighting in the whole neighborhood. The Government admits this in a published communication Nothing has been recently heard from

A rebel commission here claim that they have plenty of money in New York, as well as war material. They also claim for the rebels the rights of belligerents.

Several Mexicans are arriving and their movements are watched, as the whole party are suspected of unfriendly designs on Cubs.

GALENA AND HER DISTINGUISHED CITI zen .- On the 4th instant, Galena, Ill., heretofore Democratic, gave her distinguished citizen, Gen. U. S. Grant, a majority for President. The county gave him a larger majority by 400, than it gave to Mr. Lincoln, in 1864. On the night of the election Gen. Grant was serenaded at his residence. He acknowledged the compliment as follows:

Friends and Fellow Citizens of Galena: 1 thank you for this additional mark of your kindness. Sufficient, I suppose, has now been heard of the result of 28,898 Messrs. Rescoe, Clarke & Co., as a saw and to show upon whom it has fallen to admin-8,000 planing mill and sash factory. The flames spread with great rapidity, owing to the large quantity of combustible material, and to say that the choice has fallen on me. The responsibilities of the position I feel, but accept them without fear, if I can have the same support which has been given to me thus far. I thank you and all others who 4,000 building, which was soon destroyed. In this bave fought together in this contest—a con-10,000 was stored a large quantity of lumber. The test in which you are all interested personfirm estimate their loss upon the building at ally as much as, and perhaps more, than I am. I now take occasion to bid you goodbye, as I leave here to morrow for Washing pany. The loss upon machinery is estimated | ton, and shall probably see but few of you again for some years to come, although it would give me great pleasure to make an enjoyed myself so much as I have here during the past few months.

D. C. DISSIRGER.

For restoring Gray Hair to its natural Vitality and Color.

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

merely for a HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS.

PRICE \$1.00. Sold by H. Y. Friling, Sunbury, and all Druggists and dealers in Medicine everywhere. November 7, 1868.—1y.

NATURE'S GREAT RESTORER. SCHEETZ'S

Bitter Cordial

This medical preperation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURR ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomseh and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Pamily Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for Diarrhoza, Dysentery, Bowel Complaint, Dyspepsia, Lowness of Spirits, Faintings, Sick-Hendache, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

JACOB SCHEETZ, Sola Proprietor,
N. W. Cor. Fifth and Race Sts., Philadelphia, Pa. Sold by all Druggists.

Orphans' Court Nale.

N persuance of an order of the Orphans' Court of Northumberland county, will be exposed to public sale on the premises, in Lower Mahonoy township. Northumberland county, Pa., cu Saturday, Nov. 28

THIRTY MILLION DOLLARS (\$30.000,000.)
of the First Mortgage Bends of the Union Pacific
Rail Road Company, and of the Central Pacific Rail
Road Company, have already been sold.

The earnings of the two (2) roads, from way business alone, were nearly (\$1.000,000) One Million
Dollars for the month of October.
One llundred Million Dollars have already been spent by the two powerful Companies.

Fourteen Hundred (1400) Miles of the route between Omaha and Sacramento are made by the Lotween Omaha and Sacramento are made by the Lo-

JOHN STOHR, Adm'r. Aver's Sarsaparilla,

and the various Cleerous affections of the muscular and nervous systems.

Syphilis or Fenercal and Mercurial Diseases are cured by it, though a long time is required for subduling these obstinate mandales by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhea or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Infammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restouer for the strength and vigor of the system.

Sheriff's Sales.

BY virtue of a writ of Fiera Facias, issued out of the Court of Common Pleas of Northumberland county, and to me directed will be exposed to public sale, at the Court House, in the Borough of Sunbury, on MONDAY, the 23d day of November, 1868, at one o'clock in the afternoon, the following property.

SHOEMAKERS.

THE best qualities of Sole Leather, French Calf hins Morrocco, Linings, Lasts, Nalls, Poga, gods of all kinds, and every things and by the tomate,

The reputation this excollent medicine enjoys,
is derived from its cures,
many of which are truly
marvellers. Invoterate
cases of Scrofulous discases, where the system
seemed saturated with
corruption, have been
purified and cured by it.
Scrofulous affections and
disorders, which were aggravated by the scrofulous contamination until
letting have been radically The reputation this ex-

Bend for our circular. Agents wanted everywh-Address JAS. T. STEWART & CO. Oct. 10 '68-2m. 2 & 4 Dey Street, N. Y disorders, which were aggravated by the scrotalong contamination until
they were painfully afflicting, have been radically
cured in such great numbers in almost every section of the country, that the public scarcely need to
be informed of its virtues or uses.

Scrothlous poisen is one of the most destructive
enemies of our race. Often, this unseen and unfelt
tenant of the organism undermines the constitution,
and invites the attack of enfeebing or fatal diseases,
without exciting a suspicion of its presence. Again,
it seems to breed infection throughout the body, and
then, on some favorable occasion, rapidly develop
into one or other of its hideous forms, either on the
surface or among the vitals. In the latter, inbercles may be subliched deposited in the lungs or
heart, or tumors formed in the liver, or it shows
its presence by eruptions on the skin, or foul ulcerntions on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease
appear. Persons afflicted with the following complaints generally find inuncilate reitef, and, at
length, cure, by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas,
Tetter, Salt Rheum, Scald Head, Ringworm,
Sore Eyes, Sore Eurs, and other crudions or
visible forms of Scrophious diagase. Also in the
more concealed forms, as Duspepsia, Dropsy,
Heart Discase, Pits, Epilepsy, Neuralgia,
and the various Ulcerous affections of the muscular and nervors systems.
