Local Affairs.

THE GROVER & BAKER and the SINGER SEWING MACHINES are acknowledged superior to any other now manufactured. Miss C. Dallas, Market street, this place, is the agent for the sale of them in this and adjoining counties. Instructions in sewing given free of charge to all purchasers. A lot always on hand. Call and examine them.

MR. W. HOOVER, has lately purchased the Flour and Feed store from Jeremiah Fassold, on Market street, and is prepared to furnish his friends with flour, feed, vegetables, &c. Billy is always courteous and accommodating, and will always be found happy when he is doing business.

COLD WEATHER.—The weather on Sunday and Monday was intensely cold, probably the coldest of the season. On Monday it commenced snowing, and snow fell to the depth of four or five inches and on Thursday ten inches.

LICENSES.—The law requires that applicants for licenses for taverns and restaurants, must have the bonds and petitions filed in the Prothonotary's office, not less than 21 days before the first day of Court. All applications must be advertised three consecutive advertisements,—the last of which must be ten days before court. Those desiring licenses should send their petitions to the Prothonotary at once.

BANK DIRECTORS.—At an election held on Tuesday last for Directors of the First National Bank of Sunbury, to serve the ensuing year, the following persons were elected:—John B. Packer, James K. Davis, snr., Jesse C. Horton, Wm. H. Waples, Simon Cameron, Wm. I. Greenough, John Haas, Wm. M. Rockefeller, Geo. F. Miller, Wm. Cameron, S. B. Warford, Alexander Jordan, and Geo. Emuller.

THE River was frozen over for the second time on Monday night last. The weather has been very cold the past few days, the thermometer standing at 6 deg. at 9 A. M.

A PUBLIC examination of the Scholars of the Sunbury Academy, was held in the Court House, on Wednesday and Thursday last, which was not attended as well as might have been by parents. The examinations we understand, were highly creditable, and the progress made by the scholars, under their tutor Mr. Brown, Principal of the Academy, has been very flattering and satisfactory.

MR. ED. T. DRUMHELLER is busily engaged in getting material together for the erection of a magnificent hotel building on the site of the old Weaver Hotel corner of Market and Fourth street. It is calculated to be the largest in this part of the State, and will be finished in first class style. We wish Mr. Drumheller success in his undertaking, and hope he may, after it is completed, be well compensated for his enterprise.

HOUSES to rent are very scarce in this place. Those having houses to rent have no trouble in getting good tenants, and at good prices. It is a great wonder to us that more members of the Building Association do not build houses for themselves, instead of paying the high rents that are now exacted. Any member owning five shares, and having enough money saved up to purchase a lot, can get enough out of these associations to build quite a snug little home, and all he would have to pay in the association would be ten dollars each month, and at the end of eight or ten years he would have his home paid for, whereas many now pay ten dollars for rent, and at the end of that time they will have nothing. Our mechanics never had a better chance than at present to secure for themselves comfortable homes, and we feel convinced if many of them fully understood the working of these associations they would build houses instead of renting them.

NARROW bottom wear in the finest imported feathers and serges, for ladies, men and children.

A REVIVAL has been in progress for several weeks past in the Lutheran Church in this place, conducted by Rev. Mr. Hemperly, pastor of the Church. Some fifty or sixty persons have come forward to seek favor with God. In some instances whole families have come forward to confess a change of life. The Pastor and members are deserving of credit for the interest they have taken in bringing about a reform among neighbors and friends, and uniting them in the holy bonds of a religious life, by inducing them to serve the Lord while in the prime of life, that they may become useful and devout members of Christ's Church. To-morrow (Sunday) the following communion of the Church will take place, when the Rev. Dr. Conrad of Philadelphia and others are expected by a number of other pastors from abroad. A cordial invitation is extended to all to attend. Meetings will continue to be held in the Church every evening next week, and the good work go on.

