Rumors of his Inteded Flight.

Although Mr. Tweed has denied that ha intends to resign his position as Commis-sioner of Public Works, and strenuously asserted his intention of taking his seat in the Senate, the belief is general that he will resign if the flight for which he is believed to be making preparations does not occur prematurely. On Saturday a gentleman, who has every means of obtaining trust worthy information in regard to the ring movements, said to a Tribune reporter : "I am not at liberty to give you any author-ity, but I know that Tweed will resign his position in a few days. I tell you this, knowing that it is correct." This was indorsed by a prominent member of the Tammany society. On several occasions, last week, Sheriff Brennau, who is supposed to know much more of the inner working of the Tammany Ring than he chooses to di vulge, prophesied startling developments, and one of these is thought to be Mr. Tweed's flight at an early day.
