

TEXAS QUESTION—REJECTION OF THE TREATY—MR. BENTON'S BILL.

WASHINGTON, June 10, 1844. The Senate in Executive session, on Saturday evening, rejected the treaty for the annexation of Texas. The vote upon the question of confirming it, was as follows—Democrats in italics.

YEAS—Messrs. Atchison, Bagby, Breese, Buchanan, Calhoun, Fulton, Haywood, Henderson, Huger, Lewis, McDuffie, Sempie, Sevier, Sturgeon, Walker, Woodbury—16.

NOES—Messrs. Allen, Archer, Atherton, Barrow, Bates, Bayard, Benton, Berrien, Choate, Clayton, Crittenden, Dayton, Evans, Fairfield, Foster, Francis, Huntington, Jarnagin, Johnson, Mangum, Merrick, Miller, Morehead, Niles, Phelps, Porter, Rivas, Simmons, Sprague, Tallmadge, Tappan, Upham, White, Wright, Woodbridge—35.

Immediately after the rejection of the treaty, Mr. Benton, in open Senate, introduced a bill for the annexation of Texas. The Bill is in the following terms:—

"Be it enacted that the President of the United States be and he hereby is authorized and advised to open negotiations with Mexico and Texas for the adjustment of boundaries and the annexation of the latter to the United States on the following basis, to wit:—

I. The Boundary of the annexed territory to be in the desert prairie of the Nueces, and along the highlands and mountain heights which divide the waters of the Mississippi from the waters of the Rio del Norte and to latitude 42 degrees North.

II. The People of Texas by a legislative act or by any authentic act which shows the will of the majority, to express their assent to said annexation.

III. A State to be called "the State of Texas," with boundaries fixed by herself, and an extent not exceeding that of the largest State in the Union, to be admitted into the Union by virtue of this act on an equal footing with the original States.

IV. The remainder of the annexed territory to be held and disposed of by the United States as one of the territories, and to be called "the South Western Territory."

V. The existence of slavery to be forever prohibited in the northern and north western part of said territory, so as to divide as equally as may be, the whole of the annexed country between Slaveholding and non Slaveholding States.

VI. The assent of Mexico to be obtained by treaty to such annexation and boundary, and to be dispensed with when the Congress of the U. States may deem such assent to be unnecessary.

VII. Other details of the annexation to be adjusted by treaty, so far as the same may come within the scope of the treaty-making power."

The reading of the Bill as well as the speech of Mr. Benton created much feeling in the Senate. All listened to it, and some portions of the speech of Mr. B., particularly that alluding to the new born zeal of the new friends of Texas, or neophyte friends as Mr. Benton called them, seemed to disturb the equanimity of Mr. McDuffie. Mr. B. proved that he had been a longer and a better friend of Texas than all of them together.

I send you below a copy of Mr. McDuffie's Joint Resolution introduced into Executive session, May 23d, and ordered to be printed May 24. The injunction of secrecy was removed from it on Saturday night.

Resolved, "That the compact of annexation made between the Executive Government of the United States and that of Texas, and submitted to the Senate for confirmation by the President of the United States be, and the same is hereby ratified as the fundamental law of union between the United States and Texas as soon as the supreme executive and legislative power of Texas shall ratify and confirm the said compact of annexation.

This Resolution is now before the Senate, in public session, and upon the question shall it be read a second time.

THE GREAT FOOT RACE.—A Foot Race for a purse of \$800, came off at the Beacon Course near N. York, on Monday afternoon. The distance run was ten and a quarter miles, and the terms of the Race were we understand, that the man who should accomplish the distance within one hour should take the purse; if not done within the hour, the first out should receive \$500, the next best \$200, and the third \$100. Seven men entered for the purse, among whom was an Indian. Major H. Stannard, of Connecticut, got the lead during the first mile, and kept it, coming out ahead, and making the distance in one hour, four minutes and thirty-five seconds. Mr. Gildersleeve ran second, and was the only man within hail of Stannard after the first two miles. John Smith ran third, the Indian fourth, as long as he did run, and Mr. O. berteuffer of this city, fifth, until the Indian gave out, when he took his position. Stannard was the only man who ran the entire distance. Gildersleeve accomplished about 9.5.8 miles, when he fainted and was carried off the ground. The time in which Stannard did each mile was as follows—1st mile and a quarter 6 m. 56 sec., 2d mile 5.50, 3d 6.07, 4th 6.04, 5th 6.13, 6th 6.22, 7th 6.25, 8th 6.26, 9th 6.33, 10th 7.39. Good running, though he failed to accomplish the 10 1/4 miles within the hour.

