Local Affairs.

Ice cream, whortleberries and other delicacies will be furnished. All are cordially invited to attend.

LAST WEEK we mentioned the accident occurring to Mr. Kneas, of Bush township. We are glad to state that it was not as bad as first reported. We learn that no amputation will be necessary.

J. B. INWIN, of this place, for a long time running a passenger engine on the P. & E. R. R., has been appointed road foreman of engines on the Susquehanna Division, Shamokin Division, D. H. & W., and P. R. coal engines on L. & B. roads. The appointment is one of the best and most deserving that can be made.

GREY EASTERN.—On account of the enormous crowds which are daily in attendance upon its mammoth manager and circus, the management are compelled to announce three performances in Sunbury, and in all other towns, at ten, two and seven o'clock, making the grand parade at nine instead of ten as advertised. The morning exhibition is especially adapted to ladies and children, as they can avoid the jam of the afternoon and night entertainments.

RACES.—The summer meeting at the Danville Agricultural Fair Grounds, at Danville, Pa., will take place on Wednesday, Thursday, Friday and Saturday of next week. A number of the best horses in the country, have been entered for the racing and some good trotting may be expected. The premiums run up to \$10,000. Jacob Kroeber, the lessee, is arranging for everything pleasant to all who may attend.

Reading Mail.—The weekly "Reading Mail," will be issued by the N. Y. Central and Potomac R. R. Co., on the 11th inst. of this week.

RAILROAD CHANGES.—Important railroad changes took place on the 1st inst. on the N. C. R. W. The Susquehanna Division between Marysville and Sunbury, and Danville and Harrisburg, is now superintended by Mr. Thomas Guetker, and now extends from Harrisburg to Renova. Mr. Joseph K. Sharp, former Superintendent, is stationed at Harrisburg as assistant. Mr. E. B. Westfall, of the P. & E. R. R., has been appointed Superintendent of the Shamokin Division from Sunbury to Mt. Carmel, which will hereafter be known as the Sunbury Division. He is also Superintendent of the D. H. & W. R. R., extending from Sunbury to T. H. Nickerson, and will also have charge of the L. & B. R. R. from Northumberland to Nanticoke.

The gentlemen appointed to these positions are all experienced railroad men, and are excellent appointments. Mr. Guetker will be located at Williamsport, Mr. Sharp at Harrisburg, and Mr. Westfall, at Sunbury. The managers of the road have chosen good, reliable officers, who are widely known for their general safe management of their roads. We are pleased to note this, and can bespeak for them a hearty welcome on the part of our citizens to our town, and a fraternal feeling on the part of the railroad men in this vicinity.

FISHER'S FERRY.—Perhaps some people don't know that Fisher's Ferry, with its country store, dwelling house, barn and empty ware-house, is a place of immense importance. If any one doubts this let them look at our two daily papers, each having, at that place, a special correspondent of his own, maintained, no doubt, at an enormous expense. These correspondents having crossed swords are arising up columns of matter in discussing whether one, or the other has "been subscribers or six," at that place.

Another important subject discussed was the social status of one of the correspondents at a picnic. There are only a few of the important topics of a similar character, served up for the readers of our daily papers. If the editor of the New York Herald should ever come across these correspondents, he would, no doubt, secure their services exclusively for that Journal, and the glory of Fisher's Ferry would be no more, and the dillies would go down and their readers suffer for want of interesting correspondence.

Those people who were frightened at the change made in the management of the railroad in this place, will no doubt be considerably relieved on learning that there was no occasion for any fear. As we have stated before we are satisfied that the managers of the Pennsylvania R. R. Company, who have assumed control of the N. C. R. W., are pleased with our location, and will establish more workshops here than we have had before. We are informed that Mr. Martin Walls, Master Machinist of the P. & E. R. R., expects soon to increase his force, and that he will have more work to do than has been done heretofore. He will also have some sixteen men in the lower shops for repairing under the care of Mr. D. W. Walls, who is a first class mechanic, more responsible, and as he has had much experience will prove himself competent for the task. Many of the hands discharged in the lower shops have been engaged to work in the upper shops, and we may expect that all the others together with the new ones, will find employment under Mr. Walls, and those who have been croaking will find our town benefited instead of injured by the change.

