Works of Nature. IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the chantels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the chapnels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (scrocity) in the intestinal tubes, and co-tiveness takes place, it flaws back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which step its free course, and tho e of its tributary stream. With the body, follow the same natural principal; r move, by that valuable purgative medicine Brandreth's Universal Vegetable Pills, which are an effectual assistance of nature, the superabundance of humors in the intestine canal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish Remember, never suffer a drop of blood to be taken from you - Evacuate the humors as often and as long as they are degenerated, or as long as you are sick.

IMPORTANT TO FARMERS. AVENPORT'S Improved Patent Threshing Muchine and Horse Power, which threshes and cleans at the same time-an invention for which Farmers have long looked in vain, and which renders the above machine perfect and past further improvement. Those who have been waiting for something better than beretolore offered for sale, will find this to be the article. Come see it and

fudge for yourselves.

The subscribers have purchased the right of the above Machine and Horse Power, for the counties of NORTHUMBERLAND, LYCOMING, CLINTON, and Union-and also, the privileges of vending them in any other places for which the right has not been previously sold.

The advantages which this Machine has over all others invented are many and obvious. One boy and three men can do all the threshing and cleaning of 150 bushels of wheat in one day-and REQUESTS the attention of his country friends this usually takes seven hands one day and three be taken out of wheat-I believe every particle of the next. RECOMMENDATION:

THRESHING & WINNOWING MACHINE. Having had in use, one of Davenport's Patent Threshing and Winnowing Machines, and being repeatedly called upon for our opinion in regard to their value, durability and advantages, we make, free to state, that they exceed in our opinion, any Threshing Machine we ever before witnessed in use. They will thresh and clean, fit for market 200 bushels of Wheat per day, and this with the aid of three hands besides the driver. The Straw is passed off from the grain on an incline plane, extending about 12 feet from the Machine. Scarcely a grain is lost. What is of some importance and greatly so, is the fact that no dust passes from the Machine to the man who feeds it. The Horse power seems to be perfection itself-three horses may work it with ease and their fastest gait need only be the ordinary plough gait. We must cheerfully recommend the Muchine to Farmersthey are manufactured in Milton by Messrs. Welch THILD BILGERT. l'omp and Frick.

DR. DUNCAN'S Expectorant Remedy.

S performing some of the most wonderful cures on record. Mr. WM. PEARSON, of Delaware county, Pennsylvania, was taken in the fall of 1840 with a distressing Cough, which daily increased until he became so much reduced in flesh that he was obliged to be helped in and out of bed. His Physicians at length gave up all hopes, and pronounced his lungs fatally off cted and incurable. In this hopeless situation he was for ten weeks; when a friend of his called to see him, and discovering his awful condition. He immediately procored three bottles of DR, DUNCAN'S EXPEC-TORANT REMEDY, (having witnessed the effects in a similar case, induced him to procure the medicine,) and gave it according to directions, and to the astoni-hment of all friends, the patient began to feel better before using the medicine one week. After using it strictly six weeks the patient was rendered able to resume his daily occupation. How many thou-ands of valuable friends have been taken away from us for the want of proper treatment. The very many who are yet among us, and laboring under alarming symptoms, to such I beg to say, procure immediately Dr. DUNCAN'S EXPECTORANT REMEDY, and if it be not too late, you may be restored to perfect health. In the last stages there is a consoation found in this medicine, by its soothing and palintive effects.

HEALTH.

ANY of our raders, no doubt, are possessed with this all important blessing, which they may long retain, if particular regard and care be paid to thems lves, that, whenever they feel the least indisposed, to procure a proper medicine in "due sesson." But, on the contrary, we find thousands who are laboring under disease, and many, we fear, will prove serious, if not attended to early. Would those persons resort to the medicine that has established itself in thousands of cases, which is Dr. HARLICH'S COMPOUND STRENGTRENING AND GERMAN APERTENT PILLS, so pre-eminently recommended for disca-es incident to the human race, they would be replaced back again to "life's

sweet bles-ing," which is "he alth." We speak from occular proof knowledge in many instances, where cures have been performed by the use of this med cine, with marked success in various complaints, such as Dyspepsia, Liver Complaints. Rheumatism, Pain in the Breast, Side and Back Co-tiveness, Nervous Weakness, Emaciation, General Debility, &c. &c. This medicine consists of two distinct kinds, v z: The German Ape-RIENT and the Compound STRENGTHENING TONto Prize, the former to remove bile and all excrementitious matter from the body, thus cleansing and purifying the system, after which the latter are used to give strength and viger to the weak and debilitated organs, restore the lost appetite, and produce tranquil rest and sweet repose. We highly approve of the "Doctor's theory" of treating diseases, which certainly is safe and effectual, and advise the afflicted to give his medicine a fair trial - Daily Chronicle. Coughs and Colds.

THESE very distressing complaints often lead into CONSUMPTION through neglect at the first strack. I would therefore advise those whose cough begins to be troublesome, and the expectoration scanty, with more or less soreness of the throat, difficult raising of the phlegm, &c., that they should immediately apply for a suitable medicine, which is Dr. DUNCAN'S EXPECTORANT Remedy for Consumption, &c. This medicine I have found in every instance to remove those unpleasant annoyances in a few days. One single Bottle will in most cases prove this assertion. Therefore, y u who wish to escape the EARLY SEEDS OF Consumerios, avail yourselves of this all important opportunity, and again enjoy the blessings of health. JAMES M. BIRCH, Kensington.

N. B. The above was left at the office by one who experienced the wonderful effects of the above medicine. Hundreds are there who thus express the joyful sentiments of their hearts in favor of such a valuable medicine as Dr. Duncan's Expecto-HANG REMEDY, that others may find selief from the

To those who Desire Health.

hereby certify, that I was afflicted for eight years with a severe nervous disease, attended with constant pain in the breast, side and stomach, loss of appetite, no rest at night, sickness and dizziness in the head, pain in the stomach after eating, and other symptoms which attend indigestion, my bowels were week and irregular. Having had advice of various thysicians during this long period, and used much medicine which only produced temporary relief. In the year 1830, I was often unable to leave my house, and being a poor widow, deperdent on my own labor for a living, was obliged to go from house to house to obtain it. I at length gave up all hopes of recovery, and trusted to Him "that created all things." I fortunately was favored with work in Eighth street, when the family, discovering my miserable situation, immediately recom-mended Dr. HARLICH'S COMPOUND STRENG (HENING GERMAN APERIENT PILLS, which they procured for me. I used them, and continued for about three mo the: during the time my strength rapidly increased, my countenance and other impurities to which grain is subject, that and pylid cheek returned to their former and natu-I have used, or with which I am acquainted, in re- ral colors. Since I have fully recovered, and at present enjoy perfect health. I feel it my duty to inform the public at large of the great virtues of Dr. HARLICH'S A EDICINE, that others may procure it, and be likewi e cuird.