Electricity at Breakfast.—Startling as it may seem, it is beyond contradiction certain, that the largest charge of the largest Leyden battery does not equal in quantity the electricity which passes between the tongue and a silver spoon, during the simple act of eating an egg. Indeed, if the quantity developed in the latter case were free to assume the form of the electricity obtained from friction, the result would be a lightning flash of no small power. The chemical action of a grain of water upon four grains of zinc, can evolve electricity equal in quantity to that of a powerful thunder storm.

Dr. Lardner.

A Word to the Democrats.

If there is a single Democrat in the State who feels inclined to remain neutral in the contest now approaching—who feels inclined not to vote for the Democratic nominees for Governor or President—let him pause before he goes any further. Neutrality now is, to give it no harsh term, a most dangerous state. Recollect, by this you aid in the election of HENRY CLAY!—Neutrality on the Governor question must contribute to produce this result in the Presidential contest. And what a result that will be, friends! You actually aid to elect the vilest enemy of your principles now living—the enemy of Jackson—the enemy of all those measures which you esteem and which you have supported. You actually aid in the election of a man who in the public streets of the Southern cities, has proclaimed his determination to favor the charter of another bank, with a capital of many millions! If you are a democrat—if you are a man—if you remember the ruin and distress, the bankruptcy and the dismay, which followed the explosion of the last monster bank, (and which must follow the establishment of another,) can you countenance, even by your passive neutrality, the election of a man who would produce by his own act, just such another state of things! Oh, no! we will not believe it!

Forget the hate of ancient frays. Forget the harsh words wildly said, And round the path of other days Contentment's glory will be shed. Remember only those who gave The rein to ruin and dismay— Who buried, in Misfortune's grave, The hopes of many a cheerful day; And now, with general might and main, Seek your high places to regain.

Lancaster Intelligencer.

A JUDGE ARRESTED IN COURT FOR FORGERY.—A letter dated Herkimer, June 5, in the New York True Sun, says: "You will be surprised to learn that Judge Smith, first Judge of Herkimer county, was yesterday arrested at Herkimer on a charge of forgery.—The Judge had organized the Court and charged the Grand Jury, who on retiring found the first business to which their attention was directed comprised the character of the functionary who had just harangued them!—He was accused by competent witnesses of having forged three names—one of them that of the County Clerk—to a mortgage for about \$700, in 1838. A true bill was found against him, he was called from the bench, arrested and held to bail. The mortgage, it is stated, was given to raise money for Judge Smith's use, and the cash obtained from a widow lady residing in the town of Fairfield. It is also stated that the interest has been regularly paid. The Judge was unable to procure bail, and has been committed to prison."

BALTIMORE MARKET. Office of the BALTIMORE AMERICANS, June 10.

GRAIN.—A sale of very prime Penna. red wheat was made on Saturday at 85 cents. To day there is no Penna. wheat in market. A sale of good Md. red to day at 93 cents.

Sales of Md. white Corn to day at 41 a 43 cents for good to prime, and of Md. yellow at 45 a 46 cents.—Penna. yellow Corn is worth 47 cents.

We quote Penna. Rye at 59 cents. Md. Oats at 27 a 28 cents.

WHISKEY.—We quote bids at 22 cents, and bids at 23 cents.

FOR THE AMERICANS. Mr. Editor.—It being in accordance with the usages of the Democratic party, for the people, previous to the formation of the County Ticket, to bring before the public the names of such individuals as they may deem most worthy to discharge the duties belonging to the offices within their gift, we would recommend to the consideration of the Democratic Electors of Northumberland county, Maj. WILLIAM L. DEWART as a candidate for the Legislature. Should the people see proper to elect Maj. Dewart as their Representative, we feel confident that they will find in him a public servant of distinguished abilities, an intelligent, firm, and unwavering Democrat of the Jeffersonian school, and, consequently, the laboring man's friend.

MANY DEMOCRATS. COMMON SENSE.—No one is so foolish as to suppose for a moment that we can live without eating, any more than a tree could derive nutriment from the air alone, without the soil. Cham-leons may live on air, though it is well known that such air is full of living insects. All, therefore, know that it is what we put into the stomach which causes us to live. We make over our bodies from the stomach. In from three to five years we make over our bodies entirely. Thus what is part of us today is absolutely not a part of us to-morrow. The secretions, such as perspiration and other evacuations, continually make our bodies waste, and it is from the stomach that we supply this waste—all we have to do to make our bodies ultimately healthy, is to prevent unhealthy particles from mixing with the blood. Purgation does this for us provided the purgative we employ contains nothing in it which will weaken us or do us injury.

Breadth's Vegetable Universal Pills, for this purpose, will be found all that is required, because they purge from the stomach and bowels the superabundance of humors which may have accumulated in the system, before they have time to produce putrefaction, and its natural consequence—death.

