SEED OATS .- The attention of farmers is directed to the advertisement of J. G. Markle & Co. in another column, who have on hand a lot of Black oats from Prince Edward Island, British America, which they offer for seed oats. Those who desire to give it a triel will give them a call.

A Big HAUL .- The largest haul of fish, caught in a net, we have seen on record, was made by C. F. Speaker, of Chillisquaque, this county, on the 15th inst. He set his net near the mouth of the Chilisquaque creek, and when he raised it he had in it soren hundred and sixty-nine (700) fish. It had been raised the day before. Who can beat it !- Sunbury Guzetta.

PROMOTED .- We notice that our friend A A. Shissler, Esq., formerly chief of the ladies' division of the Third Auditor's office, has been promoted to be chief of the law and collection branch of that office. Mr. Shissler will no doubt fill his new position with honor to the government as well as to himself. This appointment has certainly fallen upon the right individual and his many friends may expect a still higher position for his exemplary conduct.

THE VELOCIPEDE -This novel mode of losemotion which has within the last year attracted much attention in Europe as well as this country, was witnessed by many of our citizens at the Masonie Hall. the past week. The velocipede rider is seated astride of a pole, supported by a small sized buggy wheel in front, and one behind, the front wheel being propelled by a crank on each side of the hub, by the pressure of the feet. It was amusing to witness the progress of the novices in learning to ride, running into each other and often coming to the floor, nag and rider. Some of the beginners learn rapi-ly while others improve slowly. Messrs McCall & Mclville, the proprietors, show every attention to visitors and those taking lessons.
