

**IMPORTANT PROOFS.**  
Of the efficacy of Dr. Harlick's Celebrated Medicines.  
The following certificate was sent by Mr. E. B. Hinman, agent at Cincinnati, Ohio. There can be no mistake in it, as the parties are well known.

Mr. Ezekiel R. Gordon, of Anderson township, Hamilton county, Ohio, was several days troubled with all the affections incident to dyspepsia, attended with the usual symptoms of dyspepsia, and having made trial of various medicines without finding relief, was cured by the above medicines.  
Attest,

E. RIGDON.

**YET LATER.**—Mr. Vance, of Washington county, writes as follows:—Dear Sir:—Dr. Harlick's pills are performing some of the most wonderful cures in this vicinity ever heard of. They were introduced here about six months ago, by one of my neighbors, who brought a half dozen packages from the Pittsburg office. I am aware of four cases in this place where complete cures have been performed, one of severe rheumatism, two of dyspepsia, and one of a most shocking and aggravated nervous complaint, of ten or twelve years standing. I send you enclosed five dollars; please to forward pills for that amount by the bearer, William Ward.  
Attest,  
July 27, 1840.  
JOHN VANCE.

**DYSPEPSIA! DYSPEPSIA!**  
That troublesome and peace-destroying disease, which attacks tens of thousands suffer from that common distressing complaint. Dyspepsia is frequently caused by excessive eating or drinking, indigestion and acid substances taken into the stomach, or from long continued constipation of the bowels, a sedentary life, fear, grief, anxiety, a copious draft of cold water, drastic purgative medicines, dysentery, miscarriages, intermittent and spasmodic affections of the stomach and bowels, irregular meals, late hours, and too frequent use of spirituous liquors.

The symptoms of dyspepsia may be described as a want of appetite, an insatiable or voracious one, nausea and vomiting, a sense of fullness, sudden and transient distensions of the stomach, or of cutting, acid and putrescent eructations, water brash, pain in the region of the stomach, costiveness, palpitation of the heart, dizziness and dimness of the sight, disturbed rest, tremors, mental despondency, debility, spasms, nervous irritability, chills, coldness of complexion, great depression after eating, languor and general debility, sick head aches, &c.

**CURE.**—At the head of all remedies stands Dr. J. Harlick's Compound Strengthening Tonic and German Aperient Pills, which act gently upon the peristaltic motion of the intestines, thereby producing regularity of the bowels, at the same time improving the functions of the debilitated organs, thus invigorating and restoring the digestive organs to a healthy action. This medicine is sold in Philadelphia in producing relief.

Full and explicit directions accompany the above medicine. Likewise a pamphlet which describes the manner of treating, &c.

**FEMALES.**  
WHO are troubled with sick headache, pain in the side, breast, and loins, loss of appetite, flatulency, bowels of a spasmodic nature, indigestion, biliousness, giddiness, sickness at the stomach, bloating, indigestion, of the chest, nausea, vomiting, pain in the stomach, flushings of heat, and chilliness, and all the various ailments incident to the female system, should use this medicine. It is a most valuable medicine, which would soon find their weak and delicate constitutions strengthened, their minds composed, and all pains and distress driven from the system, when the body will again be new in its vigor, and put on a new life, and death for a while be deferred to their prey. What heart but feels glad to behold a circle of relatives and dear friends, snatched as it were from the jaws of death, and yet who are laboring under disease let not another day or night pass without procuring this medicine, as it will in a majority of cases effect a permanent cure. *Resolute delay is dangerous*, and if disease is neglected, its ravages will doubly increase.

**SICKNESS.**  
THERE are many persons that we daily behold, whose countenances and facial lines denote afflictions which we find as principally originated from the use of purgative remedies at the commencement of sickness. At first the patient complains of bile on the stomach, attended with sickness, costiveness, &c. he begins to procure proper medicine; at length he complains of pain in the side and stomach with sour eructations; his appetite becomes impaired, his rest troublesome, his mind harassed, and all things around him appear not in their proper station. He neglects his limbs, when in all probability the disease may be cured, but so fast is the disease that he will not replace him again. At the first attack of sickness there should be "no time lost" in procuring Dr. Harlick's Compound Strengthening Tonic and German Aperient Pills, which immediately remove bile from the stomach, obviate costiveness, remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination; thus restoring the body again to its proper functions.

