TO THE COMMUNITY.

THE success which has attended the use of Dr. Verlick's German Aperient and Compound - no vain boast to say this medicine has proved by happy effects in the cure of a variety of discuses as which the human frame is liable, to be vasily superior to the many preparations before the public. es of the human system, and mere pretenders to ordical knowledge. Dr. Harlich, however, is celested among the German faculty as a man of the orginal scientific attainments and men of the organization. ighest scientific attainments, and equally distinished throughout Europe, as a successful medical acceptioner, spent most of the years of a useful life in the nonsition of such knowledge as might prove is neficial to his fellow creatures. In the pills which is invented, and which bear his name, the public a assured of an article that possesses more than dinary virtues. From the acknowledged talents of this inventor, nothing less than a good article mild be expected; and the experience of many wars has afforded demonstration of the virtues of is medicine. In Germany and other parts of Eu-... of, its r putation is established. In this country, min which it has but been recently introduced, it is tapidly gaining the most substantial reputation. The s utherous cert fleates of cures of the most obstinate the eases effected by the use of Harlich's Pills, which the proprietor is constantly receiving, is proof of the 1 ct. Day after day he receives new testimontals their efficacy, and week after week increases the conund for them. This is not mere assertion; inunterable certificates are open for the Inspection of e public, and the doubts of any who are skeptical, on he removed by examining them at the office of the proprietor.
We take the liberty, then, of suggesting to every

HEPATTIS, OR LIVER COMPLAINT. Liver complaint is described to be of two forms. 14; Acute and Chronic, which are different in their eat and character, and are produced from ulcers on the Liver, which is deseased on the surface or in the cutre. In the former, the patient is attacked with sudden pain, in the region of the Liver, so severe that even the red clothes are insupportable; the paent cannot bear to turn or lay on his left side from the presence exerted in that position of the inflamed organs. The latter may go on in such a manner that the first symtoms of Liver Complaint are those which mark the occurrence of supportation. The Acote and Sub-acute varieties, almost always coman nee with some chilly feelings succeeded by heat at the skin, fevered tongue, having a yellowish ap-, studies. Irregular state of the bowels, costiveness, numericance changes to a pale or citron color, or yellow like those afflicted with jaundice, difficulty of calling, disturbed rest, attended with cough, feverish synitoms, a dry and parched skin, difficulty of bring on the right side, trine scanty and high catored, the patient passes many bad nights and is to quently troubled with Diarrhoa, Tenasmus and Cles, names and vomiting, and has a considerable threat. When the inflammation affects the peritoneal coat of the Liver the pain is much more intense and the fever higher than when confined to the Liver. In chronic affections it is uncertain in its termination; the pain is microse, attended occasionally with feverish symtoms, a dry and parched skin, pregular bowels, sallow countenance, frequent attacks of justidice, the tongue is scarcely ever free from ye how fur, the appetite bad, and a corruption attacks the face and back, behind the shoulders, &c. Paulten's Compound Strengthening Tonie and Aperient German Pills, will, in a majority of cases, produce a perfect cure, and if used at the very onset of affliction will in every case arrest the disease. This is not merely theory but fact, which

and explicit a restions are defined in the medical party let which accompanies the medicine, and can te obtained gratis of any of the regularly oppointed agents who sell this medicine. TRINCIPAL REASONS

Why Dr HARLICH'S Compound Strengthening and German Aperient Pitts are used by all clastes of prople, in preference to other Medicines, because they are prepared from a pure extract of norbs, a wholes me medicine, mild in its operation and pleasant in its effect—the most certain preserver of health, a sale and effectual cure of Dyspepsia or Indigestion, and all stamach complaints, a preserver and parifler of the whole system.

Because they soothe the nerves of sensibility and fortify the nerves of motion, imparting to their mest subtle field its pristing tone, thus giving strength and charness of mind.

Decause they never destroy the coats of the stomech and bowels, as all strong purgatives de, Herause science and experience teach us that no mere pargative alone will cure the discuse of the

stomach and nerves. Weskness is the primary course of a most of diseases, and, by continually resorting to Dirastic purgatives, you make the disease much worse, instead of letter, Because Dr. Harlich's Medicines are put up upon the common sense principle, to "clearse and

roughest," a lich is the only course to pursue to Cast a cure - Lastly, Presum these Medicines really do cure the dis-

case for whali they are recommended. Principal Office for the United States, is at No. 19 North Eighth street, Philodelphia. HENRY YOXTHEIMER.

