OUR NEW POWER PRESS .- In anticipation of enlarging the American next month, we have this week put up one of C. Potter Jr., & Co's., new power presses, purchased direct from their establishment in New York, and manufactured by them. The press works splendidly, even beyond our expectation. It is strongly built, and all the machinery compact, taking up but little space while its construction is most beautifully designed, and supplying every want needed in a machine for a country printing office. Its finish is most beautiful and adds greatly to an office as a useful ornament. So far we have not discovered anything defective or needed to make it perfect. In fact we cannot see wherein the Potter Press can be improved upon for use in country offices. Besides these gentlemen furnishing first class presses, we find them generons in all their Northumberland County-Official dealings and will do just what they promise. We would invite all printers in want of a good printing press to pay us a visit and examine ours before purchasing, as we feel confident that after a thorough investigation, they will agree with us that the Potter Press is as neat, and complete a machine, as can be placed in a printing office.

ENLARGEMENT OF THE AMERICAN .-We have now put up a Power Press in our office with a view of enlarging the American some time during the month of January, to furnish our readers with a paper, in a large form at a low price. We feel unable to accomplish these improvement without the assistance of our friends. We have large amounts upon our books, which if it were in our pockets would aimost liquidate our indebtness, but we find it slow in coming in, and it is loss of time and expense for us to go after it on account of it being scattered. We will therefore adopt the plan of sending bills to all who owe, trusting that they will at once remit and give us relief. Publishing a large sheet will necessarily put us to more expense weekly, and we hope that our friends throughout the county, will space a little time in assisting to Increase the subscription list, as well as furnishing us with job work, which we are prepared to do in every style.

Suspicious .- We have on several occasions referred to the fact that the "Democratic Ring" that existed in this county for Water Fishes of Central Europe" in 1839, and "Researches on Fossil Fishes," a work of high order, in which he calmed to have form up the duplicates, and stated that he always settled the amount he was charged with in the office without producing his duplicate. Believing something was wrong, the commissioners had the assessment books examined.

Water Fishes of Central Europe" in 1839, and "Researches on Fossil Fishes," a work of high order, in which he made important claimed to have brought 88,000,000 into he sate of high order, in which he made important claimed to have brought 88,000,000 into he sate of the past two and a half most very year. The Texas cattle crop of the present year of high order, in which he made important claimed to have brought 88,000,000 into he sate of the past two and a half months, additional means will be required to meet expenses. Should such be the case and other journals contain many contributions from Agassiz on fossil fishes and on geology. He propounded some new and remarkable ideas on goology. THE trial of George Wenrich, for the up my mind that Grant was one of the the following gentlemen.

The trial continued from Tuesday until Orleans in place of Judge Durell, he replied that he could not interfere with the assignment of Judges made by the Supreme Court Not much Casarism in that." Wenrich was serenced to 7 years and 4 month's solitary coafinement in the Eastern

Penitentary, one dollar fine and costs. The counsel employed were Mesars Linn and Simpson for the prisoner, and Messrs Linde and Herr for the commonwealth.

THE NEW CONSTITUTION .- As we anticipated, the people of Pennsylvania on Tuesday last, decided in favor of the New Constitution by an overwhelming majority. It was evident that the people desired a great improvement on the old. The new constitution has many excellent features and we hope will accomplish much good, particularly in the suppression of Rings and monopolies, which had become such an evil that they had become alarming. Whether this new law will be acceptable and satisfactory in all its aspects is a question which only time will solve. The people who adopted it have still further duties to perform, and it will not do for them to rest content with the victory won on Tuesday. To make the reforms aimed at practical will require constant watchfulness.

The new constitution will not of itself de-free at Pottsville.

The who adopted it have still further duties to the day and the first inst.

Alexander H. Stephens made a speech in the House of Representatives against the repeal of the Salary bill.

In Rhode Island there are seven divisions of Baptists.

The meaks it a singular coincidence, of the harbor of Hayana at half past four O'clock this morning by the Salary bill oo'clock this morning by the Salary bill of the harbor of Hayana at half past four O'clock this morning by the Salary bill or o'clock this morning by the Salary bill or o'clock this morning by the Salary at the same time, makes it a singular coincidence. The old couple were well known throughout the county, and were highly respected, one of their sons, Mr. Michael Brennan, being a clerk in the Prothonotary's office at Pottsville. The body of Mrs. Brennan gives and at a bout the same time, makes it a singular coincidence.
