[From the Baltimore Underwriter.]—By the usual publicity given its statements, and the wide distribution of its monthly paper, all interested in the business have scrutinized the returns of the Metropolitan Life Insurance Company. They bear testimony to the indomitable energy and skill of its administration, showing that the company is carrying its way to a great future, and that its growth is marked by all the elements of healthy progress.

THE SUNDURY DAILY made its appearance on Monday last in a considerably enlarged form. We are happy to note this spirit of enterprise existing in our neighborhood, as it gives indications of a permanent institution. The Daily is edited with considerable ability, and is entitled to the support of the business men in this place. A daily paper published here indicates the prosperity of our town. Our neighbor is entitled to much credit for his perseverance in presenting an enterprise resulting in local benefit, and he should receive from our citizens all the assistance necessary for its support, and the remuneration of its originator.

THE CHANGES AT THE COURT HOUSE are becoming more apparent every day, and we confess that we have not seen the offices and the grounds surrounding the building in as clean and well regulated a condition as it is at present. While the offices are kept in the best condition, the papers and documents, properly arranged, the Judge, Mr. Jacob Cable, has cleared away all rubbish about the building which gives it a more refreshing appearance than ever seen before. Mr. Cable takes great pride, it appears, in keeping matters in good trim, for which he is certainly entitled to the thanks of every one interested in the disposition of our county buildings.

WE HAVE BEEN REQUESTED TO STATE BY THE principal party concerned in the shooting of a valuable Maltese cat, and the destruction of its kittens, mentioned in the Sundbury Daily of Tuesday last, which notice of the occurrence may leave the public mind under a false impression, that the cat was found in a helpless and helpless situation, placed there, no doubt, by thoughtless or mischievous children, that no blame can be attached to the person to whom the cat belonged as ample provision was made for its comfort and sustenance during its absence, and that the killing was a necessity. There was no other way of disposing of the case, and it is hoped by the principal actor in the matter, that this statement on his part will effectually abate the cat excitement, and that no more will be heard about the late cat-strophe.

PRESENTATION OF A CASE.—The popular landlord of the City Hotel, E. T. Drumheller, who makes hosts of friends wherever he goes, was again to luck last week while attending the United States Court at Pittsburg, as a juror. A number of acquaintances made while in that city before his departure for home, presented him with a handsome Palmetta case as a token of their high appreciation as a gentleman. This demonstration on the part of his new acquaintances, speaks well, and shows that he is appreciated abroad as well as at home. Mr. Drumheller was much pleased with his trip to the smoky city.

THOSE IN ATTENDANCE at the U. S. Court at Pittsburg last week, from this vicinity, stopped at the St. Clair Hotel, in that city, and are profuse in their praise of the hospitality extended them by the proprietors.

THE FIRST NATIONAL BANK OF Sundbury declared a semi-annual dividend of 5 per cent on the stock on the first inst., free from all taxation. This Bank stands second to none in the country, and through its officers has gained a reputation as being one of the safest, and most strictly conducted institutions in the United States.

DON'T FORGET THE CONCERT at the Court House to-night (Friday). Patronize home entertainments, which you will find superior to any other. Go and listen to better music than has yet been heard in Sundbury. The best musical instruments will be used on this occasion, and celebrated performers will be present to play on them.

A NEW DAILY PAPER.—A new daily paper will soon be issued from the Democratic Grand office in this place. The paper will advocate Republican principles. It will be edited by Messrs. F. A. Hower, and E. C. Golin, late local editor of the Sundbury Daily, and no doubts will be a spicy sheet.

I. O. O. F. F.—At the late O. C. P. of Grand Officers of the Order I. O. O. F. F., Encl. Wilbur received majority for District Deputy Grand Master for this county. There are seven-teen Lodges in the district.

Accidental Insurance Tickets can be had of J. Shipman, Ticket Agent, at the Depot.

Local Affairs.

THE members of the Sundbury Steam Fire Engine, No. 1, are requested to meet on this (Friday evening) at their engine house, for the purpose of making arrangements to procure hats in time to participate in the decoration ceremonies.

REWARD.—A reward of five dollars will be paid for information that will lead to conviction of the person that broke down an ornamental tree in front of my residence on Walnut street, on Thursday night last. EMIL WILVERT.

NEW POSTAL CARD.—A specimen copy of the new postal card issued by the Government can be seen at this office.

DEDICATION OF AN OLD-FELLOWS HALL.—The new Old-Fellows Hall at Gratz, Dauphin county, will be dedicated June 24. A large number of Lodges have been invited to be present, and with several bands of music that are expected, the gathering will no doubt be large. The dedicatory ceremonies will be impressive, and addresses will be delivered by eminent speakers from abroad.

