The best method for the Abolition of Disease ROSE OINTWENT. FOR TETTER.

RINGWORMS, PIMPLES ON THE PACE, AND OTHER CUTANEOUS ERUPTIONS.

The following certificate describes one of the most extraordinary cures ever effected by any application.

PHILADELPHIA, February 10, 1838. FOR twenty years I was severely afflicted with TETTER on the Face and Head: the discuse menced when I was seventeen years old, and continued until the Fall of 1836, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the emption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so g eat, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many at plications, (among them several celebrated preparations) as will as taking inward remedies, including a number of bottles of Swaim's Panacea, Extract of Sarsaparilla, &c. In fact it would be impossible to enumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In n f w applications the violent itching coased, the welling abated, the ernotion began to disappear, and before I had used a jar the disease was entirely cured. It has now been nearly a year and a half since, and there is not a vestige of the disease reaining, except the sears from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering but I will be pleased to give a fuller account to any person was ting further satisfaction, who will call on me. At the time I commenced using the R se Ointment I would have given hun leds of do lars to be rid of the disease. Since using it. I have recommended it to several persons (among them my mother, who had the disease badly on her arm,) who were a loured by it.

PHILADELPHIA, May 27th, 1839. to certify that I was severely affliced with Tetter in the hands and feet for upwards of forty years; the disease was attended generally with violent itching and swelling. I applied to a number of physicians, and used a great many applicarious without effecting a cure. About a year since, I applied the Rose Ointment, which entirely stopped the itching, and a few applications immediately cured the disease, which there has been no ing the dreadful consequences of a CIVIL WAR, return of, sithough I had never been rid of it at uny time for forty years.
