SUNBURY, NOVEMBER 4, 1871.

THE Democratic papers that are constantly insisting that money was used by the leaders of the Republican party to carry the State, are certainly not complimentary to the better portion of their partizan friends, because the inference must be that Democrats are merchantable material, ready at any time to sell their voces. We have a better opinion of the Democrats who voted Republican tickets at the late election in this State. Judging from these we know in this county, who were loudly denounced as renegades, disorganizers, &c., by the Demogratic organs of the county, we are of the opinion that they are far better Democrats to-day than their traducers. They voted as their conscience dictated in order to suppress fraud and corruption which was fast ruining the party, while those who care for nothing but office were advocating the election of men who have been known for years to indulge in low trickery, and who violated all party regulations to secure their ends, cheating the more honorable men in order to gain position themselves. This has been acknowleded since the election is over. Besides, the people saw that there was great mismanagement in our county affairs, and they were determined on a change. This state of affairs existed in many other districts of the State. These Democratic editors, who are charging their partizans with being bought up like cattle, when they are simply performing a consciencious duty, will find that there are thousands of honest Democrats who will not feel complimented by such charges made by their organs, and the effect will be to estrange them forever from that party.

MUCH complaining comes from South sands, and there must be much suffering ished region. "Men are anxious to learn nent institution, open all the year round. if the government will grant protection to the innocent" queries another correspondent. Never were the South Carolinians more astounded. The proclamation suspending the writ of habeas corpus came upon them like a thunderbolt out of a sunlit sky. They were permitted to do as they pleased in bygone years, even to seizing the national forts, without let or bindrance from the authorities at Washington. The new order of things bewilders them utterly, and they can think of nothing more chivalrous to do than fly from a region where they cannot break the laws and defy the civil courts at will. Warnings of the punishment new upon them they treated with contempt, and now that the blow which they so wantonly provoked has fallen up in their helpless families they should blame themselves, and not the government which they so long defied.

Editorial Correspondence. NEW YORK, October 27, 1871.

The all-absorbing topic of the enormous frauds and robberies committed on the city Treasury by the officials of the Tammany democracy, is somewhat divided by the expected arrival of the Grand Duke Alexis, son of the Emperor of Russia. All are anxious and willing to honor the young own, but as a mark of respect and gratitude to his imperial father, whose friendship for this country has been evinced on meny occasions. The result of the approaching election is awaited with more than usual interest, as some of the candidates are involved in the great frauds on the city Treasury. The late investigations show that Wm. M. Tweed and his confederates have managed to swindle the city within two years out of nineteen millions of dollars. And yet this same Wm. M. latter battle. Tweed is a caudidate for Senator, and his flags with his portrait are flounted across Broadway. With the millions which he has filehed from the Treasury, used and distributed by the 5000 retainers under his employ, he expects to ride into office, in defiance of the good men of all parties.

ITALIAN DIFFICULTIES. - The complications in the Catholic Church seem to be rapidly drawing to a head and threatening instant and future troubles. The Pops has just issued two State papers, in one of which he takes occasion to protest vigorously against those guarantees of ecclesiastical freedom and supremacy with which the Italian government sought to smooth its assumption of secular power at Rome. He denies the powers of the Italian government, repudiates their guarantees and apparently refuses terms in toto. He threat-ens to leave Home unless the French Ambasaador receives instructions in his favor that France will not give and could not maintain if given. A conclave has been summoned to sit in France and take action for the contingency of his death. So many issues, all of which are important as well as cotemporaneous, render the probability of new disturbances at Rome and in other parts of Europe highly probable.

He had been at the office since 10 o'clock his morning, arriving, it is said, from Greenwich, Ct., having passed the night there with his family. He was quite aware that he was to be arrested to-day, but appeared to treat the matter lightly, although a close observer could not fail to detect a degree of nervousness beneath the assumed appearance. The Sheriff was immediately admitted, but no one else, and the representatives of the press were strictly excluded. What took place, therefore, when the Sheriff served the order of arrest, we are unable to describe. It is understood, however, that Mr. Tweed expressed pleasure at receiving the Sheriff, and stated that he was gratified that he should at last have the opportunity he had all along desired, of meeting his accusers before a legal tribunal. The condition of the city and county finances, as shown by these investigations, has served to destroy all confidence in the management of the city officials.

While not desiring to arrest the important improvements now in progress, your Committee still deem it absolutely essential to the credit of the City that expenditures in all departments be reduced to the lowest possible limits: that every officer and salaried employee whose services are not indispensable be discharged, or requested to resign; that contracts be subjected to the most rigid scrutiny, and all expenditures be reduced to an amount clearly within the financial ability of the Treasury.

The demands upon the City Treasury will necessitate the borrowing of large sums of money at an early day. An appeal must be made to moneyed institutions and to capitalists. CHICAGO-THE ENERGY OF THE BURN-ED OUT CITIZENS.—A private letter from a young man who had a situation in a business house, now burned out, in Chicago, dated October 22, says:

"The most marvelous thing to me about stock the whole affair is the enterprise and energy manifested by nearly every one. All the larger houses have made contracts for new buildings, which are to be run up two stories this fall, and roofed in for the winter. Most of them will be plain brick structures, but much more solid and sub-

stantial than before.
"The Rumsey Brothers will come out very well, and resume business at once on the strength of their reputation as the safest gitimate commission house in the city. 'Having drawn my week's pay on Saturday, I was richer by that amount on Monday than a number of men upon whom I had looked as millionaires. One man said to me: 'On Sunday night I had all the money any man need to have, and to-day I have not five cents to buy a loaf of bread for my wife and children, and I owe over \$75,000. He was as jolly as possible about it, and spoke of starting in business again as soon as he could find a store to put a stock in. The number of Mark Tapleys is wonderful. Everybody is coming out strong under adverse circumstances.'

The next State to the east, Tamaulipas, extending from the Rio Grande to Tampico, has heard another pronunciamiento against Juarez. Is different from all others. It is composed of
the pure Juices, or Vital Principle of Roots,

The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spir. tuous ingredients, this Bitters is free from the objections arged against all others: no desire for stimulants can be induced from their new they cannot make dendered. from their use; they cannot make drunkards and cannot, under any circumstances, have any but a beneficial effect.

HOOFLAND'S GERMAN TONIC. Was compounded for those not inclined to ex-treme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with purce SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters. The price of the Toule is \$1.50 per Bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal pre-paration should contain none but the best ingredients; and they who expect to obtain a cheap compound, and be benefitted by it will most cer-tainly be cheated.

Hoofland's German Bitters, or HOOFLAND'S GERMAN TONIC, with HOOF LAND'S Podophyllin Pill,

will care you. They are the Greatest BLOOD PURIFIERS known to the Medical world, and will cradicate diseases arising from impure blood, Deblity of the Dispestive Organs, or Diseased Liver, in a shorter time than any other known remedies.
