Or Sugar-Coated, Concentrated, Rost and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo

Physic.

The novelty of modern Medical. Chemical and Pharmacentical Science. No use of any longer taking the large, repulsive and nauscous pills, composed of chesp, crude, and bulky ingredients, when we can by, a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastilious tastes. Each little Purgative Pellet represents, in a most concentrated form, as much cathartic power as is embedied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harred or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and medicae, one by the others, as to produce a most scarching and thorough, yet gentify and kindly operating cathartice.

Age does not impair them; their sugar-coming and being acclosed in glass bottles preserve their vitues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or past-board boxes. Recollect that for all diseases where a Laxative, Alterative or Purgative is indicated, these livin Peilers will give the most perfect satisfaction to all who use them.
