

citizen. Now, it is just nothing at all, that this does not agree with that old-fashioned book, the Bible, or even with a sentiment of a heathen poet, that man was born to raise his eyes towards the heavens—for hogism has completely exploded all antique and serious notions.

Probably, too, the learned hog paid his visit, in the nick of time, to assist in training our young stump orators for their rhetorical efforts during the present political canvass. Influenced by the example of his eloquence, how they will declaim against their adversaries. On one side they will, after the most approved hog manner, turn up clay arguments, and hurl them in the eyes of their opponents, and on the other, root up the poisonous joke, and dose their daring enemies. So that it will be, on both sides, a very hoggyish contest—that is, to say, it will be carried on in the most decent style, and both parties will return from the battle field covered with glory, as the learned hog comes out of his gutter-bath after his careful ablution.

But, if our young orators should not have so profited by the example of their master, as to distinguish themselves very particularly by their eloquence, they may, at least, have acquired the very accomplished art of grunting, which may be as profitable to the community as the method of speaking articulately, practiced by many, which consists in *vox et preterea nihil*, words, and words only.

Now, I do hope that none of my readers will think that I consider them in any other light than that of most rational and respectable citizens, who are proof against all humbug, and ardently desirous of advancing the interests of science, politeness, morals, and religion. And, certainly, no reflecting mind, that is not imbued with a fanatical spirit, and puritan notions of morals, could have the effrontery to ensure those persons who are so forward to advance the best interests of the town by patronizing all new sciences, and all the accomplishments of the age, such as rum drinking, card-playing, gambling, nigger songs, profane swearing, circuses, theatres, fashionable dancing assemblies, and all the kindred arts of refined social life.

Certainly all good citizens should feel grateful to such for the honor which their most orderly conduct reflect upon the town, and, especially, should parents thank them for the immense aid which they render to them in training up their children in the way in which they should go. Posterity itself will certainly do homage to their memory; and, while the names of all the weak minded and puritanical christians of the town, will sink into forgetfulness, theirs will be emblazoned high on the roll of fame. Who does not sigh for their distinction? Ye dull citizens awake, and rise from your sloth, and join the noble company, that ye may commence with the lofty spirits of the age, and attain to the sacred honors of such virtuous dead—the benefactors of Sunbury,—the lights of the world!

PHILO-SOPH.

From the Woodstock (Vt.) Age.

THE NOMINATIONS.—The writer of this is at present in a position to judge of the reception given by the democracy of the Union to the nominations of the Baltimore Convention. Since the days of Gen. Jackson no such enthusiasm has been known, as that which animates the whole party from one end of the Union to the other. The lines which have since the expiration of Gen. Jackson's last term somewhat divided the democracy, are all completely annihilated—all breaches are now closed—all difficulties settled, and with a perfect feeling of harmony the old soldiers and the new recruits come up to the contest with a spirit of union, and with a determination to carry the day, that will be perfectly irresistible. The enthusiasm that pervades the whole South and West is beyond all precedent, while in Virginia, Pennsylvania, Maryland and New York, the cry of Polk n Dallas rings like the old battle cry of "Old Hickory to the rescue!" Every man who has ever been a democrat, but who had been separated from the party by doubts or misunderstandings, now comes back to the battle again for its cause. We are all together now, and we all sweep coeery from the face of the earth every man to the work!

THE DEED SETTLED.—The Cincinnati Commercial says: One of the parties to the late contemplated duel, S. E. Hopkins, son of Judge G. Hopkins, of Maryland, returned to that city Saturday evening. The other party was in H. Clay, son to the Hon. H. Clay, and not Henry Clay Jr., as was stated. When the party arrived on the ground the whole difficulty is settled by Mr. Clay apologizing for the intent to Mr. Hopkins, which occurred a few days ago at Lexington. It appears that Mr. Hopkins had taken tea with the Hon. H. Clay and only, at Ashland, John B. being one of the party, after which they spent a few minutes with the ladies, when the gentlemen retired, and some dispute occurring young Clay gave up the lie. Mr. H. did not resent it at a time, he being a guest there, but on the next day he sent a challenge, and they met above stated.

