BALTIMORE LOCK HOSPITAL, DR. JOHNSON.

Physician of this celebrated Institution, has discovered the most certain, speedy, pleasant and effectual remedy in the world for all DISEASES OF IMPURENESS.

Weakness of the Back or Limbs, Strictures, Affections of Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dropsy, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose, Suffering, Affections of Liver, Lungs, Stomach, or Bowels—these and other Disorders arising from the Solitary Habits of Youth—these secret and solitary practices more fatal to their victims than the most violent venereal diseases, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

JOHN MEN, especially, who have been the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entered listless Senates with the thunders of eloquence or walked to ecstasy the living life, may call with confidence.

ORGANIC WEAKNESS, Impotency, Loss of Power, immediately Cured and full Vigor Restored.

DR. JOHNSON, Member of the Royal College of Surgeons, London, Graduated from one of the most eminent Colleges in the United States, and the greater part of his life has been spent in the Hospital of London, Philadelphia and elsewhere.

THOUSANDS of persons of all ages now judge that it is the cause of their declining health, and their feet, because of their feet, and enervated, having a singular appearance about the eyes, cough and symptoms of consumption.

YOUNG MEN, Who have injured themselves by a certain practice indulged in from early years, a habit frequently contracted from the use of the hand, and the effects of which are not felt, even when asleep, and if not cured, render marriage impossible, and destroy both mind and body, should apply immediately.

A hint of logs without a door, A mat-cake and the best of beer; A claspboard cupboard without crocks, Nine children without shoes or frocks;

Two or three years before the war my mother went to Georgia to pay me a short visit, and was taken sick. In April, 1861, my father went to Georgia, hoping to find my mother, and to return to Washington; but as she could not be removed, he decided to remain with her and postpone his visit to Europe and the further prosecution of his great enterprise until the settlement of the political difficulties.

CRIBIT MOBILE OF AMERICA, ITS ORIGIN AND HISTORY.

We have several times been requested to publish the origin and early history of the Credit Mobile, which has of late been so much talked of in the newspapers.

WASHINGTON CITY, Feb. 1, 1873. To the Editor of the Herald:

My attention has been called to the report of the remarks of Messrs. Boyd and Smith, in the Pennsylvania Constitutional Convention, in reference to the Credit Mobile.

THE TRUTH IS AS FOLLOWS: My father, General David Green, obtained the charter of the Pennsylvania Fiscal Agency from the Legislature of Pennsylvania on May 29, 1863.

On the 5th of November, 1859, the company was duly and regularly organized in Philadelphia according to law, and the whole stock (\$100,000 shares) taken.

THE TRUTH IS AS FOLLOWS: My father, General David Green, obtained the charter of the Pennsylvania Fiscal Agency from the Legislature of Pennsylvania on May 29, 1863.

The Union Pacific Railroad Company was chartered by act of Congress, approved 1st of July, 1862. That act fixed the capital stock of the company at \$100,000,000, and limited the amount of stock to be held by any one person to \$200,000.

THE TRUTH IS AS FOLLOWS: My father, General David Green, obtained the charter of the Pennsylvania Fiscal Agency from the Legislature of Pennsylvania on May 29, 1863.

THE COLLECTING LAWYER.—"There is a certain style of legal gentleman," says an exchange, "well known to the profession and to business men as the 'collecting lawyer'—very respectable, very industrious and often quite successful. One of our leading wholesale houses having an unsettled claim against a Western customer (one of the tardy kind), sent it down to the office of the collecting lawyer, with instructions to have it put through with all the celerity consistent with legal parity. The lawyer forwarded it to an attorney who had been recommended to him in the town where the delinquent traderman resided, and in due time received the following reply, which, though sufficiently concise, was not regarded as encouraging: 'Dear Sir: I will never get any satisfaction from Ebenezer Weatherly. The undersigned called upon him yesterday, and found him with nary tile, his feet upon the naked earth, and not clothes enough upon him to wad a gun. He was whistling, and so many yod.' 'Affectationally, Yours, 'ARISTIDES CORB.'"

THE "mean level" of Salt Lake is reported to have risen seven feet within the last twenty years, but gullies say it's a very mean level still.

EARLY CABBAGES, TOMATOES, &c.—Many people go without these little garden things, because they are a little distance away from the place where the plants are sold, or because they do not know how to make a bed to raise seeds of such plants when they want but a few dozen of each kind. But when this is the case all one needs may be raised in a box of earth in the kitchen window, or any part of the house where there is light and a very little water.

EVERLASTING FENCE POSTS.—I discovered many years ago that wood could be made to last longer than iron in the ground, but thought the process so simple and inexpensive that it was not worth while making any stir about it. I would as soon have paper bastwood or quaking ash as any other kind of timber for fence posts. I have taken out basswood posts, after having been set seven years, that were as sound as when they were first put in the ground. Time and weather seemed to have no effect on them. The posts cut to be prepared for less than two cents apiece. For the benefit of others I will give recipe: "Take boiled linseed oil and stir it in pulverized charcoal to the consistency of paint. Put a coat of this over the timber, and the wood is not a man that will live to see it rot."—Cor. Western Rural.

TO DRY FISH WELL.—Wash the fish well scalded, washed and drained, cut slashes in the sides of each, season them with salt and pepper, and roll them in corn flour, leave in your frying pan hot with a moderate fire, dip the fish in the flour, before rolling them in corn flour to keep them from breaking.

QUICK CAKE.—Sieve three cups of flour, and add two teaspoons baking powder, a pinch of salt, one cup of sugar, three eggs well beaten, half a cup of butter, and sweet milk enough to make a moderately stiff batter. Bake twenty minutes in a good oven.

VEGETABLE SOUP.—An excellent soup can be made by putting a cup full of Lima beans, a cup full of sliced potatoes, five sliced carrots into one pint of milk; pepper and salt to taste. Simmer it for an hour and a half. Before serving, blend a teaspoonful of butter, four ounces, with the soup to a boil and slowly stir in the thickened milk, until the soup becomes smooth.

BLACKING PASTE.—Take of powdered ivory black six pounds, molasses, one half gallon, vinegar, one quart, sweet oil, one ounce, and a quart of powdered galls, two ounces, and a quart of water. Dissolve the spirit of turpentine and add the oil. This is an excellent preservative for all kinds of leather.

CURE FOR A COULD.—A hot lemonade is one of the best remedies for a cold. It acts promptly and efficiently, and has no unpleasant effects. One lemon should be properly squeezed, cut slices, put with sugar, and covered with half a pint of boiling water. Drink just before going to bed, and do not expose yourself the following day. This remedy will ward off an attack of chills and fever, if used promptly.

DISSOLVE TEN CENTS worth of gum arabic in a gill of water, and you have twenty-five cents worth of antiseptic.
