IMPORTANT PROOFS. of the efficacy of Dr. Harlich's Celebrated Medi-

cines. The following certificate was sent by Mr. E. B. Hinman, agent at Cincinnatti, Ohio. There can I e

no mistake in it, as the parties are well known. Mr. Ezekiel Regdon, of Anderson township, Hamilton county, Ohio, was several days troubled with bill-us affections, scidity of the stomach, atanded with the usual symptoms of dyspepsis, and having made trial of various medicine without tinding relief, was cured by the above medicines.

YET LATER .- Mr. Vance, of Washington county, writes as follows-Dear Sir-Dr. Harlich's pil's are performing some of the most wonderful cures in this vicinity ever heard of. They were introduced here about six months ago, by one of my neighbors, who bought a half dozen packages from the Pittsbung office. I om aware of four cases in this place where complete cures have been performed, one of severe rheumatism, two of dyspepsia, and one of a most sheeking and aggravated nervous complaint, of ten or twelve years standing. 1 send you enclosed five dollars; please to forward pills for that amount by the bearer, William Ward, JOHN VANCE. That troublesome and peace-destroying disease. - Phousands and tens of thousands suffer from that common distressing complaint. Dispepsia is frequently caused by overloading or distending the tomach by excessive eating or drinking-indijestthe and acrid substances taken into the stomach. or from long continued constipation of the bowls, a sadentary life, fear, grief, anxiety, a coplous draft of cold water, drastic purgative medicines, dysentery, miscarriages, intermutent and spasmodic aff ctions of the stomach and bowls, irregular meals, lite hours, and too frequent use of spirituous liquors.

The symptoms of dispepsia may be described as a want of appetite, or an unnatural or voracious one, nausea and sometimes bilious comiting, sud- and as long as they are degenerated, or as long as den and transient distensions of the stomach after you are sick. eating, ac, id and putresent eructations, water brash, pain in the region of the stomach, costiveness, palpitation of the heart, dizziness and dimness of the right, disturbed rest, tremors, mental despondency. flatulency, spasms, nervous irritibility, chil inces, sallowness of complexion, great oppression after suting, languor and general debility, sick head ache, ac.

Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smo thly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagnant. There is jut one law of circulation in nature. When there is a superabundance of humorial fluid (screeity) in the intertinal tubes, and costiveness takes place, it fl wa back into the bloo I vessels, and infil.rates itself into the circulation. To establish the free course of the river, we must remove the o'structions which stop its free course, and the e of its tributary stream. With the body, follow the same natural principal ; remove, by that valuable purgative medicine Brondreth,s Universal Vegetable Pills, which are an effectual assist ince of nature, the super abundance of humors in the intestine canal. By per evening in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish Remember, never suff r a drop of blood to be ed taken from you -- Evacuate the humors as often

THE CULTIVATOR.

A Consolidation of Buel's Cultivator and the Genesee Farmer.

WILLIS GATLORD AND LUTHER TUCKER, EDITORS

THE Cultivator was established to improve and elevate the Agriculture of the country ; to give proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession ; to store his mind with useful knowledge, and convince him that while all cla-ses are and must be more or liss dependant on each other, he alone of the who'e can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his feliow men, it is knowledge ; and this knowledge,-kn wledge which is as essential to the success of the farmer as to other men,-it is the de ign of the Cultivator to aid in imparting.

ASTONISHING INCREASE.

FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS !!! WHEN we first purchased the old and well

known establishment of the Saturday Evening Post,

we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our 4 bors with full confid nev of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any coten-porary paper. Our list has continued to swell up with unexampled rapidity, and we have the conf lence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers ! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing shou'd be admitted into our columns, which the most fastidious father could disapprove of, and determined that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, nonounced that no theatrical notices should appear in our dumns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind,-as creative of exhibitions demoraiizing in tendency, and fearfully permicious in fact. There were not wanting blusterers, who made a great parade of opposition, and Cronkers, who predicted our speedy downfall, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating eulogy of all kinds of characters made familiar to their minds.