MR. JACOB SYMONS, for a long time baggage master on the train between Lock Haven and Harrisburg, was lately promoted to a conductorship on the D. H. & W. R. R. Mr. Snyder is polite and attentive to passengers, and will make a popular conductor on that road.

ADMITTED TO PRACTICE.—James McDevitt, Esq., was admitted to practice in the several Courts of this county on Tuesday last. The examining committee consisted of Hon. J. B. Packard, Hon. A. Jordan and S. P. Wolvorton, Esq., before whom he passed a very creditable examination, and was highly recommended to the Court by the Committee. Mr. McDevitt was a student of S. B. Boyer, Esq. He is a young man of close application, and will make a good counselor. We wish him success in his professional career.

FILES AT SHAMOKIN.—On Thursday of last week, the slaughter house of H. L. Rogers and Geo. W. Metz, at Shamokin, caught fire caused by a bottle of kerosene, which was being rendered, boiling in a tub. The building was entirely consumed. Loss about \$2,000. No insurance.

ON FRIDAY LAST, the Planning Mill of D. C. Smitk, in Shamokin, was consumed by fire, caused by fire getting into a lot of shavings. The loss is estimated at from eight to ten thousand dollars. No insurance.

THE LOWER END of this county was visited, on Sunday last, by a tremendous rain and hail storm which destroyed a number of bridges across the streams, and wrecked the corn flat on the ground. Many of the roofs were made insecure by being washed off. In several instances trees were uprooted and roofs torn off from buildings.

AN ADDITION TO MR. CLEMENT'S SAW MILL.—Mr. Ira T. Clement is now engaged in putting up three more boilers in his engine house at the Point saw mill at the river, in this place, in order to increase the capacity for sawing lumber. An addition to the main building is also being erected for the admission of more saws and other machinery. Mr. Clement's mills, when these additions are completed, will be the largest in this section of country and are constantly running, employing a large force of hands.

The new foundry and car shop of Messrs. Wolvorton, Sheddau & Wither, have just been completed, and are ready to commence operations. Their engine is 25 horse power, and we will soon hear its busy hum in the neighborhood. Work will be commenced as soon as the pig iron for casting arrives.

Our town presented a lively appearance on Monday last, on account of the commencement of Court. Besides the jurymen summoned, there were several hundred witnesses attending Court. The criminal cases on the opening of the Court, on Monday, had run up to some eighty.

We are indebted to Hon. Joseph Baily, Delegate to the CONSTITUTIONAL Convention from this district, for three bound volumes of the proceedings of the Convention. On our first page of this week's issue, will be found the speech of Mr. Baily on Railroad and Canals.

We direct attention to an interesting communication in another column from the pen of John B. Lian, Esq., giving the muster roll of Capt. Casper Welton's company, from Sunbury, which was engaged in the disastrous action of Long Island, at the opening of our revolutionary war, August 27, 1776. Capt. Welton had a number of descendants residing in our vicinity.

MR. FREDMAN MANN, Chief Clerk of the P. & E. R. R. at this place, has been assigned the whole freight business at this point, embracing the P. & E. R., N. C. Shamokin Div., D. H. & W. R. R., and P. R. roads. Mr. Mann will, no doubt, see to the additional responsibility willingly and maintain his reputation as an efficient officer, though his task be more onerous.

MR. W. SMITH has been appointed freight agent for the Erie & Potomac R. R. at this place vice the late Hamilton transferred to Williamsport.

On Friday afternoon last, while Mr. D. P. Patten of Shamokin township, was engaged with several men on his farm haying oats, with a reaper, a storm suddenly came up. Mr. Patten, with two of his children and six men sought shelter under the shade of a large tree. When a flash of lightning struck the tree, prostrating the men and two horses that had sought shelter under the tree. The shock lasted but a few moments, when the horses revived and ran over one of the little girls, considerably bruising her. All have fully recovered. —*Morning Express.*

TWO BOAT HORSES DROWNED.—Two boat horses belonging to Capt. W. W. Surlis were drowned by breaking through the wasteway at Mr. A. E. Kapp's saw mill, above town on Wednesday last. The loss falls heavily on Mr. Surlis, he having paid \$225 for one of the horses a few days previous to the accident.

