AVOID QUACKS AND IMPOSTERS.

Physician of this celebrated Institution, has discovered the most certain, epecdy, pleasant and effectual remedy in the world for all DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affections of Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsy, Langnor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dismess of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of Liver, Lungs, Stomach or Bowels—these terrible Disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes of anticipatious, rendering marriage, &c., impossible. This Distressing Affection—which renders Life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost seener by those falling into improper labits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the ideart, Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, Decay and

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marage. are much to be dreaded-Loss of Memory, Con-fusion of Ideas, Depression of Spirits, Evil-Forebodings, Aversion to Society, Seif-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced. THOUSANDS of persons of all ages can now

judge what is the cause of their declining health, losing their vigor, becoming, weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption YOUNG MEN Who have injured themselves by a certain practice indulged in when alone, a habit frequently

learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impostible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret labit. Such persons must, before contemplating MARRIAGE,

reflect that a sound mind and hely are the most necessary requisites to promote communal happi-ness. Indeed without these, the journey through

ness. Indeed without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despuir and filled with the meiancholy reflection, that the happiness of another becomes blighted with our own.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds that he has imbited the seeds of this reached disease it too for heavy and the seeds of the reached disease it too for heavy and the seeds of the reached disease it too for heavy and the seeds of the reached disease it too for heavy and the seeds of the seeds

this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from clucation and respectability, can alone befriend him, delaying till the constitutional symptoms of this herrid disease make their appearance, such this herrid disease make their appearance, such as ulcerated sore throat, diseased nose, noctural pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiscration, till death puts a period to his dreadful suffering, by sending him to "that Undiscovered Country from whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through failing into the hands of Ignorant or unskillful PRE-TENDERS, who, by the use of that deadly Poisson, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer For Catalogue or any other information, ad-

To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable Secrety, and from his extensive practice and observations in the great Hospitals of Europe, and the first in this country, viz: England, France, Philadelphia and elsewhere, is enabled to offer the most certain, speedy and ellectual remedy in the world for all diseases of imprudence.

Curious Epitaphs.

Miscellaneous.

A book of epitaphs has just been published, containing monumental inscriptions, many of which are of a humorous character. They are of English and American origin, and it is difficult to tell which is the most piquant.

The following is over the grave of Mr.

Pepper a Publican, St. Johns, Stamford, Lincolnshire: "Hot by name, but mild by nature,

He brewed good ale for every creature; He brewed good ale and sold it too, And unto each man gave his due." "Here lies 2 brothers by misfertune serounded, One died of his wounds & the other was drown-

of Robert Trollop, architect of the Ex-change and Town Hall at New Castle, Eng-

"Here lies Robert Trollop, Who made you stones roll up, On the tombstone of a smuggler, killed by the Excise officers, is the following: "Here I lies, Killed by XII."

From a tombstone near London, the folowing lines are taken: "Here lies the body of Nancy H. Gwyn, Who was so very pure within She burst her outer shell of sin

And hatched herself a chernbin." As an illustration of the exigencies of rhyme, an English writer cites the sonow-ing epitaph from a tombston at Manches-

"Here hes, stas! more's the pity, All that remains of Nicholas Newelty, N. B.—His name was Newtown." Near San Diego, California, a tembatene

scription thus reads;
"This yere is sakrid to the memory of William Henry Skaraken, who came to his death by bein shot by Colt's revolver-one of the old kind, brass mountid and of sutch is the kingdom of heavin."

An inscription on a tombstone in East Tennessee concludes thus : "She lived a life of virtue and died of the cholera morbus, caused by eating green fruit, in the hope of a blessed immortality. at the early age of 21 years, 7 months and 16 days. Reader, go thou and do like-

The following, which is suggestive to office drinkers, is from a tombstone in Connecticut:

"Here lies cut down like unripe fruit, The wife of Deacon Amos Shute; She died of drinking too much coffee, Anny Dominy eighteen forty." A tombstone in Texas has the following

inscription: "He remained to the last a decided friend and supporter of Democratic princi-ples and measures. Blessed are the dead who die in the Lord."

A SAD CASE .- Our city has not known or many years a sadder case of desertion, destitution and suffering than that of Mrs. Raymond, who died at a home furnished ber by the charity of a number of ladies, in the upper part of the city, last evening. In the winter she accompanied her husband from Broome county, N. Y., to the forests of Clinton county, where he deserted her, leaving nothing for her support. She made her way to this city, where weeks ago she gave birth to a child. Her condition became known in good season to several ladies, and she was proporly cared for. A home with all necessary comforts was furnished, and with the help of a young female cousin who stood faith fully by her, she so far recovered from her confinement that last week she undertook a large washing. Puerpetal peritoritis fol-lowed, and she sank rapidly, weighed down with a load of discouragement and sadness such as few women have to bear. Another cause contributed without doubt to the final result. From the moment of her coming to this city the tongue of calumny was busy, and the ladies who helped her were unfeelingly sneered at by others who cast doubts upon her integrity, and the story of her marriage. These suspicions fell with crushing weight upon the poor wo-man, and furnished the last bitter drop to the cup of her sorrow. She died hopeless, broken-hearted, but not friendless, for those who stood around her bedside during all her sufferings saw in her the germ of a true Christian character, that under better circircumstances might have done honor and noble service to society. May her sad fate serve as a warning to those who have judged her so harshiy, perhaps in thought-lessness, or at least teach them to look into lessness, or at least teach them to look into lessness, or at least teach them to look into their hearts and see that no sin is there, before they again cast the cruel stone of slau-

Republican, April 9th. AMUSING SCENE. - There was an amusing scene on board the Louisiana mail out the other day. There was the usual corglommeration of passengers in the cabin just before the boat landed; and amid the general hubbub of conversation, a man remarked lucidentally, "Now, in Jersey where I live--" Instantly an old man, who sat moodily

and silently pondering by the stove for some time, sprang to his feet and exclaim-"Stranger, are you from New Jersey ?"

GRAFTING OF FRUIT TREES .-- As the time has arrived when grafting is in order we repeat our former advice that every farmer should do his own grafting. It is a very easy operation when once understood, and this is readily done by seeing it done. A sharp pen-knife and a good fine saw are indispensable. Splitting the stalk so that the bark shall not be bruised, and shaping the scion wedge-fashion both ways, preserving also the bark uninjured, and placing the rim of the wood of both stock and apples, add two eggs, two teaspoons of scion exactly together, so that the sap can soda, four cups of flour, one cup of butter, intermingle—there is no danger of failure one cup of sour milk. Spice to suit. Then if properly waxed. We make a shoulder add the apple, (which was drained as to the graft and think it adds to the cerabove).