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and li erary journalists we had nothing to do with the matter; this determination has been strictly and rigidly adhered

THE NEW WORLD.

THE LARGEST, CHEAPEST, HANDSOM. EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PARK DENJAMIN AND EPES SAROENT.

WITH multiplied resources for rendering the New Would more valuable than ever as compendious newspaper and repository of elegant literature, we enter upon the second volume (follo) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the New Wonth, it his acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscrite rs, during that period. (besides a I the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Moss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, signed, for this undertsking, have indue d them to Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these cminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an arme I neutrality. - Our columns as heretofore will be unoljectionable in a moral point of view. In criticism we shall, in justice to the public, mantein a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, carnestly shive to render our sheet not only worthy of the unparalleled tayour it has experianced. but of a continually extending circulation. While we continue to furnish with all possible promittude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to

native authors, which may induce them to m ke the New World the medium for presenting to the public their best produ tions. Our excellent London correspondent will be continued, and due attention will be paid to the comercial, spricultural and news departments of our paper.

to, and while we shall continue to give our readers such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall stu-

diously and thoroughly avoid any contamination of partiz in politics. The paper is now printed in a new and beautiful type,-has received the praise of many editors of

taste, as the handsomest family sheet in the Union." Our efforts have been directed to the combining of beauty and simplicity with utility and taste, The Post is printed on a stout white paper, retadering it nest and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the developement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that happens in the Old World or the New, shall be collected and collated for the taste of our readers.

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facis, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities The state of the markets and the fluciua tious in the prices, will be regularly and what is of MILE, leaving a clear profit to the producer of oxr more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturd y Evening Post, shall be conducted, as to speak for itself.

Our readers will always fied in its columns the earliest and mest authen ic information, es well as the most choice and entertaining literary matter. We have totally discarded the system of filling the poper with quack advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we feel assured that we shall be no loserthereby, as but few readers care about having a paper filled with descriptions of these nauseating com-

PROSPECTUS

OF THE

JOURNAL OF THE AMERICAN SILK SO CIEFY, AND RURAL ECONOMIST.

EDITED BY GIDEON B. SMITH.

THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILK in the United States. It has now been published one year, and may be considered a work of standard character.

The first year's publication, comprising the first olume, containes a mass of valuable information and it will be the olj ct of the editor to make the second equal in all respets, if not superior, to the first. The important fact is now estal lished be yond any question, that the people of the Unite. States can make silk CHEAPER and BETTER than any other nation upon earth. It has been proved by unimpeachable testmony, that the entire cost of producing silk ready for market, does not exceed TWO DOLLARS AND TWENTY-FIVE CENTS PAR POUND, and its lowest value is FOUR BOLLARS AND FIFTY CENTS; also, that ONE ACRE of ground plant ed in morus multicaulis, will produce the first year the trees are planted, FOURTS-AIGHT FOUNDS OF HUNDRED AND RIGHT DOLLARS ! It has also been

proved that the children and females (fany farmer's family can, with the greate-t possible case, produce from fifty to a hundred pounds of silk every year. without any cost whatever to the expenses of the farm after the trees are planted; and therefore, that

the whole amount of silk will be so much clear g in s y from \$225 to \$450. With these facts we solm.t to an intell gent people wether it is not a great and important object for them to introduce the cuiture of silk in every farmer's family in the Unioa. To enable all our farmers to make si k, the Jour. NAL OF THE AMPRICAN SILK SUCIETS' WAS (St ib-

lished; it contains plain practical directions for evi-works, REALING THE SILE, and preparing it for market, &c. besides all other information that can he r quired to enable any preson to enter spon the business, either on a large or small scale. Every friend of his country, into whose hands this paper may fail, will be doing a patriot and philanthropist's work by inducing his friends and neighbours to en-

ter their names up on the list of subscribers. The Journal of the American Society is published

monthly, in paughlet form; each number contains thirty two octavo pages, printed on new type and handsome paper, with a printed colored cover

TENMS :- Two dollars a year, or six copies for ten dollars, always to be paid before the work is paid for.
