SUNBURY, NOVEMBER 11, 1871.

WE clip the following from the North umberland County Democrat, which is one statement among a thousand of a similar character now circulating among the Democratic papers throughout the country :

"The party that a few years ago got up a war to free the niggers, that cost the lives of millious of our very best and bravest men, and enslaved the country with debt and taxes-now offers the white people of the South liberty to live in swamps or in fails and prisons that a black mob forces them into.

Truth is mighty and should prevail. The great Napoleon discovered that an untruth was equal in might, and pronounced a lie a great power if aptly placed-a power which he could wield with a certainty in the accomplishment of any selfish design. The preceding extract is an untruth evidently intended to accomplish the selfish purpose of promoting party interests. The violation of oath by officials, the sacredness of which is the very foundation of society, and political lying, we regard as the two greatest evils that threaten the stability of the Republic to-day. The one breaks down the only barrier existing against violence and fraud-for instance such as was perpetrated by the municipal government of the city of New York-the stapendousness

savageness of brutes-their practices upon more are to follow. Paymaster Hodge, the brutality of their crimes-the govern- offense. All others, whether their delinment, after collecting the indisputable facts, quencies be little or considerable, are being has merelfully interposed its power, and cited into the Courts. The President and Why, the Napoleonic lever is brought into that justice may be done. We had some requisition, and the insidious lie goes forth notable instances of this in our own city, that the Government which "got up a war says The Wilmington Commercial, cases in to free the niggers, now offers to the people of which there seemed to be some hardship, the South liberty to live in sceamps or m too, for those upon whom the penaltics of jails and prisons, &c." Judge Jordan has presided over this Judicial District twenty years, having been twice elected to the position, and would have been elected the third time, without opposition, had he consented to be a candidate. But increasing years and declining health admonished him that there is a time for all things, and induced him to decline the honor, which all good men without distinction of party would have gladly conferred upon him. Denth of Colonel Stanton. We regret to announce the unexpected death of Colonel David Stanton, Auditor General elect, at New Brighton, Beaver county, at one o'clock on Sunday morning, the 5th inst. The death of Col. Stanton presents serious difficulty in the selection of a successor. The term of the present Auditor General will not expire until the first Tuesday in May next, or until a successor

is duly qualified. The official certificate of Col. Stanton's election will be made out by a joint committee of the Legislature, whose duty is to count the votes cast at the late election, but Mr. Stanton will not be able to respond and assume the duties of the of-fice to which his fellow citizens called him ; hence he will not be able to take the oath of office, and General Hartranft will continue to act until the Legislature can cure the difficulty. If Col. Stanton or any other Auditor General had died in office the duty of appoint-

ing a successor would devolve upon the Governor. The act of Assembly provides that "the person so appointed shall contin-ue in office until the end of the term for which his predecessor was elected." The question now presented is entirely

new, and we have no doubt that the Legisterm could be extended until the first day of December or January, it would give the people at large an opportunity to fill the office at the next general election without incurring any extraordinary expenses. But thirteen members.