**TO THE AFFLICTED.**  
THOSE who are suffering from various diseases incident to the human family, would do well to procure Dr. Harlick's Compound Strengthening Tonic and German Aperient Pills, which are so pre-eminently recommended for Dyspepsia, Liver Complaint, &c. in the side, back and breast, Nervous Affections, Head-ache, and all the disorders of the Stomach and Bowels. Pills may be obtained gratis, which contain full and explicit directions for using. The reader is referred to several very interesting certificates of cures in this paper, which may be relied upon, as they are taken from the original. **Works of Nature.**  
IN a state of health the intricate flow may be compared to a river whose waters flow over the adjoining land, through the channels of nature or art has made, and improves their quality; and to keep up the comparison of the river, so long as it runs smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humoral fluid (serosity) in the intestinal tubes, and co-liveries takes place, it flows back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and the eod of tributary streams. With the body, follow the same natural principle; remove, by that valuable purgative medicine *Brandreth's Universal Vegetable Pills*, which are an effectual assist-ant of nature, the superabundance of humors in the intestine canal. By per evering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be finally established. Remember, never suffer a drop of blood to be taken from you—Evacuate the humors as often and as long as they are degenerated, or as long as you are sick.

Dr. Brandreth's Office in Philadelphia, is at No. 8, NORTH EIGHTH STREET, where his pills can be had at 25 cents per box, with full directions.  
Only agent in Sunbury, is H. B. Masser Esq., Sunbury, Sept. 9, 1840.

**MORE POSITIVE PROOF**  
Of the efficacy of Dr. Harlick's Compound Strengthening Tonic and German Aperient Pills.  
ALLEGHENY, Jan. 8, 1840.

To Dr. Harlick's Agent—Sir: I wish to state for the benefit of the e who may be afflicted, that Dr. HARLICK'S PILLS have entirely cured me of Dyspepsia, of which I have been afflicted for many years. I used both kinds, the Aperient and Strengthening, and I am constrained to say, that they are a valuable discovery, and act upon the system mildly, but very effectually. I found the Tonic pills to quicken the circulation and cause a determination to the surface, and to strengthen the weak stomach and increase its powers. The Aperient pills are the best cathartic I ever used. I am confident all Dyspepsia would do well to make immediate trial and be relieved. Any one can call at my house and be satisfied of the above at pleasure.

**LIVER COMPLAINT.**  
THIS disease is discovered by a fixed obuse pain in the right side under the stern ribs, attended with heat, uneasiness about the pit of the stomach; there is in the right side also a distention; the patient loses his appetite, and becomes sick and troubled with vomiting. The tongue becomes rough and black, the countenance changes to a pale or sallow color, or yellow like those afflicted with jaundice, difficulty of breathing, disturbed rest, attended with a dry cough, sickness of lying on the left side, the body becomes weak, and finally the disease terminates into either of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlick's Compound Strengthening Tonic and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed. Thousands can testify to this fact.

Certificates of many persons may daily be seen of the efficacy of his invaluable medicine, by applying at the Medical Office, No. 19, NORTH EIGHTH STREET, Philadelphia.

**MORE CONCLUSIVE PROOFS.**  
Of the efficacy of Dr. Harlick's celebrated Medicines.  
DEAR SIR:—I was afflicted with a bilious and nervous disease to a very alarming degree, with all the symptoms which so frequently attend a relaxed condition, viz: giddiness in the head, violent tremors, chilliness, with a fixed pain in the right side, complexion bad, and costiveness; indeed I was in a most miserable condition. I had tried many remedies, but found no permanent relief until I had purchased Dr. Harlick's compound strengthening tonic and German aperient pills, which from their superior virtues, I was completely cured, and am able to pursue my employment, free from pain and disease. **TRUTH WILL PREVAIL.**  
Dr. Harlick's medicines are daily increasing in public favor, and want from any but a fair trial to establish their worth. We have a constant supply in our columns to-day from a person long afflicted, which is but one of many vouchers for this medicine.—*Spirit of the Times.*

**GRAHAM'S MAGAZINE,**  
AND THE  
**Ladies' and Gentlemen's World of Literature and Fashion.**  
(The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the most established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gentleman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a specimen of the new volume. The Volume will be published with a new and beautiful type, the finest white paper, and with the first of a series of engravings unsurpassed by any which have yet appeared in any Magazine. The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the brilliant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a servile and mediocrity, and from an affectation of morality, but will be a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been well copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, also from the accuracy of the recommendations. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruising in the last War," have had a run, unequalled by any series published in any Magazine for years.—The author's promise to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the accuracy of the well known articles, entitled "The Log of Old Pointe." The author of "Stryan Letters," will also lead his powerful and grateful pen, to sustain and increase the reputation of the work.—The valuable aid of the author of "Leaves from a Lawyer's Portfolio," has also been secured, and we may expect something still more brilliant from the spacious strata which a long life in the profession has enabled him to amass. An oceanic Chin-Chat with "Jimmy Sloan," and "Oliver Odellow," is also promised, with a variety of choice articles in prose and verse, from the pen of writers of the volume, and from the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talents a Magazine of unrivalled attractions, may safely be pronounced the coming volume.

