**A Case Stated.**  
 A powerful stream had run over the falls, in a certain neighborhood, since the creation. The people on the bank had long admired the stream and felt, but they could not control or use it, having neither money nor skill. The people got their living by raising hops, with a little corn, beans and potatoes; and poultry were their principal stock, as the land, being mostly a pine barren, yielded little grass. That which was cultivated was worth only \$5 an acre, and much of it was common, worth nothing.  
 A B, and C came among them, bought a hundred acres of land, including the falls, giving \$10 an acre. They laid out \$30,000 in building a strong dam and factory. They paid \$29,000 to the people for labor, for quarrying stones, making bricks, and putting up the factory and dam, and \$1,000 went for nails, glass, &c. They paid \$1 a day for labor, and double for lumber to what it ever brought before. The clay and stones were before worth nothing. They paid for labor, as we before said, \$1, when before labor on the spot yielded only 25 cents worth of hops, potatoes, &c. and when they went out to work among farmers on letter soil they got \$13 a month.  
 After the factory was finished they hired all the young men at \$1 a day, and the young women at 50 cents. Land rose in the vicinity, so that many got \$1,000 for that which was not before worth 100. The farmers found got one-third more for their hay corn and potatoes. Vegetables, which were worth nothing before, except to eat, now brought a ready market.—The articles manufactured were sold to the people lower than ever before, as they were free of duties and transportation.  
 At the end of ten years they reckoned all up: A, B and C had doubled their money. The land for four square miles was doubled in value—in the village, eighteen times its former value. Thirty thousand dollars' worth of houses had been built from the savings of the laborers, and business continued.  
 Now we commend A, B and C, and consider their benefactors. Our opponents call them *aristocrats*, who have feathered their own nests out of the *hard earnings* of the laborers, and think they should be taxed and vexed till they stop business and set the workmen free.—*Hav. Gaz.*

**Baltimore Market.**  
 Office of the BALTIMORE AMERICAN, Sep. 19.  
**FLOUR.**—There is more inquiry for Howard Street Flour to-day, and the receipts being lighter than for some time past, holders very generally refused to sell for less than \$4 25, but we hear of no transactions at that price. The receipt price is uniform to-day at \$4.  
 A sale of City Mills Flour was made this morning at \$4 12 1/2, but holders very generally ask more.  
 Sales of Susquehanna Flour were made on Saturday \$4 12 1/2. None now in market, and wanted.  
**GRAIN.**—We have to note an improvement in the price of wheats. The supplies to-day and Saturday have been short, and being not equal to the demand, prices have advanced, say about five cents per bushel on red wheats of the inferior grades, and two or three cents on those of the best qualities. We now quote the range of the market for Md. reds at 45 a 83 cents. A parcel of Penna. red wheat, the only one in market since our last report, was sold on Saturday at 83 cents.  
 Sales of Md. white Corn to-day at 51 a 52 cents, and of Md. yellow at 52 cents. A sale of Penna. yellow on Saturday at 52 cents.  
 We quote Md. Rye at 43 a 45 cents; and Oats at 20 a 22 cents.  
**WHISKEY.**—We quote hbls. at 204 a 21 cents, and bbls. at 21 a 22 cents. The wagon price of bbls. is 19 cts. exclusive of the barrel.

**The Fluids and Solids of the Human Body.**  
 —When we consider that the fluids or humors have a superiority over the solids in the ratio of four to one—for it has been ascertained by actual experiment, that in a human body weighing 125 lbs., the bones and muscles, after the moisture has been extracted, weighed only twenty-five pounds, thus proving the solids are only one-fifth of the whole mass. Is it wonderful, then, if the Blood and other fluids are corrupt, that the whole body should be diseased?  
 Branth's Vegetable Universal Pills purify those fluids. They purge from the body the corrupt and stagnant humors, and health must of necessity follow. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which eighty-four years have proved never to do injury but always good.  
 Purchase in Sunbury, of H. B. Masser, and his agents published in another part of this paper.

