SICKNESS.

THERE are many persons that we daily behold, whose countenances and frail limbs denote affliction, which we find has principally originated from neglect of proper remadies at the commencement of sickness. At first the patient complains of bile on the stemach attended with sickness, costiveness, &c., he regrects to procure proper medicine; at lenth he complains of pain in the side and stomach with sour emetations; his oppetite becomes impaired, his rest troublesome, his mind harassed, and all things around him appear not in their proper station. He still neglects himself, when in all probability the cliscase may at lenth be so fast seated, that no medical aid will replace him again. Works of Nature.

IN a state of health the intestinal canal may be ompared to a river whose waters flow over the adoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of kumorial fluid (serocity) in the intestinal tokes. tinal tubes, and costiveness takes place, it flows back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and those of its tributary stream. With the body, follow the same natural principal; remove, by that valuable purgative medicine Bran-dreth, Universal Vegetable Pills, which are an effectual assistance of nature, the superabundance of humore in the intestine canal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish ed Remember, never suffer a drop of blood to be taken from you -- Evacuate the humors as often and as long as they are degenerated, or as long as you are sick.

MORE POSITIVE PROOF Of the efficacy of Dr. Harlich's Compound Strengthening and German Aperient Pells. ALLEGRENT, Jan. 8, 1840.

To Dr. Harlich's Agent-Sir: I wish to state for the benefit of those who may be afflicted, that Dr. HARLICH'S PILLS have entirely cured me of Dysyears. I used both kinds, the Aperient and Strengthening, and I am constrained to say, that they are a valuable discovery, and act upon the system mildly, but very effectually. I found the Tonic pills to quicken the circulation and cause a determination to the surface, sed to strengthen the weak stomach and increase its powers. The Aperieni pills are the best cathartic I ever used. I am confident all Dyspeptics would do well to make immediate trial and be relieved. Any one can call at my house and be satisfied of the above at pleasure.

LIVER COMPLAINT.

THIS disease is discovered by a fixed obtuse pain in the right side under the short ribe, attended with heat, uncasiness about the pit of the atomach; there is in the right side also a distention ; the patient loses his appetite, and becomes sick and troubled with vomiting. The tongue becomes rough and black, the countenance changes to a pale or citron color, or yellow like those afflicted with jaundice, difficulty of breathing, disturbed rest, attender with a dry cough, difficulty of laying on the left side, the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Strengthening Tonic and German Aperient Pills, if tacheck it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed. Thousands can testify to this fact.

Certificates of many persons may daily be seen of the efficacy of this invaluable medicine, by applying at the Medical Office, No. 19, NORTH EIGHTH street, Philadelphia.

all the symptome which so frequently effects a relaxed condition, vix: giddiness in the head, violent tremors, chilliness, with a fixed pain in the right side, complexion bad, and costiveness; indeed I was in a most miserable condition. GRAHAM'S MAGAZINE. Ladies' and Gentlemen's World of

Literature and Fashion. (The Casket and the Gentleman's United.)

NEW Volume, under the above title, of the well established and fashionable Magazin-The Philadelphia Casket in conjunction with the Gentleman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellishments unsurpassed by any which have yet appeared in any Magazine,
The style of elegance, the beauty and finish of these
illustrations, and the extensive improvements which
will be made in its typographical appearance, and
above all, the tone of its literary department, by the
brilliant array of contributors, whose articles have
enriched the pages of each number, will give it character, second to no Magazine in the Union. The acter, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a sickly sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been widely copied and read, and the firm and independent tone of the criticisms, upon the current litera-ture of the day, has been every where approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruixing in the last War," have had a run, unequalled by any series published in any Magazine for years.—The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expect-ed during the volume, also from the author of the well known articles, entitled "The Log of Old Ironside." The author of "Syrian Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work .- The valuable sid of the author of "Leaves from a Lawyer's Port Folio," has also been occured, and we may expect something still more thrilling from the capacious storce which a long life in the profession has enabled him to amass. An occasional Chit-Chat with "Jemmy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity, as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talent a Magazine of unrivalled attractions, may safely be promised the coming volume.

FASHIONS AND ENGRAVINGS. In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Fashion plates shall be drawn from original designs from Paris and London, and may always be de-pended upon as the prevailing style in Philadelphia and New York, for the month in which they are is.

Time of publication.—The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will conse quently receive it on that day, as well as those who reside in Philadelphia. In all the principal cities, agents have been established, to whom the Magazine is forwarded, prior to the time of issuing it, so that they may be delivered to resident subs

WILLIS PATCORD AND LUTHER TUCKER, SPITORS Prespectus of Vol. S. for 1941.

THE Cultivator was established to improve and elevate the Agriculture of the country; to give proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowedge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than snother, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the design of the Cultivator to aid in imparting.

The volume for 1840, is filled entirely with Original Communications, embracing articles from about 300 Correspondents, from elmost every state

No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illatrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Cattle, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever

ASTONISHING INCREASE.

FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS!!! WEER we first purchased the old and

Printers, Baltimere, Md.

known establishment of the Saturday Evening Post,

we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing should be admitted into our columns, which the most fastidious father could disapprove of, and determined that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind, -as creative of exhibitions demoralizing in tendency, and fearfully permicious in fact. There were not wanting blusterers, who made a great parade of opposition, and Croakers, who predicted our speedy downfall, but we threw ourselves upon the sober, rational and experienced

port, and we have been nobly sustained. We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating culogy of all kinds of characters made familiar to

portion of the people of the United States for sup-

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this ation has been strictly and rigidly adhered to, and while we shall continue to give our renders such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of partizen politics.

The paper is now printed in a new and beautiful type, -has received the praise of many editors of taste, as 'the handsomest family sheet in the Union.' Our efforts have been directed to the combining of beauty and simplicity with utility and taste. The Post is printed on a stout white paper, ren

dering it nest and durable for filing. In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the developement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that happens in the Old World or the New, shall be collected and collated for the taste of our rea

ders. The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers. the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the markets and the fluctuatious in the prices, will be regularly and what is of more moment, correctly given.

We have over been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shall be conducted, as to speak for itself.

Our readers will always find in its columns the earliest and mest authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving our readers from week to week, entertaining read-

ITH multiplied resources for rendering the NEW WORLD more valuable than ever as compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the NEW WORLD, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryst, and others—works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original sticles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. dec.

In politicks we shall, as hitherto, maintein an armed neutrality.-Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive literature of the day, we shall as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent Lon don correspondent will be continued, and due at tention will be paid to the comercial, agriculture

and news departments of our paper. A QUARTO EDITION
