SUNBURY FIRE INSURANCE CO-THE DIRERTORS OF THE

SUNRURY HORSE AND CATTLE IN SURANCE COMPANY.

Are now, takaing fire risks under their special An charter granted by the Legislature. The recent great calamitous fires of Chicago ad Boston have proven conclusively two facts.

and Bb 1st. That Mutual Insurance Companies pro-cide the most security to the assured for the smallest cost and are the best able to sustain heavy losses.

2d. That Home Companies are an absolute recessity and furnish the best guarantees for payment of losses as they cover no heavy risks wooking outside of cities and cannot be affected by such great conflagrations as the Boston and Chicago fires which have ruined many of our best and strongest Companils.

THE SUNBURY FIRE INSURANCE CO., By special privileges works the joint stock and utual plans together, thus enabling them to enjoy the advantages of both modes of insurance without doing the injustice to the holder of the mutual policy by assessing him for the benefitor

the stock holder. All policies are issued on the mutual plan. All risks are taken outside the great cities, and by on such property as is not so exposed as to hazardous. This enables the Company to insure for less rates than many other Companies and supplies a great need now felt by all of a re-SAFE HOME INSURANCE COMPANY.

Their Jolat Stock Plan protects against exorblant or repeated ascessments. RELIABLE AGENTS WANTED.

Address C. A. REIMENSNYDER, Secretary, Sunbury, Penn'a

the entry water

Where the Sait in Sea Water Comes

The sea depends on the disintegration of

rocks on land for its saltness. It does not

originate in oceans and seas. Rains wash

it and hold it in solution as particles are

liberated by violence, decomposition and

gradual action of many natural forces. All

streamlets and rivers, therefore, are con-

stantly transporting salt to the sea. If

Hence the particles are spread abroad and

mixed up with the soil. The negroes of Kalliul, in Northern Africa, having discov-

ered its distribution where there is no

water to dissolve in the ground, leach it.

In that way they separate the sait. By evaporating the water holding it in solu-

tion, an excellent article for domestic pur-

poses is produced. Salt pervades the earth.

It exists in the grasses and most vegetable

products on which animals feed. In that

SOCIALISM DEFINED. - Here is a practical definition of "Socialism" as understood by those who go in for that beautiful doctrine. Two worthies, admirers of Odger, Bradlaugh & Co., are on the point of en-tering a "pub," in the vicinity of the Hele-in-the-wall, London. One says:

"Look 'ere, Bill, you've been to some o' them meetings at Trafalger Square-what do they mean by Socialism--eh ?" "There's a question ! Well blow me, if

I thought you was such a bass, Jack ! 'E o's a public, isn't it ? Werrey good ! We goes in, an' you says to me, says you, 'Bill,' says you, 'Wat'll yer'ave to driak ?!

I says to you, 'I'll 'ave a quartern of of

gin or a plut o' 'eavy wet, or wot not'-an' you pays. Then I says to you, says I,

Wat'll you 'ave, Jack ?! which you names,

"Then you pays ag'in. That's Socialism,

Why, it's the landlord as

"cording to Odger, nn' he knows." "All right. But s'pole 1'm a Socialist too ?--who pays then ?"

"Well, but s'pose the landlord is good a Socialist as us? How d'ye settle it,

"In that case we fights it out on the,
