Chas. Gamborn.

Ion Cold Sola Water, with a large collection of syrups to self our petromage. The most paintable and refreshing drink for badies and gratic-tim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and self-tennely is within the case, men, on a warm summer day or evening, at Dr. Moson, S Dring Store

There is no lack of selling oil boots and shoes at the Excelsior store of W. H. Milber, in the stone building on Market street. They are not only sold at retail, but we notice many merchants buying at whole-sale, who save the freight by doing so, and get a better article besides. The whole-sale business is drawing quite a trade, because his stock is constantly kept up and a bet-cause of thousands, and is to-day, carrying comfort and encouragement to thousands of A CONFIRMED DYSPEPTIC. mfor and encouragement to thousands of hers. This neignowinged paraces is none

other than DE HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful tagdicine than can be learned from the experience of others? Try it your elf, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abundon faith i

LET IT BE REMEMBERED.

first of all, that HOOFLAND'S GERMAN EIT-TLES is not a ram beverage.

They are no alels lie in any sense of the term.
They are composed whally of the pure false or vital principal of roots. This is not a more as-section. The currents from which they are com-pounded are prepared by one of the ablest of German chemists. Unlike my other Bitters in the market, they are wholly free from spirituons the market, they are wholly free from spirituons ingrellents. The objections which hold with so much force against preparations of this class, namely—that a desire for intextenting drinks is althurized by their mas, are not valid in the case of the German Bitters. So far from encouraging

of the German Bitters. So far from encouraging or incubation: a taste or desire for incidentaling betweeness, it may be confidentially asserted that their tendency is in a diametrically opposite direction. Their effects can be BENGFICIAL ONLY in all cases of the billary system. Hoof-innal Sciential Bitters stand without an equal, acting premptly and vigorously upon the latest, they remove its torpility and cause healthful escretion of bile—thereby supplying the standard with the most indispensable elements of sound altestical in proper proportions. They give time to the stounds—stimulating its functions, and emoling it to perform its duties as nearly designed it should do. They impert vinor and strength to the entire system, causing the patient ged 3 years, 5 months and 14 days.

Strength to the entire system, causing the patient to feel like another being—in fact, giving him: new lease of life, THEY PURIFY THE BLOOD, cleaning the

vital fluid of all hartful imparities and supplicating them with the elements of genuine healthfulno s. In a word, there is scarcely a disease in which they cannot be safely and beneficially employed; but in that most generally prevalent distressing and drended disease, Dymoreto, THEY STAND UNRIVALIED.

Now, there are certain classes of persons to whom extreme litters are not only angulatable, but who find it impossible to take them without positive discounter. For such

DR. HOOFLAND'S GERMAN TONIC has been specially prepared. It is intended for use where a slight alcholic stimulant is required in connection with the well-known Tonic pro-perties of the pure German Bluess. This Tonic perties of the pure German Bliles. This Tonic contains all the ingredients of the Riters, but so flavored 4s to remove the extreme bitterness. This preparation is not only polarible, out combines, in modified forms, all the virtues of the German Bitters. The solid extracts of some of Nature's choicest restantives are held in solution by a spirituous agent of the purest quality. In cases of language or excessive debility, where the exclosion agents to have become exchanged of In cases of language or excessive debilly, where the system appears to have become exhausted of its energies, BOOSLAND'S TONIC acts with almost may clous effect. It not only stimulates the flagging and wasting energies, but having or ates and permanently strangthens its autous appears the biver and Stomach thorough, perhaps less prompt than the Bitters, when the same quantity is taken is more the less critain. Influention, Hillianness, Physical or Nervans Progration, vicil readily to its potent Inducers. It gives the lavelled a new maintronger hold upon life, removes depression of spirits, and inspires cheerfulness. It suppoints the pain of discrete with the case and comfort of period builts. It gives strongth to weakness, thereas deprechancy to the winds, and starts the restored health upon a new and glassome esseer. But Dr. Houfland's to new and gladsome error. But Dr. Hoofine's benefactions to the bundan race are not confined to his eclebrated GERMAN BUTTERS, or his barainable Toxic. We has prepared amaker unclining which is rapidly winning its way to popular favor accuracy of its intriusic merits.

HOOFLAND'S PODOTHYLLIN PILLS, a perfect substitute for moreary, without any of moreary's evil coeffice. These wonderful Fills, which are bitended to

These wonderful Talls, which are intended to not upon the Liver, are mainly composed of Po-do-phyllin, or the VITAL PRINCIPLE OF THE MANDRAKE ROOT.

Now we delice the reader to distinctly anders should that this cavact of the Mandrake is many those more powerful than the Mandrake theil. It is the medicinal virtues or this health silving plant in a periodly pure and highly correspond form. Hence it is that two of the Podophyllin Pile constitute a full those, while may here size

Pills constitute a full door, white anywhere a lockstar a bandful of other preparations the Mandruke are avgolved. The Podentyll ACTS DIRECTLY ON THE LIVER, stough that he has just uponed a large and annual attendance of the large annual attendance of the large annual annual attendance of the large annual attendance of the large annual annua
