

The Republican State Convention, which will soon assemble to nominate candidates for Supreme Judge and State Treasurer, should use every precaution to give the party a good State ticket, composed of men who are pure—whose records will bear the closest scrutiny, and whose characters are above reproach.

CANDIDATES FOR COUNTY OFFICES.—The time is again approaching when candidates will be selected by the Republican party for county officers. We would therefore suggest to every Republican the importance of looking well to the political and moral character of the men to be placed upon the ticket, and to be supported by the party at the coming election.

After proceeding about 500 yards he fell face downward, in a pool of water and died. The explosion was very considerable, and on reaching the top of the slope, fell being overcome. John Hayes, outside boss, hearing the alarm, immediately went to their rescue.

Up to 10 P. M. ten dead miners have been taken out. Many of the men came from surrounding mines to render assistance.

THE DEMOCRATIC COUNTY COMMITTEE met at this place on Monday last, and decided on holding their County Convention on Monday the 28th of July, next. As usual considerable trickery will be resorted to among the leaders, to place upon the Democratic ticket men who will work to their interests.

THE SHAMOKIN HERALD of Thursday morning last, gives the following additional particulars: The most dreadful mining casualty that ever occurred in our county took place on Tuesday at Henry Clay Colliery. The colliery is located about a mile south of Shamokin, on the Philadelphia and Reading railroad.

WE notice that M. James Taft, proprietor of the "Clement House," at this place, is announced as a candidate for the Legislature on the Democratic side of the house. Jim is too good a man to stand any show for a nomination in this party.

THE Secretary of the U. S. Treasury announces his intention to pay, on September 6, the principal and accrued interest of twenty millions of five-twenty bonds which is a gratifying exhibit of our financial condition, and highly creditable to his administration of the Department.

THE public debt statement made on the second of this month showed a reduction during May of \$3,525,282, and since March 1st of this year of \$7,416,827. If this average is maintained the reduction during the year ending March 1, 1874, will exceed thirty millions; and this presumption is strengthened by the fact that the receipts from internal revenue are in advance of the estimate by several millions.

COLLIERY EXPLOSION.—DISASTER AT SHAMOKIN.—DEATH BY SUFFOCATION AND DROWNING.—Ten Men Lost Their Lives.

SHAMOKIN, June 10.—This afternoon an explosion occurred in the Henry Clay Colliery, operated by Philadelphia and Reading Coal and Iron Company, near this town. The colliery had not been inspected for some time, but was always considered safe. Sixty-five men are employed there, and it has a capacity of mining 8000 tons per month.

Starting to come up they met a body of after-damp and fell senseless, smothering. The strongest man managed to get out, giving an alarm. The miners followed, and, on reaching the top of the slope, fell being overcome. John Hayes, outside boss, hearing the alarm, immediately went to their rescue.

THE KILLED.—Up to 10 P. M. ten dead miners have been taken out. Many of the men came from surrounding mines to render assistance.

AN ATROCIOUS MASSACRE!

17 MODOC PRISONERS MURDERED.

SAN FRANCISCO, June 9.—Despatches from Boyle's camp, dated yesterday, relate the particulars of an atrocious massacre of Modoc prisoners, supposed to have been perpetrated by Oregon volunteers. Saturday morning James Fairchild and about a dozen other men left Fairchild's ranch, Conwood creek, with seventeen Modoc captives including women and children, and Shacknasty Jim, Bogus Charly, Tebbe Jack, Pony and Little John. The Indians were in a wagon drawn by four mules.

At the crossing of Lost river the party encountered a body of Oregon volunteers under command of Capt. Hissar. The volunteers gathered about the wagon and questioned Fairchild; the latter told them the Indians were all Hot Cakes except Little John, and that there charges against them. Fairchild undertook to push on to Boyle's camp, and the volunteers retired to their camp near Crowley's. On the road Fairchild noticed two men ahead, riding to Rocky Point, as if to intercept him. When the team approached the two men, one of them presented a needle gun at Fairchild, saying "get down you old white headed scoundrel!"

PROBABLE MURDER AT HAZLETON.—Hazleton, Pa., June 10.—At 2 1/2 P. M. yesterday Henry Staufenberg entered a dwelling in the suburbs of West Hazleton, occupied by Mrs. Reilly, a widow lady, and demanded money.

THE MODOCs TO BE TRIED AND PUNISHED BY A MILITARY COMMISSION.—Washington, June 8.—The President and Secretary of War have already been informed of the opinion of a military commission that such of the Modocs as are charged with offenses against the recognized laws of war may be tried and punished by a military commission. The War Department will, in accordance with this opinion, send instructions to General Davis through General Schofield.

BALLOON TRIP TO EUROPE.—THE PROPOSED TRIP TO LANCASTER AND READING AERONAUTICAL SOCIETY.—Professor John Wise and W. H. Donaldson, two experienced and well-known aeronauts, propose to take the balloon voyage of which so much has been said, and so little done. The Boston Herald of Aeronautics has responded to a petition from them, and made an appropriation of \$3,000 to aid them in fitting out their aerial ship, in which they will start from the Common in that city on the Fourth of July.

CORRESPONDENCE.

Letter from Philadelphia. PHILADELPHIA, June 10, 1873.

Having a leisure moment, a thing rather rare at this busy season, I take advantage of it to drop you a line or two. The hot weather of the past few days, has had the effect of hurrying off to the country those who intend to make the city dust for the warm weather. Some go to the mountains, some to the seashore, others to Europe, and those, like your correspondent, whose business will not run itself, take advantage of the facilities of travel, and spend the nights in the country, coming in in the morning refreshed with pure air, working it off during the day, and going worn out and exhausted in the evening for a new supply, and such the daily round.