THE LIVING AGE,

PUBLISHED EVERY SATURDAY, AT 12 1/2 CENTS A NUMBER.

ON the 11th of May, 1844, we propose to issue the first number of a work to be composed chiefly of choice articles from the Periodical Literature of Europe.

Boston having become the point of communication with the Old World, and the intercourse being now so frequent, we think it the best location for our office, and believe that such a compilation may be issued once a week, from this city, as will be read with pleasure and profit in all parts of the United States.

THE LIVING AGE will be conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public, for the past 20 years) but as it will be twice as large, and will appear so often, we shall not only give spirit and freshness to the many things which were excluded by a month's delay, but shall also—while thus extending our scope and gathering a greater and more attractive variety,—be able so to increase the solid and substantial part of our literary, historical and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh Quarterly, and other Reviews; and Blackwood's noble criticisms on Poets, his keen political Commentaries, his highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History and common life, by the sagacious Spectator, the sparkling Enthusiast, the judicious Athenaeum, the busy and industrious Literary Gazette, the sensible and comprehensive Britanniad, the sober and respectable Christian Observer; these shall be intermingled with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tatler's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. We shall not consider it beneath our dignity to borrow wit and wisdom from Punch; and, when we think it good enough, shall use the thunder of The Times. We shall increase our variety by importations from the continent of Europe, and from the new growth of the British Colonies.

Geographical discoveries, the progress of Colonization, (which is extending over the whole world) and Voyages and Travels, will be favorite matter for our selections; and in general, we shall systematically and very fully acquaint our readers with the great department of Foreign affairs.

While we aspire to make the LIVING AGE desirable to all who wish to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers and Physicians—to men of business, and to men of leisure—it is a still stronger object of our ambition to make it attractive and useful to their Wives and Children. We believe that we can thus do some good in our day and generation; and hope to make the work indispensable in every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

We hope, that by "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, we may produce a work which shall be popular, while at the same time it will aspire to raise the standard of public taste.

The Living Age will be a large pamphlet, handsomely printed, and stitched in a cover, containing as much matter as an ordinary duodecimo volume, and upon good type and paper.

Each number sold separately, and with the usual discount to wholesale dealers. Persons at a distance will be supplied by mail, or their remitting to us any sum of money that may be convenient.

There will be thirty six numbers, making three large volumes, in the remaining part of 1844. Price of each volume of twelve numbers will be \$1.50. Postmaster, or other persons who may lend us their aid in getting up a subscription list, will be entitled to four copies of any volume, on remitting to us five dollars. The copies to be addressed as they may order.

OAKLEY'S

DEPURATIVE SYRUP.

THE valuable properties of Oakley's Depurative Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by the highest standing in the profession, prescribe it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strength of the system, equalizing any seeds of disease that may have been generated, besides giving health and vigor to the body.—For the cure of Scrofula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla.

Sold wholesale and retail, by the proprietor, GEORGE W. OAKLEY, North 5th street, Reading, Berks County, and to be had of the following persons:

In Northumberland County.—H. B. MASSER; Sunbury; Ireland & Mixel, McEwensville; D. Krauser, Milton.

In Union County.—J. Geathart, Selingsgrove; A. Gutelius, Millfinburg.

In Columbia County.—R. W. McCay, Washington, Reading, March 14, 1843.

MR. OAKLEY—I believe it the duty of every one to do whatever in their power lies, for the benefit of their fellow man, and having had positive proof in my own family, of the wonderful properties of your Depurative Syrup of Sarsaparilla, I most conscientiously recommend it to the afflicted. We had the misfortune to lose two of our children, by the breaking out of ulcerous sores that covered the face, head and neck, although we had some of the most scientific physicians to attend them, and had tried all the known remedies, including Swains' Pasteur, without avail. Another of my children was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wonderful effects of your Depurative Syrup of Sarsaparilla, we were induced to make trial of it, as the last resort; it acted like a charm; the ulcers commenced healing immediately, a few bottles entirely restored her to her health, which she has enjoyed uninterruptedly ever since. As a purifier of the blood, I verily believe it has not its equal.

JOHN MOYER, Tailor, Walnut street, near Fourth, Reading, Duoglassville, April 19th, 1843.

MR. OAKLEY.—My son Edmund Leaf, had the scrofula in the most dreadful and distressing manner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different remedies, but to no effect, until recommended by Dr. Johnson of Northtown, and also Dr. Isaac Hooper, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles, the use of which drove the disease entirely out of his system, the sores healed up, and the child was restored to perfect health, which he has enjoyed uninterruptedly ever since, to the astonishment of many persons who seen him during his affliction. I have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a medicine. Yours truly, AMELIA D. LEAF.