SHOWMEN appear to understand the weakness of certain classes existing in this age of boasted progress, and they exercise their ingenuity to reach the pockets of these classes. We refer to this fact for the purpose of showing how far they accomplish their deceptive designs. On a late occasion, dazzling show bills came under our observation, hung out for Van Amburgh's great show. Any one looking at the bills could see that there was more on them than might be expected to be seen within the canvass. It was also known that only part of the original show was exhibited on the bills, would be here, and that the whole of the usual amount of humbuggery would be displayed; yet with all this knowledge it appears there were some who could not hold up under the pressure, as their weak points had been reached, and they resorted to extreme means to gain admission to the show. Fortunately for a certain class, a pawnbroker's office was lately opened in this place, by Wm. Gehring, who came to their relief, and to whom they are indebted for the bill which enabled them to "see the elephant." Mr. Gehring having prepared himself for a "spec" on this occasion, was not disappointed, and he done a brisk business on Wednesday while the show was being exhibited, in advancing money to parties who were disappointed in getting their pay from the Railroad company. Gold watches, silver watches, revolvers, cutlery, clothing and even gentlemen's shirts were brought to him for a small advance, to "raise the wind" to see the show, and Mr. Gehring is now the possessor of these articles which they are redeemed. In several instances, the last cent was expended on the elephant, though not of an ordinary size, and it is quite probable that children went to bed hungry in consequence of the curiosity and impetuosity of their parents. As money is scarce and provisions are high, it would be well for those concerned to consider whether they get the worth of their money in attending shows, and particularly under the false representations of dazzling posters.

WE are happy to see that a lively interest is being taken in the coming decoration ceremonies. This is right. Let the heroic dead be honored while they silently sleep in the tomb. From the preparations now being made by those who intend participating in the ceremony of honoring those who died in the defence of their country, we are confident that the strewing of flowers, and the usual ceremonies, will be more impressive than ever before. The young men who sacrificed their lives that their country's freedom might live, and whose noble spirits found the rest of eternal rest amidst the conflict of human strife, are entitled to that full degree of reverence and gratitude which a freed and enlightened people only can extend. As time rolls on the grandeur of character that prompted them to make the sacrifice for the benefit of posterity, becomes more deeply impressed upon the minds of those who are benefited, and the gratitude of a grateful people displays itself in the simplest, but its purest and most beautiful form, that of strewing the graves of the nations loved ones with flowers. This day has very properly set aside as a holiday. Let us see that it is properly observed by meeting together and honoring departed worth in the established beautiful way.

THE MICHIGAN says that a look up in that place is badly needed. Judging from the rowdiness displayed in Milton on Saturday night last, we can agree with our contemporary, and would suggest in addition the appointment of efficient police.

FIRE AT DANVILLE.—A fire broke out in Danville on Wednesday morning at 2 o'clock, in the store room of Mrs. Hancock, widow of the late Wm. Hancock, which was totally destroyed. The residence of Mr. Ramsey, and the building of the Danville National Bank were seriously damaged. The fire is supposed to have been the work of an incendiary. The loss is estimated at \$20,000.

THE foundation of the new post office building is now being rapidly pushed to completion. The brick work will be commenced soon, and the building hurried on as rapidly as possible. The new office is badly needed, and we trust will be pushed forward without delay. The old office is entirely too small for the large amount of mail matter passing through it, and which is largely on the increase.

J. DESHA PATTER, proprietor of the Sundbury Coal Works, purchased additional ground for adding an oil refinery to the works.

ON Saturday evening last a serious affray occurred in this place, the facts of which are about as follows: Kemmer Fisher had gone from home on pretence of being absent several weeks, but, unexpectedly to his wife, he returned late on Saturday evening, when he took her and S. P. Venrich by surprise. He shot at Venrich, the ball grazing his face, after which they eluded. Venrich used a knife and made several extended cuts across Fisher's back, cutting his clothes and also cutting him in the side and under the chin, and finally made his escape without hat or boots. He went to a neighbor's and borrowed a hat and boots, and then went to a Justice and asked to be bound over, his brother becoming his security. On Tuesday, however, he was taken to Middleburg and lodged in jail.—Sellingree Times.

OUR neighbor of the Gazette, who is beginning to assume a venerable look himself, and somewhat envious of the youthful appearance of the senior editor of the American, is not willing to allow a single year to be deducted from the correct age of the latter, without protest on his part. The senior of the American has no desire to conceal the truth in this matter, and is willing to admit, for the benefit of the future historian, that he is several years older than the editor of the Gazette, whatever appearances may indicate to the contrary.

BAD POLICIES.—To ask the public to support an entertainment in this place, and have all the printing done elsewhere, or to ask the newspapers to publish local notices gratuitously. Also, parties who do not support their home offices, but ask for pulls, or notices of matters in which they are interested, free of charge, and for ambitious individuals for office, to ask an editor to use his influence for the advancement of their political interests, when they do not even as much as subscribe to his paper.

WE notice of late that a large number of young girls, varying from 10 to 15 years of age, visit the post office on the arrival of the mails, and crowd the delivery window, and making all wait until each has looked for a letter, which they probably expect to receive in the course of a month, or perhaps not at all. Although annoying to business men to be placed in the rear ranks of a parcel of giggling girls in the delivery of the mails, they should take into consideration that the girls mean business in the way of showing off to the best advantage, even if their mothers protest against it.

WE notice by the Sundbury Daily that a reader of the Watsonian Record has been reading so much about "poor cat" scats in that paper that he imagines he is bewitched, and is continually shooting at what he imagines to be poor cats. The Daily has omitted to state whether the editor of the Record had been in partnership with him in the scaly business parties to the repeal of the act giving premiums. Perhaps the stopping of the payment of rewards on scats has brought him to grief, and he is now conscience-stricken for killing John's pets.

WE notice that Long-township, S. Schmeller, A. M., principal of the High School, has written an able article in the Primary School Journal, on General Washington which is highly commended upon by the Press throughout the State. The article advocates upon a new method of higher mathematics, is quite instructive, and will prove instructive to all who love the higher branches of mathematics.
