

THE BATTLE-AXE FANATICS.—The founder of the Battle-Axe doctrine is said to be a man named Gates, who resided sometime since in Philadelphia. His wife is also a believer in this infamous and licentious fanaticism, and among the deluded followers, are twenty or thirty families residing in Chester County. The most frightful crimes have been committed by some of these madmen. But it is hoped that the conviction and imprisonment of three or four, will rouse the others from the delusion. The details as given on the trials, are altogether unfit for publication. One of the women who has been convicted, named Williamson, is believed to be the same female who a year or two ago, attempted to preach in the streets of Philadelphia, and was committed once or twice for vagrancy. Gates has not yet been arrested, but it is hoped that he will be, and also that he will be adequately punished.—*Phil. Museum.*

A hold robbery was committed at the Cleveland (Ohio) Post Office on the morning of the 3d instant, followed by a quick recovery of the stolen property. A thief effected an entrance into the Post office, broke the glass of the letter box of Mr. J. S. LAKE, Exchange broker, and rifled it of its contents, consisting of a package of \$1230 in Bank notes, a draft of \$500 received by the Pittsburgh mail the evening previous, and a draft of \$700 by the Columbus mail, and one or two letters. The same day one of the lads engaged in the office, whilst in search of an axe he supposed had been left in an old stove standing in the hall of the third story of the building, thrust his hand into this queer money vault and brought to light the stolen packages with seals unbroken. The presumption is, that the robber, fearing immediate pursuit, hid in his haste made the stove a temporary safe for his plunder. Thus by the merest chance the stolen property was recovered without loss, and within an hour, probably, after the robbery was effected.—*Baltimore American.*

The Paris correspondent of the National Intelligence, in speaking of a work which has recently appeared in Europe, and which treats of the condition and employment of women and children in various countries, says—
In France the employment of women in mines is forbidden by law, and children under ten years of age cannot be listed for them legally; but this interdiction is commonly infringed or evaded. I have seen women toiling in slate quarries, and they are every where engaged in the tillage and the worst drudgery of the fields and the farm-yards, beyond the severest and grossest fatigues of the female negro slaves in our Union. It is enough, to witness the cleansing any morning of the streets of this capital, to know the last extremity of degradation and hideousness to which the sex can be reduced.

TRIUMPHANT SUCCESS,

A New Discovery in the Newspaper Business.
A MOST important and invaluable discovery has been made by a gentleman in this city, by which newspapers may be printed in their present form, and, at the same time, capable of being converted at pleasure into a Magazine form, for preservation.

This grand improvement, which is destined to form a new era in the business, effecting an entire revolution in the art of printing mammoth newspapers, will be introduced, by permission of the patentee, into the Philadelphia Saturday Museum, commencing in May next.

IMPROVEMENTS IN "THE MUSEUM."
"The Museum" is now so fairly and firmly established, that we feel warranted in making some very extensive and important improvements. By the first of May, we shall have completed all our arrangements. We shall have, in the first place, a beautiful, clear and bold type—in the second, a superb smooth and white paper—in the third place, we shall make an ingenious and novel change in the arrangement of the matter—in the fourth place, we shall increase our corps of contributors in all the various departments of a Family Newspaper—in the fifth place, we have secured, at a high salary, the services of EDGAR A. POSE, Esq., a gentleman whose high and versatile abilities have always spoken promptly for themselves, and who, after the first of May, will aid us in the editorial conduct of the journal.

The "Narrative of Townsend's Journey over the Rocky Mountains," one of the most interesting and readable ever published, is sent to all new subscribers. At its conclusion, our readers will find themselves in possession of a work which alone will be worth double the subscription to the paper. We shall continue, also, of course, the "Biographical Sketches and Portrait," which are now exciting so unexpected an interest. With these and other features continued, and with the improvements in contemplation, it remains to be seen whether we do not amply fulfil our determination of making the very best newspaper in America.

Persons wishing to secure six thousand large octavo pages of useful, interesting, and unexceptionable reading for the select family circle, for the small sum of Two Dollars per year—being at the astonishingly low rate of thirty pages for one cent, or equivalent to one hundred and twenty pages for four cents—should hand their names in now.

TERMS.—Two Dollars per annum. Three copies for Five Dollars, or Sixteen copies for Twenty Dollars, is the extra inducement offered at present for clubbing. THOMAS C. CLARK & Co., Office of the Saturday Museum, Publishers' Hall, No. 101 Chestnut Street, Philadelphia.

A GOLD MINE.—The Fayetteville North Carolina of the 4th inst. says:—"A gold mine has been discovered and opened in our neighboring county of Moore, near Mechanic Hill, about 40 miles from Fayetteville, which promises great wealth, the extent of which has not yet been ascertained. There are between 50 and 100 hands now at work, who procure from 1 to 8 dollars worth of gold per day. It has created great excitement in Moore and the adjoining counties."