BUTTON MANUFACTORY.—There is nothing that adds so much to the prosperity of a place as productive industry. We are therefore glad to see that Messrs. Gerlinger and Bonah of this place, have commenced the manufacture of corn buttons, with the aid of the most approved machinery, for that purpose. They have recently received a cargo of seven tons of broom corn from Chicago. These buttons are not only neat, but unsurpassed for excellence.

ICE CREAM.—An excellent opportunity has been offered the writer to try in a stock of ice, and at no place can ice be procured and stored with greater facility than here. There is a good opening for some enterprising person who will agree to supply the table, regularly, at reasonable prices. Two hundred tons, properly stored, would supply about FIVE. One half of this sold during the season of 4 months, at an average of 50 cts per 100 lbs, would yield $500. A good business also could be done in supplying ice to other markets. High prices only prevent its general use, as at present.

JOHN HASS, Esq., is now engaged in numbering the houses in our borough. The east and south sides of the streets will be supplied with even numbers, and the west and north sides with odd ones. This is a good work and we are glad it is being done. If the borough authorities will now have the streets designated by placing the names on proper corners, the citizens will no doubt be pleased.

OUR neighbors of the *Democrat* appear to show a disposition to be sarcastic, in order to blindfold their readers in regard to the great upheaving of the "Ring," "on account of "*Olley Gammon's*" report of a "Ring" meeting. They cast up to us that we were "*crack-brained*," and that we "employed a lunatic to write" for this paper. Now, if our neighbors had any compunctions of conscience, or any sympathy for us, they would not rejoice so lustily over our misfortune in employing a lunatic, particularly when they know that they will never be subjected to the necessity of "employing a lunatic" while the junior remains in the editorial department. The old adage says, "that fools and children will tell the truth," and even a lunatic may make the guilty squirm. Since the *Democratic Guard*, a Democratic paper not in the employment of the "Ring," has taken upon itself to reply to our reporter, and has let the cat out of the bag, we hope to be credited at least for candor and honest intentions, in exposing corruptions without being charged with malice.

JACOB SHIPMAN, }
JOSEPH EISELY, } Com.
A. N. BRICE, }

WE find the following notice in the last *Milton Argus*, in regard to the "sell" at Northumberland, which was published in this paper last week:

AN EXPLANATION.—We have received from Mr. John McFarland a letter denying the account we gave last week, of the visit to that borough of five New York gamblers, so far as Mr. McFarland's connection with the affair was concerned. He seems to think our account will injure him in his business, and therefore we make the correction. We think our correspondent is over sensitive in the matter, as the whole thing is looked upon by all who have heard of it as a good joke, and no one will think any less of the parties connected with it than they did before, unless their subsequent conduct warrants a change in their sentiments.

IMPORTANT ARREST.—On Thursday morning last, Mr. H. Fegely discovered that meat had been taken out of his shop during the night, and finding foot-prints in the snow, he traced them up to the house of Mr. W. McCormick, on Walnut street. He entered the house, and found the meat which had been missing, and also discovered goods of various kinds stored away in the house. He then informed several merchants whose stores had been robbed lately, when a search warrant was procured, and the house searched, and goods to the amount of about six or eight hundred dollars was found secreted in the house. Mr. McCormick was arrested on Thursday evening, and committed to prison by Esquire Beard.

THAT $24,000.—It is rumored since the County Auditors are in session, that the $24,000 taxes will all be explained in the forthcoming report, and that the whole matter is now in such a shape that it will take some sharp looking after to discover that it has not been properly expended. A good portion of the $20,000 uncollected last year, is to be reported as having been paid previously. A large amount as having been paid to the State, and the balance for county purposes, without specifying the amount of contracts, and amount paid contractors. The *Democrat*, with the aid of another sheet, which is inclined to lean in that direction, have been consulted to show up the report, and make it appear that we have been screening the "Ring" wrongfully. Since the Auditors all along are the "Ring," and one having already stated that they have straightened matters in such a manner that it would prove satisfactory to the people, we would advise the Honorable Court of this county, to keep an eye on the report when it comes up for approval, as after its publication, in its present state, many items may be pointed out, which we feel confident the Court ought not approve.

Elegant Wear, Finest Manufacture at the Regulator.