**FASHIONS AND ENGRAVINGS.**  
In compliance with the almost unanimous wish of our lady subscribers, we shall in our coming volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Fashion plate shall be drawn from original designs from Paris and London, and may always be depended upon as the prevailing style in Philadelphia and New York, for the month in which they are issued.

**Time of publication.**—The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will consequently receive it on that day, as well as those who reside in Philadelphia. In all the principal cities, agents have been established, to whom the Magazine is forwarded, prior to the time of issuing it, so that they may be delivered to resident subscribers by the first of the month.

**TERMS.**—Three Dollars per annum. Or two copies yearly for five dollars, invariably in advance, paid by the subscriber, or by a third party, in full, or by the name of a responsible agent. For the accommodation of those who may wish to subscribe for either of the following Philadelphia periodicals, this liberal proposal is made: Five dollars current money, free of postage, will forward Graham's Magazine, and Godley's Lady's Book, for one year. Address, post paid.  
GEO. R. GRAHAM,  
South West corner of Chestnut & Third Sts., Philadelphia.

**The Brother Jonathan.**  
THE largest and most beautiful newspaper in the world—larger by fifty square inches than any other newspaper in the United States. Published Saturdays, at 162 Nassau street, New York. Price three dollars a year—two copies for five dollars.

The proprietors of this mammoth sheet—the "Great Western" among the newspapers—have the pleasure of reading the reading public a weekly periodical containing a greater amount and variety of useful and interesting miscellany, than is to be found in any similar publication in the world.

Each number of the paper contains as large an amount of reading matter as is found in volumes of ordinary duodecimo, which cost \$2— and more than is contained in a volume of Irving's Columbus or Bancroft's History of America, which cost \$3— and all for Three Dollars a year. For \$5 two copies will be forwarded one year, or one copy two years.

Since the publication of our original prospectus, the Brother Jonathan has been ENLARGED and its size, amply before, has been so much increased, that much more than the former quantity of the most interesting literature of the day is embraced in its immense capacity. Sections from all the most prominent and celebrated writers of the day assist in swelling its contents; and whatever is new, rich, or rare, is immediately transferred to its columns. All the contributions to periodicals of American writers of repute appear in its pages; and the issues of the foreign press are laid under contributions, as soon as received in this country. To the miscellaneous and Literary Department, the closest attention is paid; and in all the selections and original contributions, strict care is devoted to avoid all that may touch upon the opinions of any party in religion or politics.

**THE CULTIVATOR,**  
A Consolidation of Buell's Cultivator and the Genesee Farmer.  
WILLIS OATLORD and LUTHER TUCKER, EDITORS.  
Prospectus of Vol. 8, for 1841.

The Cultivator was established to improve and elevate the Agriculture of the country; to give a proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependent on each other, he alone of the whole can make any near approach to independence. In this there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge—knowledge which is as essential to the success of the farmer as to other men,—it is the design of the Cultivator to aid in imparting.

The volume for 1840, is filled entirely with Original Communications, embracing articles of about 200 Correspondents, from almost every state in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals,—if the almost unanimous voice of the public press in our favor,—if the multitude of private yet flattering testimonials we have received, added to a circulation amounting the first year to TWENTY-TWO THOUSAND, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesee Farmer. No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Sheep, Swine, Buildings, Implements, &c., making the Cultivator all things considered, it is believed, the Cheapest Agricultural Paper ever published in this or any other country.

**TERMS.**—One Dollar per annum—Six copies for \$5—the money to be remitted in advance, free of postage. A commission of 20 per cent. will be allowed to Agents who obtain 25 or more subscribers, and 25 per cent. to those who obtain 100 or more. All subscriptions to commence with a volume.

Postmasters and gentlemen disposed to lend their influence to aid the cause of Agriculture, are respectfully requested to act as Agents. Address, JESSE BUELL & CO., Publishers of the Cultivator, Albany, N. Y.

**ASTONISHING INCREASE.**  
FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS!!!

When we first purchased the old and well known establishment of the Saturday Evening Post, we stated that the paper circulated so widely among the steady reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any contemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our paper, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing should be admitted into our columns, which the most fastidious father could disapprove of, and determined that, as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind,—as creative of exhibitions demoralizing in tendency, and fearfully pernicious in their effects. There were not wanting blusters, who made a great parade of opposition, and Croakers, who predicted our speedy downfall, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however useless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating outpour of all kinds of characters made familiar to their minds.

