"THE Workingmen's Benevolent Association and other combinations of laborers who get up "strikes" in the coal mines and other places, are in our judgment the fruits of political demagogues, and do everybody harm, and none less than the poor strikers themselves who are constantly kept in a state of excitement and uncertainty, and who during the strikes consume or squander all they posses, whilst the whole trouble arises from a set of demagogues who are using them for political purposes."

The above is from the Selinegrove Times, | London committee. the organ of the Democracy of Snyder! County.