THE LAW OF ADVERTISING.—On conclusion of a suit recently ended in New York, in which the publishers of a daily paper recovered a judgment of $750 against a mercantile firm for advertising some facts were brought out that the public will do well to heed. The advertisement was sent to the office by the firm, left with no accompanying order as to how many times it should be published. This being the case, it was marked "till forbidden," and published in every edition until the bill amounted to the sum above stated. The firm contended that it was the intention to have the advertisement inserted but once, but stated that they saw it appear day after day, and did not order it out. They held that the publishers proceed at the only and usual course left them, and that the Schedekin view negligent in not sending in an address at first, or not ordering the advertisement out subsequently, and rendering judgment for the amount of the bill.

SHAMOKIN ITEMS.—We copy the following from the *Shamokin Herald* of this week:

MYSTERIOUS DISAPPEARANCE.—Another, or, a married man aged about 36 years, has been missing from his home in Mt. Carmel, since the 14th inst. He was last seen at Coal Run, between 9 and 10 o'clock in the evening of the day mentioned, on his return from the Red Tavern, (situate about 1½ miles from that place, on the Catawissa road), where it appears he had been during the day. It is supposed he started to go to Mt. Carmel that night, and either fell into one of the numerous pits along the road, (caused by the caving in of old workings) or else was foully dealt with. Search was made in all the pits where it was thought likely he could have fallen, but no traces of him were discovered. A reward of $100 is offered by his father for information of his whereabouts or the recovery of the body.

ON Friday night last, between 9 and 10 o'clock, some would-be assassin fired into the house occupied by Charles Chenawalt, in this borough, the shot—a slug from a revolver—passing through the door of the sitting room and striking the wall opposite. Mr. Chenawalt was in bed at the time, but during the evening, and up to within a few minutes of the occurrence, had occupied a seat directly in range of the shot. The perpetrator was not detected. Chenawalt is a miner, and has been working independent of the union.

AT an election held by the Directors of the North'd County National Bank at Shamokin, on Wednesday, 13th inst., F. W. Pollock, Esq., was unanimously reelected President, and F. S. Haas, Esq., Cashier, to serve the ensuing year.

NORTHUMBERLAND COUNTY COAL TRADE.—We have but little to report. The following six collieries are now at work: The Cameron, Bear Valley, Barnside, Shamokin, Frank Gowen, and Ben Franklin; and we learn that one or two more expect to resume in a few days. The cold weather and snow during the first part of the week curtailed the shipments considerably. About 170 cars are now sent away daily from these operations.

The reports of disturbances in our Region have been exaggerated. Around Shamokin and its vicinity good order prevails.

THE *Democrat* in referring to an article in our issue of the 14th inst., by a "Tax Payer," which he belongs to the Republican "Ring." We have only to say that we belong to or know no "Ring," and stand ready to denounce wrong and corruption without regard to party. In this we differ from the editors of the *Democrat*, who could not readily be induced to publish an article reflecting on the Court House "Ring" or any of its members.

MT. CARMEL, JAN. 19, 1871.

MESSRS EDITORS:—Our little town still flourishes and improves paying little or no regard to the suspension now in progress. There are several improvements now in course of erection, which will add to the welfare of agriculture, and we hope, remunerate those interested. J. M. John & Bro., are about putting up an extensive building on Oak st., which they intend filling with a full line of Hardware, and will be ready by the 1st of April to sell miners supplies, &c., at city prices. James Greenwood, late of the firm of Greenwood, Gilmour & Dorlieser, has started a screen and boiler factory in Maple st., and is prepared to receive orders for screens &c. John B. Reed is about putting up a shovel factory, and expects to be able to compete with the cities in furnishing shovels to our operators, in this section.

