t first. Our climate is not as favorable for arley as it is for oats and wheat. We annot obtain a good crop unless the ground a dry, clean, and rich. It seldom does tell on recently inverted sod. Its best lace in rotation is after a highly manured and thoroughly cultivated corn crop. The est crops are obtained on a rather heavy alcarious loam, provided it has been proughly polyerized during the preceding summer and autumn. But as this is alton the case, the soils that usually gives to best medium crops are those of a lighter and warm character—or sandy loams. Barley should either be sown very early, a very late—say the moment the ground of fit to work in the spring, or not until the

fit to work in the spring, or not until the eavy spring rains are over. We have had he best success in sowing very early, say he first of April; but good crops are requently obtained when sown as late as he middle of May. Much depends upon he season. If we have heavy rains soon frer the barley is sown, and then before he plants cover the ground, dry weather ets in, the surface of the soil becomes aked, and the crop suffers. A crop sown mmediately after the spring rains, as soon is the land is in a condition to work, comnences to grow rapidly at once, and often loes better than a crop sown two weeks arlier—but not as well as a crop sown a nouth carlier. This Distressing Affection—which renders Life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those failing into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, Decay and Death. What a pity that a youn country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging is a certain secret habit. Such persons MUST, before contemplating MARRIAGE,

reflect that a sound mind and body are the most necessary requisites to promote connulsial happi-ness. Indeed without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melan-choly reflection, that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this heart disease much that this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, noctural pains in the head and limbs, dimness of sight, pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiscration, till death puts a period to his dreadful suffering, by sending him to "that Undiscovered Country from whence no traveller returns."

It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskill-fulness of ignorant pretenders, who, by the use of that "Deadly Poison, Mercury," rain the constitution and make the residue of life miscrable.

Trust not your lives, or health, in the care of the many Unicarned and Worthless Pretenders, destitute of knowledge, name or character, who copy Dr. Johnston's advertisements, or style themselves in the newspapers, regularly Educated Physicians, incapable of Caring, they keep you trilling mouth after mouth taking their filthy and pulsonous compounds, or as long as the smallest for can be obtained, and in despair, leave you with rulned health to sigh over your galling diswith rained health to sigh over your gailing dis-

This little Corn Sheller is made entirely of east iron, put together with screws so that it can be easily taken anart. It weighs only four and a haif (444) pounds, is very neat and compact, and not at all liable to break or get out of order. It can be fastened to a table, bench or chair. Large and small cars are shelled perfectly clean by it, without breaking or even scratching the grains, at the rate of 2½ to 3 bushels per hour; and this can be done by a boy 13 years of age. It shells green corn (boiled) as readily as ripe, leaving the grains whole, thus securing one-third more corn than if it were cut off the cob. CORN SHELLER.

North'd, (arrive.) 11 35 8 25

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption. Cough, Bronchitis, Asthma, and Consumption.

Probably nover before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a rollable protector against them. While adapted to milder forms of discase and to young children, it is at the same time the most effectual reasedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Crosup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing less could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of thom here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

Fever and Ague, Intermittent Fever, all Fever, Hemittent Fever, Dumbrue, Periodical or Bilious Fever, &c., d indeed all the affections which arise As its name implies, it does Cure, and does not il. Containing neither Arsenic, Quinine, Bismuth,

As its name implies, it does Curre, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through minsmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed, Prepared by Dr. J. C. Ayrar & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
