SUNBURY, FEBRUARY 18, 1871.

THE TEST OATH .- The Democrat of last week, in order to keep up a spirit of opposition, finds fault with the vote of our member, Hon. John B. Packer, in opposition to the repeal of the test or iron clad oath. Whenever the people of the Southern States are willing to conform to the laws, and give some evidence of their willingness and give some evidence of their willingness. The formula of the people of the Southern the people of the sou to forget the past, and behave themselves as good citizens and honorable men, it will be time to relieve them from restrictions, necessary to impose upon cut throats, here. thieves and other lawless persons. To exempt unrepentent rebels from all disabilities, would only encourage them to con-'loue in their lawless course.

Whether through design or ignorance, editors of Democratic papers have impressed their readers with the belief that the people of the South have been deprived of WHAT THE COMMISSIONERS ARE DOING. the right of suffrage on account of the testeath. The fact is there is no act of Congress, nor has there been any act, that county treasurer and made their report, prevents any properly qualified person which will be found in another column from voting who is otherwise qualified by the laws of the State in which he resides. The disabilities complained of, refer only to the eligibility of persons holding office. If the people in the South have not the same priviledge in voting that we have, it is owing to restrictions imposed by the known through the publication of the tes-Jawa of their own State.
