Correspondence of the United States Gazette. WASHINGTON, Dec. 20, 1841. The Patent Office Robbed.

ONE THOUSAND DOLLARS REWARD. Just sfier the House adjourned, the news reached the Capitol that a great robbery had been effected at noonday, in the room over the Patent Office, where the various valuable presents, made to the Government and its officers, relics of the Revolution, certain old Treaties with Foreign Powers, General Washington's Uniform, and many valuable specimens of American manufactures, &c. are deposite.J.

Between 12 and 1 o'clock yesterday, the thief succeeded, by the false keys, in unlocking the door of the small room at the end of the large saloon, which the attendant left but a few minutes before, where the most costly articles were deposited, broke open the glass case, and therefrom the splendid GOLD AND DIAMOND SNUFF BOX, said to be worth from three to five thousand dollars, which had been presented by the Emperor A'exander, of Russia, to Mr. Harris, while he was ambassador to that Court, and which was deposited in the archives of the State Department by John Q Adams, whilst he was President.

They also took the PRARL'NECKLECE, which was presented to our Government some two or three years since by the Emperor of Muscat, valued at several thousand dollars, though not considered worth as much as the snuff box. They completed their spoils by taking the GOLD SCABBARD of the sword which had been presented to commodore Biddle by the Viceroy of Peru, some ten or fifteen years since, during the troubles in South America.

The value of the three articles stolen is estimated at about from ten to twelve thousand il illura for the recovery of which a reward of \$1000 is offored by Mr. Ellsworth, the Commissioner of Patents.

I learned hat evening, that two young English men, who arrived here vesterday, are suspected The police of Baltimore had their eves 'toon them there, in consequence of private information receiwed; and so strong were the suspicions against them there, that an officer from Baltimore came here in the cars with them, to look after their movements. If that report is correct, they will probably be caught, as no line left here before 'the robbery was made public. Yours &c.

Counterfeiters' Death Blow.

The public will please bheerve that no Brandreth Pills are genuine, unless the box has three libels upon it, (the top, the side and the bottom) each containing a fac-simile signature of my hand writing, thus-B. BRANDHETH, M. D.-These In bels are engraved on steel, beautifully designed. and done at an expense of over \$2,000 .-- Therefore it will be seen that the only thing necessary to procure the medicine in its purity, is to observe these labels.

To the Public. DR. HARLICH'S PILLS

The superiority of Dr. HARLICH'S PILLS o ver any other medicine that has ever been offered to the public, is, that they cleanse and purify and strengthen. These are importent items, and their importance should not be overlooked. The system is liable, from improvidence and nightet, to accumulate hile, and a variety of diseased humors. To purge the system of these impurities, should be early attended to. If it he neglected, the patient may be subjected to painful disea-e and protracted sufficing. THE GERMAN APERIENT PILLS are admirably suited to this purposebut more than this-while they CLEANSE the syrtem they runner the neon, and assist natu e kindly in her operations. The Controlsh STRENGTRENING PILLS gives tone to the stomach, while they impart vigor to the whole system ; hence they are a desideratum, and no family should remain without them. In fact they are a sort of "Family Physician," but unlike the "school men" -for these Fills may be safely consulted in ALL cases-they may be taken without injury in anywhile they afford positive relief in many. We only ask for a fair trial of their merits, and are willing to abide the issue. F. WOOLMAN, Burlington, N.J.

Total Boston to Lake Eric, 522 15,625,147 In the above cost of railroads in the State of New York, west of the Hudson river, the depots, engines, cars, etc., are included; it is probable that s further sum should be added for those items on part of the eastern lines, and the aggregate cost of the whole line from Boston to Buffalo may be put down at 16,000,000 of dollars. The distance from New York city to Buffalo by the same route is 472 miles, of which over 100 miles of railrords are yet to be made. From New York to Dunkirk on Lake Ecie, by the New York and Erie Railroad including 22 miles of river navigation to Piermont, the distance will be about 468 miles, and the cost of the New York and Eric Railroad is estimated at miles, and difference of cost of railroads 7,000,000 of dollars, also in favor of New York when both chains shall have been completed.

THE HARRISBURG CHRONICLE will be published, at the opening of its next volume, in February, upon the cash principle, and its subpeription price will be reduced to \$2 00 per annum, in advance, for which sum subscribers will receive the paper semiweekly during the session, and weekly the remainder of the year.
