THE success which has attended the nee of Dr. tharlich's German Aperient and Compound trengthening Tonic Pells, is truly astonishing. In the pills which be invented, and which bear his name, the public ere assured of an article that possesses more than ordinary virtues. From the acknowledged talents of this inventor, nothing less than a good article could be expected; and the experience of many years has afforded demonstration of the virtues of its medicine. In Germany and other parts of Eure o, its r putation is established. In this country which it has but been recently introduced, it is capidly gaining the most substantial reputation. The rumerous cert ficates of cures of the most obsticate e ses effected by the use of Harlich's Pills, which to e proprietor is constantly receiving, is proof of the fact. Day after day he receives new testimontals of their efficacy, and week after week increases the demand for them. This is not mere assertion; in-

HEPATITIS, OR LIVER COMPLAINT.

Liver complaint is described to be of two forms, siz; Acute and Chronic, which are different in their est and character, and are produced from ulcers or the Liver, which is deseased on the surface or in the centre. In the former, the patient is attacked with sudden pain, in the region of the Liver, so severe that even the led clothes are insupportable; the pathat cannot bear to turn or lay on his left side from of a pressure exerted in that position of the inflamed organs. The latter may go on in such a manner of at the first symtoms of Liver Complaint are those which mark the occurrence of suppuration. The

When the inflammation affects the peritoseal coat of the Liver the pain is much more intense and the fever higher than when confined to the Liv-. In chronic affections it is uncertain in its termination; the pain is intense, attended occasional-

Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose waters flow over the adoining land, through the chapmels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs n smoothly the channels are kept pure and healthy; but if by come cause the course of the river is stopped, then the water in the canals is us longer pure out soon becomes stagment. SICK HEADACHE.

Is a very common affection. Its attacks are very evere, and characterized by spasmodic pains, shifting from one part of the head to the other, frequently commencing in the morning, attended with sickness of the stemach, nausea, familings, and sometimes, comiting, giddiness, and confusion of sight, &c &c. This desease is produced from various causes, perhaps the most common, is a derangement of the stomach and digestive organs. FEMALES are most subject to this affection, particularly those who lead a sedentary life. Dr. Harligh's Compound Strengthening Time and Germon Aperical Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and bawels, purifying the blood, and temoving all brused and excrementuous humors from the liver and intestines. By the use, first, of a few doses of the Aperical German Fills, afterwards two or three doses of the Strengthening Tome Pille, which are used to strengthen and invigorate the nervous system, give tone to the stomach and organs of digestion, thus imparting to their subtile fluid its pristine vigor, this afflicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been attended with success in the usands of cases.

THE NEW WORLD.

THE LARGEST, CHEAPEST, HANDSOM-EST. AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PARK BENJAMIN AND EPES SARGENT

WITH multiplied resources for rendering the New Wonto more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the New World, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period. (besides a 1 the current news of the day domestic and foreign) new and valuable works by Talfourd, D'Istaell, Thomas Moore, Miss Mitford Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifly times the amount of the subscription price of the World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original uticles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In craticism we shall, in justice to the public, mantain a perfect independence, even though we meur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced. but of a continually extending circulation. While we continue to furnish with all possible promittude the most attractive hier ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to in ke the New World the medium for presenting to the public their best productions. Our excellent Louden correspondent will be continued, and due atchants of this place, in regard to the charge of inte-tention will be paid to the comercial, agricultural and news departments of our paper.

A QUARTO EDITION Of sixteen large pages was commenced on the sixth of Jone last, in order to nicet the wishes of large number of subscribers, by giving them its rich and varied contents in a suitable form for Linding. This we have done without having enhanced the price, so that new sub-cribers, and others on the n newal of previous subscriptions, can take their choice between the Quarto and Polio form. (C) But a few sets of the Quarto, from No I, now remain on hand in the office, and we shall therefore, not be able long to supply them.

GRAHAM'S MAGAZINE, Ladies' and Gentlemen's World of Literature and Fashion.

(The Casket and the Gentleman's United.)

NEW Volume, under the above title, of the well established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gen leman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellishments unsurpassed by any which have yet appeared in any Magazine, The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a sick'y sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years post. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been widely copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every where approved and commended. The list of contributors embraces the names of most of the principal witters in America, with a respectable number of English authors.

The series of well known nautical papers, entitled 'Cruizing in the last War," have had a run, unequalled by any series published in any Magazine for years .- The author promises to open the first of a new series of Tab's of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the author of the well known articles, entitled "The Log of Oad Iron-The author of "Syrian Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work,-The valuable aid of the au hor of "Leaves from a Lawyer's Po-Folio," has less been secured, and we may expect something still more thrilling from the capacion stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat will "Jemoy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prosand verse, from various writers of celebraty, as contributors to the prominent Magazines of the courtry. The editors of both Magazines continue the services under the new arrangement. With suc an array of ra'ent a Magazine of unrivalled armations, may safely be promised the coming volume
