Must Clear Away Debris

Mr. Justin said he had taken up the question with the Stucker Brothers. Construction Company, the contractors, repeatedly, but that only of late had some of the earth outside the wall been cleared away.

Both City Commissioner Lynch and Engineer Justin together declared emphatically that the debris must be cleared away before the city accepts the job and pays over the final estimate.

The Letter

William H. Lynch, Superintendent, Department of Street and Public Improvements, Harrisburg, Pennsylvania.

Dear Sir: Referring to the permit issued by the Water Supply Commission of Pennsylvania to the City of Harrisburg, dated the fifteenth day of July, 1913, for the construction of a stepped, reinforced concrete protective wall extending along the foot of the river bank from Iron alley to Seneca street, a distance of about 14,000 feet, your attention is called to Condition No. 3 of said permit, which requires "that no material be borrowed from outside the flood channel of the river," which condition was imposed for the reason that the fill to be placed behind the protective wall should be secured from excavation from the bed of the river, the approved plans indicating that the total amount of fill required would about balance the necessary amount of excavated material from the river channel.

An inspection by this commis-sion shows that the entire fill was

Notable Meeting Held in Lititz Last Night After a Tour of York County Yesterday

THOUSANDS GREET DOCTOR

Reaffirms His Declaration For Local Option and Speaks About Social Uplifting

Dr. Martin G. Brumbaugh went from the York fair to the fertile re-gions of upper Lancaster county yesterday, closing his day with a speech farming districts are with him almost to a man. His coming was awaited by thousands in Lancaster county, as for several years Dr. Brumbaugh had managed a farm near Ephrata and the historic Moravian Seminary was opened to permit him to speak, an event not recalled by anyone now living.

The audience was typical and was thoroughly in sympathy with the big educator. To such an audience, naturally, Dr. Brumbaugh touched upon the home, the school of t and reception at Lititz which indicated

as the safeguards of state and nation. He discussed briefly his program for wider social service for those who toil for better country roads and for improved farm life. He told of the circumstances of the open nomination, retterated his published platform upon which he now seeks election and, declaring that his standard for local option was a matter wholly of conscience with him, asked his audience, as fair-minded men and women, to resent attempts to misrepresent his position on this great moral question. The Brumbaugh party put in a busy day in York county. The doctor, with "Uncle" Henry Houck, Frank B. McClain, Daniel F. Lafean, M. M. Garland and Colonel T. S. Crago, answered to early morning roll call. A reception at the Colonial started things going; then Dr. Brumbaugh and the others reviewed the volunteer firemen's parade of 1,500 York city and York county men, en route to the big event at Harrisburg. Your attention is called to the matter at this time for the reason that the present low stage of the river makes it possible to remove this material under more favorable conditions than could be done when the dam is completed and the river rises.

Scooping Out Material To-day
From Maclay street a gang is excavating outside the wall, now, and strowing the material back behind the steps. These workmen have not yet reached Kelker street. From about Harris street south the puddling of the section about "Hardscrabble" is under way. Long lines of hose have been laid along the bank and the space between the embankment slope and the coping of the wall, flooded to a depth of several inches. At points where the water seeps through new fill will be added to complete the packing. When the solid base is completed the placing of the concrete walk will begin.

Work was resumed to-day, too, by the concrete gangs on the construction of the foot of South street. Alternate steps were placed there all day. At the same time the completion of the foot wall from South street. Alternate steps were placed there all day. At the same time the completion of the foot wall from South street. Alternate steps were placed there all day. At the same time the completion of more steps will be continued until the connecting link is made with the flights of steps that are being extended southward from Herr street.

Construction of a Small Railroad A steam shovel was busy just at the water house to-day lifting "fill" by the ton from the great pile of debris outside the wall to behind the steps. The steam shovel will work southward clearing away the debris outside the wall to behind the steps. The steam shovel will work southward clearing away the debris outside the wall to behind the steps.
