IMPORTANT TO FARMERS. AVENPORT'S Improved Patent Threshing Machine and Horse Power, which threshes cleans at the same time-an invention for which Farmers have long tooked in vain, and which renders the above machine perfect and past further improvement. Those who have been waiting for omething better than beretofore offered for sale, will find this to be the article. Come see it and

The subscribers have purchased the right of the above Machine and Horse Power, for the counties of NORTHEMBERLAND, LACOMING, CLINTON, and Union-and also, the privileges of vending them in any other places for which the right has not been previously sold.

The advantages which this Machine has over all others invented are many and obvious. One boy and three men can do all the threshing and cleaning of 150 bushels of wheat in one day-and this usually takes seven hands one day and three the next. For field threshing it takes the lead of any thing in this world-no grain is scattered or

Such is the superiority of the Horse Power, that three horses can thresh as much with it as four can with any other.

The Machines and Horse Power will be sold ogether or seperate, to suit purchasers. Made and sold in Milton, by the subscribers.

WM. H. POMP. HENRY FRICK.

Milton, April 17, 1841.

RECOMMENDATION.

Having had in use, one of Davenport's Patent Threshing and Winnowing Machines, and being repeatedly called upon for our opinion in regard to their value, decability and advantages, we make, free to state, that they exceed in our opinion, any Threshing Machine we ever before witnessed in use. They will thresh and clean, fit for market 200 bushels of Wheat per day, and this with the aid of three hands besides the driver. The Straw is passed off from the grain on an incline plane, extending about 12 feet from the Machine. Scarcely a grain is lost. What is of some importance and greatly so, is the fact that no dust passes from the Machine to the man who teeds it. The Horse power seems to be perfection itself-three horses may work it with ease and their fastest guit need only be the ordinary plough gait. We must cheerfully recommend the Machine to Farmersthey are manufactured in Milton by Messrs, Welch Pomp and Frick. IMPORTANT

THE Undersigned take pleasure in submitting to the public the following Recommendations of Pratt's Cast Iron Smut Mill and Grain Huller to all dealers in Grain and manufactors of Flour, believing it to be superior to any thing of the kind ever offered to the public. All orders addressed to Phthisics Pulmonalis, or Pulmonary Consumption, trated virtues of Horchound, Bonset, Blood Root, Col. J. M'Fadden, Lewisburg, Union county Pennsylvania. EBENEEZER SQUIRE, JACKSON M.FADDIN.

CERTIFICATES: atz's Mill, Centre Co., March 30, 1841. J. M.FARRIS-SIR: I cheerfully testify to the oodness and darability of Pratt's Cast Iron Smut Mill and Grain Huller, as being a far superior article for the cleaning of smut and all other impurities that I have ever seen, and I have been engaged in the manufacture of Flour for a great many years, and have always tried to have the best apparates for manufacturing that could be got, and do say that the above machine is the best apparatus I believe now JOHN MOATZ. Bloomsburg, Dec. 26, 1840.

Cot. J. M.Fannin-Sin: In reply to your favor. received a few days since, I have only to say, that the fact of my having introduced into each of the four mills that I am concerned in, one of Pratt's Cast Iron Smut Mills, is the best evidence I can give you of their utility, Yours truly, Wm. M.Kenvi.
Millon, March 17, 1841.

J. M.Fannin-Sin: I do hereby certify without any heatation, that Pratt's Smut Mill and Grain Huller is the most perfect machine to cleanse grain of smut and all other imperfections, that I have ever seen, and I believe I have seen all the kinds that are now used in Pennsylvania, and I must say that there is nothing of the kind ever been invented that will come in competition with it. Gra. Eckner.

Con. J. M.Fannin-Sin: During the past 24 years I have been constantly engaged in manufacturing flour, and during the last 12 years have been the owner of a greet and flouring mill, and among all the contrivances to remove impurities from grain I am decidedly of the opinion that Pratt's iron machine is superior to any with which I am acquainted, having used one in my mill about eighteen FREDERICK HAAS.

