

Restoration of a Rifle to a Cherokee Warrior.

On the 27th March, 1814, General Jackson fought the celebrated battle at the Horse Shoe, with the Creek Indians. The General posted the Cherokee Regiment, together with the mounted Tennessee Volunteers, under Gen. Coffee, on the opposite side of the river, so as to surround the bend and prevent the enemy escaping in their canoes. In order to enable the Cherokee to engage in the conflict, "Whale," a Cherokee warrior of great bravery and resolution, with two companions, swam the river and carried two of the Creek canoes across the river to their company. This enabled the Cherokee to obtain their canoes, with which they succeeded in carrying over a force strong enough to attack the enemy in the rear and dislodge them from their breast works. "Whale" received a gunshot wound in the shoulder, in the taking of the first canoe. In 1816, President Madison had three rifles made at Harper's Ferry, to be presented to the three warriors who first swam the river, together with medals for each. The rifle intended for "Whale," however, he never got—another person having obtained it. On the fact being communicated to the War Department by Governor Butler, the agent of the Cherokee, the Secretary of War has had another rifle prepared, to be presented to the Old Warrior. There is on it, a plate likeness of General Jackson, and a silver plate is inserted in the stock with this inscription: "Presented by the President of the United States to WHALE, a Cherokee Warrior, for his signal valor and heroism at the Battle of the Horse Shoe, in March, 1814." The rifle, accompanied by the medal, will be presented to him by Governor Butler, (now here) on his return to the Cherokee Agency. The mounting and engraving on this rifle has been executed in a beautiful and workmanlike manner, by Mr. Robert Keyworth, Pennsylvania avenue—Washington Cor. Balt. Sun.

COLUMBIAN WHEAT.—This wheat was brought into this country about six years ago, and into this section of Maryland by Mr. H. R. Smeltzer, about three years ago, who has given it a fair trial. It thrives and grows something like rye. It ripens about eight days earlier than the common wheat, and hence escapes the ravage of the fly, and the rust and smut. The sample that we have seen weighed 65 lbs. to the bushels. It yields, as is thought, about 8 bushels to the 100 sheaves, and not far short of 40 bushels to the acre.—Balt. paper.

Two curious philosophical facts are stated on the authority of the Foreman of the Ropewalk in the Navy-Yard at Charleston. One is, if you heat tar, such as they use for their cables, 100 degrees above boiling heat, you may dip your hand in it with the greatest impunity, and they are in the constant habit of doing so; the other is, the leathern straps coming from the engine, and working the machinery, are highly charged with electricity. By standing upon a non-conducting body, and holding the fingers over the straps pretty close, you become charged with the electric fluid, and can give out sparks as from the electrifying machine.

Office of the Baltimore American, August 28. FLOUR.—There is no Susquehanna Flour in market; fresh ground parcels would readily bring \$4.75. Sales of Penna. Rye Flour lot at \$3 1/2 a \$3 25. GRAIN.—A full supply of wheat was poured in upon the market yesterday, the aggregate receipts of all descriptions being little, if any, short of 30,000 bushels, all new crop. Notwithstanding this heavy supply, the market remained steady, and previous prices were fully sustained. The sales of good to prime parcels of rye, both Maryland and Virginia, were made at 100 to 103 cents, and one cargo of superior Virginia red was sold at 105 cents. A portion of the receipts were damp, and, more or less, in bad condition, and these sold in quality and condition at 85 to 95 cents. A sale of prime Md. white at 110 cents. A parcel of very good Pennsylvania red was sold at 105 cents, and another, having considerable smut in it, at 100 cents. A third parcel, very smutty, was sold at 95 cents. The bulk of receipts was taken by purchasers before noon. WHISKEY.—Sales of hhds. at 23 1/2 cents. Barrels are dull at 25 cents.

THE THREE KINGDOMS.—The world we inhabit is divided into three grand departments, named the Mineral, the Vegetable and the Animal Kingdoms. The first named forms the base of the other two; thus the vegetable kingdom derives life and nutriment from the mineral, and the animal kingdom is supported by the vegetable. No mineral substance can become a part of an animal body, because it cannot be digested. Quick silver is a mineral, Calomel is sublimated quicksilver; therefore, calomel cannot be digested, but when lodged in the body acts as a corroding poison. In fact, therefore, of calomel use Brandreth's Vegetable Universal Pills, because they are a medicine extracted entirely from vegetables, and known by long experience to be perfectly innocent, and yet of more power as a purgative, or cleanser of the alimentary canal, than any other medicine. Their effect on the system is so easy that it is a remarkable fact that the same dose may be given to an infant or adult, without the possibility of doing any injury—but on the contrary, good. Purchase of H. B. Masser, Sunbury, or of a agent published in another part of this paper.