**Rheumatism**  
 Entirely cured by the use of **Dr. O. P. Hart's Compound Strengthening and German Aperient Pills.**  
**MR. SOLOMON WILSON,** of Chester county, Pa., afflicted for two years with the above distressing disease, of which he had to use his crutches for eighteen months—his symptoms were excruciating pains in all his joints, especially in his hips, shoulders and ankles, pain increasing towards evening, attended with heat. Mr. Wilson was at one time not able to move his limbs on account of the pain being so great; he being divised by a friend of his to procure Dr. Hart's Pills, for which he sent to the agent in West Chester and procured some; on using the medicine the third day, the pain disappeared, and his strength increased fast, and in three weeks was able to attend to his business, which he had not done for eighteen months. For the benefit of others afflicted, we believe these lines published, that they may be relieved, and again enjoy the pleasures of health life. **A Case Stated.**  
 A powerful stream had run over the falls, in a certain neighborhood, since the creation. The people on the bank had long admired the stream and felt, but they could not control or use it, having neither money nor skill. The people got their living by raising hops, with a little corn, beans and potatoes; and poultry were their principal stock, as the land, being mostly a pine barren, yielded little grass. That which was cultivated was worth only \$5 an acre, and much of it was common, worth nothing.  
 A B, and C came among them, bought a hundred acres of land, including the falls, giving \$10 an acre. They laid out \$30,000 in building a strong dam and factory. They paid \$29,000 to the people for labor, for quarrying stones, making bricks, and putting up the factory and dam, and \$1,000 went for nails, glass, &c. They paid \$1 a day for labor, and double for lumber to what it ever brought before. The clay and stones were before worth nothing. They paid for labor, as we before said, \$1, when before labor on the spot yielded only 25 cents worth of hops, potatoes, &c. and when they went out to work among farmers on letter soil they got \$13 a month.  
 After the factory was finished they hired all the young men at \$1 a day, and the young women at 50 cents. Land rose in the vicinity, so that many got \$1,000 for that which was not before worth 100. The farmers found got one-third more for their hay corn and potatoes. Vegetables, which were worth nothing before, except to eat, now brought a ready market.—The articles manufactured were sold to the people lower than ever before, as they were free of duties and transportation.  
 At the end of ten years they reckoned all up: A, B and C had doubled their money. The land for four square miles was doubled in value—in the village, eighteen times its former value. Thirty thousand dollars' worth of houses had been built from the savings of the laborers, and business continued.  
 Now we commend A, B and C, and consider their benefactors. Our opponents call them *aristocrats*, who have feathered their own nests out of the *hard earnings* of the laborers, and think they should be taxed and vexed till they stop business and set the workmen free.—*Hav. Gaz.*

**Baltimore Market.**  
 Office of the BALTIMORE AMERICAN, Sep. 19.  
**FLOUR.**—There is more inquiry for Howard Street Flour to-day, and the receipts being lighter than for some time past, holders very generally refused to sell for less than \$4 25, but we hear of no transactions at that price. The receipt price is uniform to-day at \$4.  
 A sale of City Mills Flour was made this morning at \$4 12 1/2, but holders very generally ask more.  
 Sales of Susquehanna Flour were made on Saturday \$4 12 1/2. None now in market, and wanted.  
**GRAIN.**—We have to note an improvement in the price of wheats. The supplies to-day and Saturday have been short, and being not equal to the demand, prices have advanced, say about five cents per bushel on red wheats of the inferior grades, and two or three cents on those of the best qualities. We now quote the range of the market for Md. reds at 45 a 83 cents. A parcel of Penna. red wheat, the only one in market since our last report, was sold on Saturday at 83 cents.  
 Sales of Md. white Corn to-day at 51 a 52 cents, and of Md. yellow at 52 cents. A sale of Penna. yellow on Saturday at 52 cents.  
 We quote Md. Rye at 43 a 45 cents; and Oats at 20 a 22 cents.  
**WHISKEY.**—We quote hbls. at 204 a 21 cents, and bbls. at 21 a 22 cents. The wagon price of bbls. is 19 cts. exclusive of the barrel.

**The Fluids and Solids of the Human Body.**  
 —When we consider that the fluids or humors have a superiority over the solids in the ratio of four to one—for it has been ascertained by actual experiment, that in a human body weighing 125 lbs., the bones and muscles, after the moisture has been extracted, weighed only twenty-five pounds, thus proving the solids are only one-fifth of the whole mass. Is it wonderful, then, if the Blood and other fluids are corrupt, that the whole body should be diseased?  
 Branth's Vegetable Universal Pills purify those fluids. They purge from the body the corrupt and stagnant humors, and health must of necessity follow. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which eighty-four years have proved never to do injury but always good.