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this determination has been strictly and rigidly adhered to, and while we shall continue to give our readers such public documents as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of party politics.

The paper is now printed in a new and beautiful type,—has received the praise of many editors of taste, as the handsomest family sheet in the Union. Our efforts have been directed to the combining of beauty and simplicity with utility and taste. The Post is printed on a stout white paper, rendering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the development of intellectual strength. The present volume of our paper, together with the valuable and domestic matter, as well as the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of notice happens in the Old World or the New, shall be collected and collated for the taste of our readers.

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudable desire of our country readers, a portion of our attention will be devoted to the diffusion of such News, Memoranda, Tables, Facts, &c., as may seem important to agriculturists, and the paper will be sent to the most remote of our great cities. The state of the markets and the fluctuations in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shall be conducted, as to speak for itself.

Our readers will always find in its columns the earliest and most authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quick advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we feel assured that we shall have no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Casket, and two copies of the Post for one year for \$5 free of postage and discount.

No New Subscriber received without the Money.  
To those who wish to enclose the money in a letter and direct to us. Most postmasters will frank their letters if relating to nothing but the business of the office, and all postmasters who will be kind enough so to do, we shall be pleased to acknowledge as agents.

**THE NEW WORLD.**  
THE LARGEST, CHEAPEST, HANDSOMEST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

WITH multiplied resources for rendering the New World more valuable than ever, a compendious newspaper and repository of elegant literature, we enter upon the second volume (John on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose.) I will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existence of the New World, it has acquired a reputation and circulation superior to any weekly paper in the country, and has furnished to its subscribers, during that period, (besides a list of the current news of the domestic and foreign news, and valuable works of Talfourd, D'Israeli, Thomas Moore, Miss Mifflin Mrs. Jameson, C. Dickens, Ainsworth, Knowler Bulwer, Maryat, and others—works which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by the eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simt Street, &c. &c.

In politics we shall, as hitherto, maintain an unpartisan neutrality.—Our columns as heretofore will be unobjectionable in a moral point of view, criticism we shall, in justice to the public, maintain a perfect independence, even though we incur the censure of all the parties. We shall, in consequence, be most anxious to render our sheet not only worthy of the unparalleled favour it has experienced, but of a continually extending circulation. We continue to furnish with all possible promptness the most attractive literature of the day, we admit as our means enlarge, afford that compensation to our native authors, which may induce them to publish their best productions. Our excellent London correspondent will be continued, and due attention will be paid to the commercial, agricultural and news departments of our paper.

**PROSPECTUS**  
OF THE  
JOURNAL OF THE AMERICAN SILK SOCIETY, AND RURAL ECONOMIST.

EDITED BY GIBSON B. SMITH.  
THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the culture of silk in the United States. It has now been published one year, and may be considered a work of standard character.

The first year's publication, comprising the five volumes, contains a mass of valuable information, and it will be the object of the editor to make the second equal in all respects, if not superior, to the first. The important fact is now established beyond any question, that the people of the United States can make silk CHEAPER and BETTER than any other nation upon earth. It has been proved by unimpeachable testimony, that the entire cost of producing silk ready for market, does not exceed TWO DOLLARS AND TWENTY-FIVE CENTS per pound; and its lowest value is FOUR DOLLARS AND FIFTY CENTS; also, that ONE ACRE of ground planted in morus individualis, will produce the first year the trees are planted, FORTY-EIGHT POUNDS of silk, leaving a clear profit to the producer of ONE HUNDRED AND EIGHT DOLLARS! It has also been proved that the children and females of any farmer's family can, with the greatest possible ease, produce from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of the farm after the trees are planted; and therefore, the whole amount of silk to be so much clear gain from \$225 to \$450. With these facts we submit to an intelligent people whether it is not a greater and important object for them to introduce the culture of silk in every farmer's family in the Union. To enable all our farmers to make silk, the JOURNAL OF THE AMERICAN SILK SOCIETY was established; it contains plain practical directions for CULTIVATING THE TREES, FEEDING AND REARING SILK WORMS, REELING THE SILK, and preparing it for market, &c. besides all other information that can be required to enable any person to enter upon this business, either on a large or small scale. Ever friend of his country, it will be so plain that any man may fall, will be doing a part of his philanthropic work by inducing his friends and neighbors to enter their names upon the list of subscribers.

The Journal of the American Silk Society is published monthly, in pamphlet form; each number contains thirty-two octavo pages, printed on new type and handsome paper, with a printed colored cover.

**TERMS.**—Two dollars a year, or six copies for ten dollars, always to be paid before the work is sent. All subscriptions to begin with the first number of any year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

New subscribers, who take the first or second volume, will be charged only THREE DOLLARS for the two years.
