

FOR ANDERSON GENERAL, DAVID STANTON, OF HEAVY COUNTY.

FOR SURVEYOR GENERAL, ROBERT B. BEATH, OF SCHUYLKILL COUNTY.

WE are glad to learn that there is an end at last to all the Legislative troubles at Harrisburg, and to the Republicans belongs the credit for it.

This resolution was passed and sent to the House, where a discussion had also been had on the same subject, and where it was referred to a special committee of three, consisting of Messrs. Strang, Josephs and Johnston.

These resolutions were immediately adopted and sent to the Senate, and by that body concurred in. A resolution was then passed by the Senate adjourning sine die to day (Saturday) at noon, and this again was agreed to by the House.

VICE PRESIDENT COLFAX STRICKEN DOWN BY PARALYSIS.—A Washington telegram announces that about 4 o'clock, on Monday last, Mr. Colfax felt himself growing faint, and called Mr. Pomeroy to the chair, and as he arose to leave him, grew dizzy, and he had to be helped to his room, where he lay down upon the sofa and sent for a physician, by whom it was at once pronounced paralysis.

THE Grand Secretary of the Grand Lodge of Pennsylvania, I. O. O. F., in his annual report, says the membership of the order has more than doubled itself in seven years. In 1864 it was 39,543; in 1870 it footed up 80,753.

FIRE AT LOCK HAVEN.—On Sunday afternoon last, a fire broke out in the large Steam Sawmill of Messrs. Young & Worth, at Lock Haven, which consumed the mill together with a large amount of lumber, and several small buildings adjoining.

THE piling ground contained nearly 3,000,000 feet of lumber, out of which only about 150,000 feet was saved. About 400,000 feet of this lumber belonged to parties in Williamsport, and about 100,000 feet to Messrs. W. A. Simpson and R. R. Bridgman of this city—the balance to the firm, who estimate their loss in lumber at about \$600,000, with not a dollar of insurance to cover their loss.

THE PLAGUE IN BUENOS AYRES.—The ravages of the yellow fever in Buenos Ayres has been terrible. A city of two hundred thousand inhabitants has been almost depopulated. Twelve thousand have already fallen victims of the fell destroyer. All that could be saved were the twenty five thousand remaining, and these are all in a state of prostration.

RESUMPTION.—The correspondent of the Philadelphia Evening Telegraph of Saturday last, has the following in regard to the resumption of operations in the Anthracite coal region:

The resumption of operations in all the anthracite regions is daily becoming more general. As predicted, the resumption of one region necessarily carried the others with it. The latest despatches report that coming to terms of the Delaware, Lackawanna and Western Company's men, who at the last moment agreed to accept the company's terms and ignominiously bring up the rear.

The men of that region must by this time see at least some light of the folly of their course. After standing idle and losing money for the best part of six months, they now resume work, some having gained a paltry advantage of five cents per ton without even the excuse of a principle upheld and obtained, while others have gained absolutely nothing, resuming at the terms offered when the strike was inaugurated, and being obliged to trust to their employers for the hope even of something better.

These resolutions were immediately adopted and sent to the Senate, and by that body concurred in. A resolution was then passed by the Senate adjourning sine die to day (Saturday) at noon, and this again was agreed to by the House.

There has been a slight fear that the Schuylkill resumption is not bona fide, and that an attempt will be made after some work is done to get better terms by threatening another strike, the men thinking the operators would rather accede to their demands than stop work again after once starting. There is, however, very little ground for such fear.

The city is now almost wholly occupied by the Versailles troops, and the complete overthrow of the insurrection is at hand. The Versailles troops have surrounded Montmartre, and are gradually closing in upon the Communists, who have chosen this as their last grand point of defense.

The Versailles troops have surrounded Montmartre, and are gradually closing in upon the Communists, who have chosen this as their last grand point of defense. The attack is now in progress. The Versailles cannon sustain a deadly and effective fire upon the insurgent barricades.

There was great excitement at Scranton, last week, growing out of the coal strike. A number of men had gone to work, and the regular miners showed a disposition to do so. They were armed on their way to and from their work.

IMPORTANT FOREIGN NEWS. VERSAILLES, May 21.—Evening.—The Versailles forces entered Paris at 4 o'clock this afternoon. The entrance was effected simultaneously at two points—the gate of St. Cloud, near Pont-de-Jour, and the gate of Montrouge, on the Boulevard Brune.

A circular from President Thiers officially confirms the entrance of the troops into Paris. He says: "The gate of St. Cloud having been battered down General Douai rushed in, and Generals L'Admirault and Clinchamps are preparing to follow."

There is a panic in Paris, and Pyat, Grousset and other rebel leaders have disappeared. The Versailles troops occupying three-fourths of the city.

The Versailles troops have surrounded Montmartre, and are gradually closing in upon the Communists, who have chosen this as their last grand point of defense. The attack is now in progress.

THE ADAMS EXPRESS ROBBERY. A special telegram from the 17th to a Cincinnati paper gives the following particulars of the recent heavy robbery at Columbus, Ohio.—The robbery, early this morning, of the depot office here of the Adams Express Company was one of the most cleverly planned and successfully executed achievements of the kind on record.

SOUTH AFRICA shipped 5802 diamonds in 1869-70, valued at \$661,576. The quantity is inferior.

A PITTSBURGH drunkard lay down on the railway to take a nap. But for a philanthropist caring and removing him, it would have been his last nap.

There are several kinds of worms which trouble horses; the pin-worms (which at both ends) are the most common and most dangerous. Sheridan's Cavalry Condition Powders will in a few days eject the worms, and the horse will begin to thrive.

The old maids of the Eastern States, who have been shipping themselves to the West to get married, can't secure a husband and a home together, after eating supper, as many suppose.

There has been such a rush that the bachelors have become particular, and now put them through a catechism, as "Where's your other glass eye?" "How long have you been blind-headed?" "Am your false teeth paid for?" &c.
