Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the channels noture or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagment. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (screeity) in the intestinal tubes, and costiveness takes place, it fl ws back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the of structions which stop its free course, and the e of its tributary stream. With the body, follow the same natural principal; t move, by that valuable purgative medicine Bran-dreth,s Universal Vegetable Pills, which are an effectual assist nee of nature, the superabundance of humors in the intestine canal. By per evering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly established Remember, never suffer a drop of blood to be taken from you -- Evacuate the humors as often

and as long as they are degenerated, or as long as you are sick. Dr. Brandreth's Office in Philadelphia, is at No. 8, NORTH EIGHTH street, where his pills can be had at 25 cents per box, with full directions. Only agent in Sunbury, is H. B. Masser Esqr.

The character of the articles which shall appear in its pages, will be equally removed from a sick y sentimentality, and from an affictation of morality, but while a true delineation of human nature in every variety of passion is simed at, nothing shall be found in its pages to cause a blush upon the check of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Mag-zines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been wid ly copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every whe e approved and commended. ASTONISHING INCREASE.

Saturday Evening Post, we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up. with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our tabors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing should be admitted into our columns, which the most fastidious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our olumns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind, -as creative of exhibitions demorailzing in tendency, and fearfully pernicious in fact. There were not wanting blusterers, who who predicted our speedy downfall, but we threw

port, and we have been nobly sustained. We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating Editors: those relative to the buisness depart eulogy of all kinds of characters made familiar to ment, to their minds.

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO-CIETY, AND RURAL ECONOMIST.

EDITED BY GIDEON B. SMITH. THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILK in the United States. It has now been published one year, and

may be considered a work of standard character. The first year's publication, comprising the first volume, containes a mass of valuable information and it will be the object of the editor to make the second equal in all respets, if not superior, to the first. The important fact is now estat lished be yond any question, that the people of the United States can make silk curapen and nerren than any other nation upon earth. It has been proved by unimpeachable testimony, that the entire cost of producing silk ready for market, does not exceed TWO BOLLARS AND TWENTY-FIVE CENTS PER POUND, and its lowest value is FOUR DOLLARS AND FIFTY CENTS; also, that one seas of ground plant ed in morus multicantis, win produce the first year the trees are planted, rountr-mour rounds or SILE, leaving a clear profit to the producer of ext HUNGRED AND RIGHT DOLLARS! It has also been proved that the children and females of any farmer' family can, with the greatest possible ease, product from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of the farm after the trees are planted; and therefore, that the whole amount of silk will be so much clear gain say from \$225 to \$450. With these facts we sulm.t to an intelligent people wether it is not a great and important object for them to introduce the culture of silk in every farmer's family in the Union. To enable all our farmers to make si k, the 'Joun-NAL OF THE AMERICAN SILK SOCIETY' Was estabfished; it contains plain practical directions for cut-TIVATING THE TREES, PEEDING and REARING SILK WORMS, REELING THE SILK, and preparing it for market, &c. besides all other information that can be r quired to enable any person to enter upon the business, either on a large or small scale. Every friend of his country, into whose hands this paper may fall, will be doing a patriot and philanthropist's work by inducing his friends and neighbours to enter their names upon the list of subscribers,
