American Cyclopædia.

APPLETON'S

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with

Several Thousand Ingravings and Maps. The work originally published under the title of The New American Cyclor-Edia was completed in 1863, since which time the wide disculation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision and to issue a new edition entitled THE AMERICAN

YCLOPEDIA.
Within the last ten years the progress of discovery in o the industrial and useful arts and the convenience and refinements of social life. Great wars and consequent revolutions have occurred, involving national changes of socialism means. The social social country, which was in its height when the last volume of the old work appeared, how happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable exploreres of Africa.

The great political revolutions of the great decade, with the natural result of the large of time, have brought

are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important seiges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down Pura Blooming Campiex It is Printly Veretable, and I'd are For Advanced Piano For singers and young
Players.

nlarged knowledge, The illustrations which are introduced for the first time in the present colition have been added not for the sake of pictorial effect, but to give greater incidity and force to the explinations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of prechanics and manufacturers. Althoug intended for instruction rather than embellishment, no pains have been spared to issure their artistic excellency, the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high char-

acter.

The work is sold by subscription only, payable only on delivery of each volume. It will be completed in sixteen large octave volumes, each containing 300 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps. Price and Style of Binding.