CLEANSE AND STRENGTHEN. The only sure and best course to pursue in curing diseases, of whatever nature they may be, is: first, to sleaner and purify the Stomach and Bowels by gentle aperients; secondly, to give strength and tone to those tender organs by the ese of proper tonics. This mode is always pursued by regular physicians, which they well know to be the only course to reson to, to effect a speedy and permanent cure. Dr. HERLICK's Companied Strengthening Tonic and Aperant Pills, are a cure madicine to effect this grand object. The German Aperient Pills are to cleanse the stomach and intestines, after which the Compound St engthening Tonic Pills are used, to give grength and tone to those orgone which require tender treatment. Nearly twothirds of the diseases which we daily behold are discuses of the nervous system, and by contamally using drastic mineral purgatives the sufferer will soon and himself a being too much refined to remain hong in existence. Works of Nature. IN a state of health the intestinal canal may be compared to a river whose waters flow over the adoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagment. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (serecity) in the intestional tubes, and costiveness takes place, it flows back into the blood vessels, and infibrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and those of its tributary stream. With the body, follow the same natural principal; move, by that valuable purgative medicine Brandreth, Universal Vegetable Pills, which are an effictual assistance of nature, the superabundance of humors in the intestine ranal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly established Remember, never suffer a drop of blood to be taken from you - Evacuate the humors as often

and as long as they are degenerated, or as long as you are sick. Dr. Brandreth's Office in Philadelphia, is at No. 8, NORTH EIGHTH street, where his pills can be

LIVER COMPLAINT,

Sunbury, Sept. 9, 1840.

Cured by the use of Dr. HARLICH'S COMPOUND STENGTHENING AND APERIENT PILLS.

Mr. WILLIAM RICHARDS, Pittsburgh, Pa., entirely cored of the above distressing disease: His symtoms were, pain and weight in the left side, loss of appetite, vomiting, acid cructations, distention of the stomach, sick headache, furred tonene, countenance changed to a citron color, difficulty of breathing, disturbed rest, attended with a cough, great debility, with other symtoms indicating great erangement of the functions of the liver. Mr. RICHARDS had the advice of several physicians, but received no relief, until using Dr. HARLICH's Medicine, which terminated in effecting a perfect cure. THE CAUSE OF DISEASE.

Nearly all classes of disease, are caused by some obstruction in the system, which prevent the regular and wholesome operation of the animal functions. This state of the system, is disease, which is manifested in a variety of forms, more or less mal gnant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obstruction somewhere. This can be removed by purgation, which is the only means that shou'd be resorted to, because, suggested by reason, and by nature. Dr. Hurlich's Strength ening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a persafe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with off-repeated does of calomel, and other drugs, so injurious to human life and happiness

SICK HEADACHE.

Is a very common affection. Its attacks are very severe, and characterized by spasmodic pains, shift-ing from one part of the head to the other, frequently commencing in the morning, attended with stekness of the stemach, nausea, faintings, and sometimes, voniting, giddiness, and confusion of sight, &c &c. This descase is produced from various causes, perhaps the most common, is a derangement of the stomach and digestive organs. FEMALES are most subject to this affection, particularly those who lead a sedentary life. Dr. lich's Compound Strengthening Tonic and German Aperient Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and bowels, purifying the blood, and removing all diseased and excrementuous humors from the liver and intestines. By the use, first, of a few doses of the Aperient German Pills, afterwards two or three deses of the Strengthening Tonic Pills, which are used to strengthen and invigorate the nervous system, give tone to the somach and organs of digestion, thus imparting to their subtile fluid its pristine vigor, this afflicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been stiended with success in thousands of cases.

GRAHAM'S MAGAZINE, Ladies' and Gentlemen's World of

Literature and Fashion. (The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the well established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gentleman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellisaments unsurpassed by any which have yet appeared in any Magazine, The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the brilliant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a sickly sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been wid ly copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every where approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruizing in the last War," have had a run, unequalled by any series published in any Magazine for years,-The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the author of the well known articles, entitled "The Log of Old Iron-The author of "Syrian Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work .- The valuable aid of the author of "Leaves from a Lawyor's Port Polio," has also been secured, and we may expect something still more thrilling from the capacious stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat with "Jemmy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talent a Magazine of unrivalled attractions, may safely be promised the coming volume.

PASHIONS AND ENGRAVINGS. In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing volome furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Fashion plates shall be drawn from original designs from Paris and London, and may always be depended upon as the prevailing style in Philadelphia and New York, for the month in which they are is.

Time of publication .- The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will consequently receive it on that day, as well as these who reside in Philadelphio. In all the principal cities, agents have been established, to whom the Maga- of the day, both American and Foreign; and as the zine is forwarded, prior to the time of issuing it, so selections will be made with great care, it is believthat they may be delivered to resident subscribers by the first of the month.

TERMS :- Three Dollars per annum. Or two opies yearly for five do lars, invariably in advance, post paid. No new subscriber received without the noney, or the name of a responsible agent. For the accommodation of those who may wish to subscribe for either of the following Philadelphia periodicals, this liberal proposal is made: Five dollars current money, free of postage, we will forward Graham's Magazine, and Godey's Lady's Book, for one year. The proprietors of this mammoth sheetthe "Great Western" among the newspapershave the pleasure of streading before the reading public a weekly periodical containing a greater as nount and variety of useful and interesting miscellany, than is to be found in any similar publication in the world.

Each number of the paper contains as large an amount of reading matter as is found in volumes of ordinary duodecimo, which cost \$2-and more than is contained in a volume of Irving's Columbus or Bancroft's History of America, which cost \$3 a volume-and all for Three Dollars a year. For \$5 two copies will be forwarded one year, or one copy two years.