Yorkshire Mills, Dec., 1840, I want in my flouring mill as good an apparatus to prepare grain for flouring, as the best, and I want no better then Pratt's Cast Iron Smut Mill. It will remove smut entirely-no mistake.

M. Carrens Sunlary, December 22, 1840. Cot. J. M. Pantas - Sin: Thave in my mill one of Pratt's cast and wrought iron spiral Smut Mills and Grain Huller, and am confident that in regard to simplicity of construction, and durability of mate-

rial, it is superior to any I am acquainted with, HENRY MASSER. Bear Gap Mills, Dec. 22, 1840. Cot. J. M. Fannix Sin: I have in my flouring mill one of Pratt's Cast Iron Spiral Smut Mills, and I am decidedly of the opinion that it is the best muchine to prepare grain for flouring that I am acquainted with, and as such cheerfully recommend it to all who are engaged in the manufacture of flour.

JACOB LEISENBING. Aaronsburg, March 23, 1841. Cor. J. M.Fanors-Sin: I take pleasure in saying that Pratt's Cast Iron Smut Mill is one of the best imprevements for the cleaning of grain of all kinds, that has yet come under my observation, and that I believe it for superior to any thing of the kind ever invented. Cot., J. M.FARRIN-SIR: Pratt's Cast Iron Smut Mill was introduced into my mill about three years since, and I believe it is the best article of that kind now in use. It will not only remove smut enterely, but is a most valuable apparatus to clean wheat and rye of any character, and prepare it for BENJAMIN BOONE. Lewisburg, Dec. 22, 1840.

Cor. J. M'FADDIN-SIR: After a careful and candid examination and trial of the machine, in regard to construction, neatness and despatch in execution, economy in price, and power to set in operation, I am fully convinced and satisfied, that the machine above alluded to, is second to no one in J. Dr. Duncan's Expectorant Re-

Consumption can be Cured!

RS. MARY BOWERS, wite of Henry Bowers, was for a length of time afflicted with a "Pulmonary Complaint," which defied the united skill of several emment physicians. She hearing of the "Expectorant Remedy," was induced to give it a trial. Her symptoms were those of viz: a dry hacking cough, pain in the breast and side, impaired appetite and great thirst, hectic fever and night sweats, with much debility and weaknesss. She is happy in saying that after using three bottles of the Expectorant Remedy, she began to have hopes of a speedy recovery; her strength gradually increased until she had used three bottles more, when she felt entirely reslored, it now being eight months since, and no symptoms

of the complaint appearing.

Dyspepsia. WE have frequently witnessed the ravages of this disease, and have heard and read of many remedies, but far oftener saw them fail than result in success. The writer, however, of the letter to the agent of Dr. Harlich's Compound Strengthening and German Aperient Pills, has long been known to us, and from an invalid, as he is delineated, we now know and meet him daily as a hale hearty man. Though no advocate of nostrums of any kind, we cannot withhold a notice of what we consider the efficacies and virtues of Harlich's Compound Strengtheeing and German Aperient Pills. he case before us is a living monument to both .-

Spirit of the Times. For ourselves we cannot withhold a notice rejecting the virtues of Dr. Harlich's celebrated mesdiemes; We believe them to belong to a very supetior class. They are said to be a very safe and effectual remody, for many of the distressing diseases of the present day. A fair trial will convince the sceptical of their victue,-Sar, Chron.

Colds, Coughs, and Consumption. THESE universal complaints we find in almost every family, attended with more or less severuy, at the same time regarded by some with very little attention, until they begin to assume a serious character. Why are patients so neglectful of themselves, when they know that their health is all in all ! Are they not aware that it requires a much longer time to arrest a disease when suffered to knit its threads upon the vitels? Will those who desire health take good advice, and always be provided with a few bottles of "Dr. Duncan's Expectorant Remedy," whereby they can immediately arrest the fatal progress of Consump ion, and not be compelled to spend years in misery and pain, besides making an "Apothecury Shop" of their stomachs? This Medicine is certain in its effects, if used in due season, and always produces relief in the most hopeless cases, by its soothing and pulliative effects. This is a consolation which many appreciate.