Talking of improvements, reminds us as we walk down Oak street, of the splendid appearance of a "live Light" in wood, in front of our friend Stahl's cigar store. His extended head offers you your choice of a bundle of fine Yara's cigars. On the next street, back of Oak, a very fine school house has been erected for the accommodation and instruction of the young folks of Mt. Carmel, and if they do not become smart and intelligent, it certainly will be no fault of the building. On the next lot adjoining, there is to be a large storeroom, with a Town Hall over-head. The walls are now being put up. The building is being put up by the W. B. A. of Mt. Carmel, and it is hoped that it may soon be completed, as a Hall is badly needed in this place.

During our walk we witnessed a severely contested prize fight between two lovers of the "manly art." Their names, we are sorry to say, we did not hear. We did not count the rounds fought, but was told by one of the seconds that they fought 147 rounds in 10 minutes, and were still good for 73 more, but the borough guardians, "never ready when danger has fled," arrived on the spot, and after shooting their stars, frightening their "Locusts," and hooting their silver whistles, the crowd was promptly dispersed.

The Green Ridge arbitrometer were in town today, laying in a stock of luxuries prior to their inauguration, which takes place every saturday evening at 9 o'clock, *sharp*. The public are respectfully invited, &c.

A MAN was arrested last evening for setting fire to the bed clothes, and attempting to burn the house. The fire was extinguished, the man put in the lockup, and the next morning paid another visit to the Sheriff at Sunbury.

Coal Cut Colliery has stopped! The cages we have not heard. They had been working under the cooperative system. Those within more than six months, shall see you again. PAT.

WE notice that W. S. Rhodes, and John P. Hinn have entered into partnership in the retailing of Coal in this place. They will furnish the very best that can be had in the Coal Region, and having facilities superior to other dealers they will supply their customers regularly. Both have had experience in the business which enables them to select none but the very best, and as they are known to be gentlemen with interbusiness experience, they will no doubt receive a large share of retail trade in this community.

Jottings.

LENT, this year, begins on the 22d of February and ends on the 9th of April.

ST VALENTINE'S Day comes on the 6th of February.

A WISIT writer says: Lawyers and clients resemble one of the two rows of people at a fire, one passes along full buckets and the other empty ones.

CHIEF Burgess John Tobin, of Shenandoah, was shot by John O'Brien on last Saturday night a week. He is recovering and O'Brien is in jail.

DANVILLE is short of coal, and the miners' strike will be seriously felt there.

A CHECK OF CHOICE WORKS, OF LATEST STYLES, including Lever Watches, Chronometers, Watches, Jewelry, Silver Ware, Clocks, &c., &c., at the sign of the big watch, in front of the city.

A narrow gauge railroad is talked of from Lock Haven to Jerseyville.

THE Milton Car Works are making up for lost time by employing a double set of hands.

SCHUYLKILL county has 98 physicians, divided as follows: Allopathic, 79; Homœopathic, 12; Hydraulic, 1; Eclectic, 1; Miscellaneous, 1; total, 98.

LET THEM FLOURISH.—Some of our young men who go to see girls have adopted a new mode of obtaining kisses. They assert on the authority of scientific writers that the concussion produced by a kiss will cause the flame of a gas jet to flicker, and easily induce the girl to try the experiment in the interest of science. The first kiss or two the parties watch the flame to see it flicker, but soon become so interested in the experiment as to let it flicker if it wants to. Hence the term "Let her flicker."

WOOL.—The fact must never be lost sight of, that Wanamaker & Brown make up only all-wool goods. The low prices at which they sell, have led some people to think that there must be some cotton in their materials. But this is not so, "All-wool" goods at "cotton prices" is the rule at Oak Hall.

PIANOS AND ORGANS.—The subscriber, agent for the best Pianos and Organs in the world, will guarantee them for five years and sell the cheaper than any traveling agent can afford them. But first-class makers employ no such agents. H. E. Musser.

It thoroughly eradicates every kind of Humor and Bad Taint, and restores the entire system to a healthy condition.

It is beyond question the FINEST TONIC IN THE WORLD.

Thousands have been changed by the use of this Medicine from weak, sickly, suffering creatures, to strong, healthy, and happy men and women.

Invalids cannot hesitate to give it a trial.

No medicine has obtained such a great reputation as this justly celebrated compound.