Since the publication of our original prospectus, the Brother Jonathan has been ENLARGED and its size, amply before, has been so much increased that much more than the former quantity of the most interesting literature of the day is embanced in its immense capasity. Selections from all the most prominent and celebrated writers of the day assist n swelling its contents; and whatever is new, rich. or rare, is imediately transferred to its columns. All the contributions to periodicals of American writers of repute appear in its pages; and the issues of the foreign press are laid uniter contributions, as good as received in this country. To the miscellaneous and Literary Department, the closest attention is paid; and in all the selections and original contributions, strict care is devoted to avoid all that may touch upon the opinions of any party in relgion of politics.

Experience having taught us that we had marked out a path for ourselves, in which all sorts of people delights to follow, the Brother Jonathan shall continue, as it begun, to be a bold, gentle, weighty, light, grave, merry, serious, witty, smooth, dashing, interesting, inspired, and incomparable newspaper. It shall be a stupendous mirror wherein all the world will stann reflected. WILLIS GATLORD AND LUTHER TUCKER, EDITORS Prospectus of Vol. 8, for 1841.

THE Cultivator was established to improve and elevate the Agriculture of the country; to give proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the design of the Cultivator to aid in imparting.

The volume for 1840, is filled entirely with Original Communications, embracing articles from about 300 Correspondents, from almost every state in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals,-if the almost unanimous voice of the public press in our favor,-if the multitude of private yet flattering testimonials we have received, added to a circulation amounting the first year to Twenty-Two Thou sann, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesse Farmer. No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last vol-Engravings, illustrating the improved breeds of Horses, Caule, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever

> ASTONISHING INCREASE. FOUR THOUSAND NEW SUBSCRIBERS

IN TWO MONTHS!!!

WHEN we first purchased the old and well cnown establishment of the

Saturday Evening Post,

we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing hou'd be admitted into our columns, which the most fascidious father could disapprove of, and determined that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind, -as creative of exhibitions demoralizing in tendency, and fearfully permeious in fact. There were not wanting blusterers, who made a great parade of opposition, and Croakers, who predicted our speedy downfail, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of eulogy of all kinds of characters made familiar to their minds.

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this determination has been strictly and rigidly adhered to, and while we shall continue to give our readers such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our uty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of partizan politics.

The paper is now printed in a new and beautiful type.—has received the praise of many editors of taste, as the handsomest family sheet in the Union. Our efforts have been directed to the combining of beauty and simplicity with utility and taste.

The Post is printed on a stout white paper, renlering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the de velopement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic mugazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that nappens in the Old World or the New, shall be collected and collated for the taste of our rea-

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the markets and the fluctuations in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shall be conducted, as to speak for itself,

Our readers will always find in its columns the earliest and mest authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving ur readers from week to week, entertaining read-

ing matter. And we feel assured that we shall be no loser thereby, as but few readers care about having a paper fitted with descriptions of these nauseating cor

pounds. The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Ca ket, and two copies of the l'ost for one year for \$5 free of postage and dis-

EDITED BY PARK BENJAMIN AND EFES SARGENT NEW WORLD more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garle of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the New Worker, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms,

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experienced. but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent Loudon correspondent will be continued, and due attention will be paid to the comercial, agricultural and news departments of our paper.

PROSPECTUS OF THE

JOURNAL OF THE AMERICAN SILK SO CIETY, AND RURAL ECONOMIST.

EDITED BY GIDEON B. SMITH.

THIS Journal was established by the America Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILE in the Unite States. It has now been published one year, an may be considered a work of standard character.

The first year's publication, comprising the fir volume, containes a mass of valuable information and it will be the object of the editor to mak the second equal in all respets, if not superior, the first. The important fact is now esta! lished ! youd any question, that the people of the Unite States can make silk curaren and BETTER tha any other nation upon earth. It has been prove by unimpeachable testimony, that the entire co of producing silk ready for market, does not excee TWO DOLLARS AND TWENTY-PIVE CENTS PL FOUND, and its lowest value is FOUR DOLLARS AN FIFTY CENTS; also, that ONE ACRE of ground plan ed in morus multicaulis, will produce the first yea the trees are planted, rocurr-sugar rounds of SILE, leaving a clear profit to the producer of ox HUNDRED AND EIGHT DOLLARS! It has also bee proved that the children and females of any farmer family can, with the greatest possible ease, produ from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of farm after the trees are planted; and therefore, the the whole amount of silk will be so much clear gain say from \$225 to \$450. With these facts we su mit to an intelligent people wether it is not a greand important object for them to introduce the cu ture of silk in every farmer's family in the Unio To enable all our farmers to make silk, the Jour NAL OF THE AMERICAN SILK SOCIETY' Was esta lished; it contains plain practical directions for cu TIVATING THE TREES, PERBING and REARING SIL YOUNS, REELING THE SILK, and preparing it i market, &c. besides all other information that co be required to enable any person to enter upon t business, either on a large or small scale. friend of his country, into whose hands this pap may fall, will be doing a patriot and philanthropis work by inducing his friends and neighbours to e ter their names upon the list of subscribers.