The new engine house of the Good Intercity fire company is now receiving its second coat of paint. It already makes an addition to Fourth street, and when finished it will be a handsome building. After it is once occupied by the company, they intend putting in a fine library for the benefit of the members. Any person having books to give to add to this worthy object, will receive the thanks of the company.

SOME MEN, contemptible, unprincipled, rascally, villainous scoundrels, entered the cellar of our neighbor of the Daily, on Monday night last, and stole the entire stock of previous consisting of a half bushel of potatoes, and several pieces of dried beef. The thief that will steal from a coffee commits an unpardonable sin, and it is certain that his future punishment will be of the most execrable character.

THE GREAT EASTERN MANAGER exhibiting here on Monday next, will by all accounts, draw the largest crowd of people that has been in this town for many years. The show is a good one, and it draws crowded houses at every exhibition.

H. D. WHARTON, Esq., has been added to the Executive committee of the Northumberland County Soldiers' Monument Association, in place of H. Thatcher, resigned. The appointment is a good one, as Mr. Wharton was a good soldier, and exhibits a lively interest in the project of that association.

THE ASSASSINATION at Court during the past week was larger than ever before. The Court room was literally packed almost every day with parties, witnesses and spectators, quite a number being females. The number of returns on the trial of the defendant, was sixty-six.

WADSWORTH'S DESTRUCTION.

EARLY in the summer of 1872, Nelson E. Wade, the ferocious murderer of the Erie, was employed as a brakeman on the Eastern Division of the Philadelphia and Erie railroad. One day at Sunbury he missed his train, and in order to overtake it took the Niagara express as he had no other alternative. Between Mary Station and Williamsport a passenger lost his hat, and nothing Wade as a railroad man asked him to would procure a new hat for him at Williamsport, as he was unacquainted in the place. To this Wade readily assented. On the arrival of the train at the Williamsport station the porter presented him a twenty dollar bill to purchase the hat. But instead of acting in good faith, he pocketed the money, and jumped on his freight train, started off, leaving the passenger minus his money, and asking it could be recovered for him. A investigation was at once instituted and it was not long until suspicion pointed to Wade as the guilty man. He was at once hauled up and sharply questioned. At first he denied the charge, but on hearing orders given to lock him up, promised to pay the money if they would let him off. This was called factory of his guilt, and he was discharged about the middle of July, 1872, after having been in the employ of the railroad company less than a month. Soon after this a rascally transaction he stole a watch from Dr. Bowman, of Watson town, for which he was sentenced to four months' imprisonment in the county jail. —*Daily.*

EMPLOYMENT IN NORTHUMBERLAND.—About 10 o'clock on Monday evening last, a young gentleman of this place, whose living advances towards the goal of his education had been opposed by the cruel parents of the object of his affections during the past two or three years, displayed his place (which he will here state is superior to that of the young lady, who he tried the way from her home to the lively stable through alley and rick, robed in white, at which point she met her intended lord, and drove to Sunbury, and as gossip has it, the couple took the cars at that place for Chester county. It appears the security of the courtship of this young man, was destroyed by the father of the whole term by the father of the daughter. It was stated that the young man was on one occasion while holding sweet communion with his sweetheart, completely treated to a fiery ordeal of desert, which of course added fuel to the attachment, and made the young couple cling so much the closer, and estimated as above stated. —*Northumberland News.*

THE MILITARY says the clergymen of Sunbury have laid themselves open to the charge of neglecting their entire neglect which they have shown towards the condemned murderer Perry Haas. This young man is almost dead from Consumption and his days will soon be numbered. The young man had been in prison not a Minister of Jesus Christ in Sunbury has called to ask after the welfare of his soul. "And in that day the Son of Man shall say depart from me I never knew you." He was sick and in prison and ye visited me not—inasmuch as ye did not to the least of these my brethren ye did it not to me."