MYSTERIES OF GAMBLING.—Some discovery, recently made in a house occupied by gamblers in Baltimore, show that the game of chance sometimes reduced to certainty by its professors. On investigating the place, it was discovered that a hole had been very ingeniously formed through the centre of the floor, and where the card table stood. A telegraph wire was placed in the vicinity of this, which attached to a tassel or signal in the gaming-m. The presumption is, by those who have examined the premises, that a person was stationed above, who looked through the orifice mentioned, and when he discovered the state he different hands, number of trumps, &c., he his colleagues a signal, by which they understood precisely how to play and how to win or lose their money.

AN IMPRESSIVE SCENE.—When Col. Benton, in the U. S. Senate, openly charged Mr. McDuffie, of South Carolina, with treasonous designs, involving the integrity of the Union, and added that he, Colonel Benton, would meet Mr. McDuffie at Phillips not with voice or pen, but with the sword, to die if need be, in defence of the Union. Gen. Clinch, of Georgia, went over and grasped Mr. Benton's hand and said that he would be there with him. Immediately after Mr. Benton took the hand of John Quincy Adams, who was seated behind him, and said—Mr. Adams, you are passing off the stage, and I am passing away also, but while we live we will stand by the Union.

BALTIMORE MARKET.

OFFICE OF THE BALTIMORE AMERICAN, June 24.
GRAIN.—On Saturday a load of 1000 bushels New N. Carolina red Wheat, soft and in bad condition, was sold at 75 cts. This was the first parcel at market this season. To-day a small parcel of New Virginia red Wheat, in good condition, was sold at 100 cts. We note a sale of old Pennsylvania red, of good quality, at 93 cts. Sales of Md. white Corn at 34 a 39 cents—very prime would bring 40 cents. We quote yellow at 42 cts. Sales of Oats at 29 a 30 cts.

WHISKEY.—Prices have declined. Sales of hds. at 21 cts. and of bbls. at 22 a 23 cts.

FOR THE AMERICAN.

MR. EDITOR:—Myself and neighbors are decidedly in favor of again nominating EDWARD Y. BRIGHT, as the Democratic candidate for the Assembly. Mr. Bright made a very good member—he was active and industrious—always at his post, and did his duty faithfully. He was chairman of a very important Committee, and one that required a great deal of attention and labor. His appointment to this station shows that he had the respect and confidence of his fellow members, and they say that we never sent a more industrious and active member.

Mr. Bright took an active and leading part in retrenching the expenses of the Legislature, and in introducing principles of economy into every branch of the Government. He was on the Committee of Accounts, through whose exertions the reform which distinguished the last Legislature was brought about. He went about saving the people's money in earnest. A few days after the opening of the session, he offered the resolution which became a law, giving the Public Printing and Binding to the lowest bidder. This measure alone will save about TEN THOUSAND DOLLARS annually.

It was suspected that great frauds had been committed by the printers under former laws. The Committee on Accounts set about the investigation of these accounts with a determination to ferret out the frauds. Mr. Bright was one of the most industrious and persevering members of that Committee. The result was that overcharges of the printers, to the amount of thirteen thousand dollars, were discovered and suits directed to be brought to recover that sum back into the Treasury.

The contingent expenses of the last Legislature were not one fifth of the expenses of the preceding session. Some \$15 or \$20,000 were saved to the Commonwealth in this matter alone, by the care and economy of the Committee of Accounts.

Mr. Bright then has done his duty faithfully and honestly. He has carried out the wishes of the people, and ought to be re-elected unanimously. Honor to whom honor is due. Let the faithful public servant be rewarded, and the best interests of the people will be faithfully represented.

SHAMOKIN.

FOR THE AMERICAN.

MR. EDITOR:—It being in accordance with the usages of the Democratic party, for the people, previous to the formation of the County Ticket, to bring before the public the names of such individuals as they may deem most worthy to discharge the duties belonging to the offices within their gift, we would recommend to the consideration of the Democratic Electors of Northumberland county, Maj. WILLIAM L. DEWART as a candidate for the Legislature. Should the people see proper to elect Maj. Dewart as their Representative, we feel confident that they will find in him a public servant of distinguished abilities, an intelligent, firm, and unwavering Democrat of the Jeffersonian school, and, consequently, the laboring man's friend.

MAXY DEMOCRATS.

COLORS AND COLDS.—Our bodies are continually decomposing and reorganizing their constituent particles; the decomposed particles are carried off by the blood and discharged through the skin and bowels. That which passes through the skin is termed perspiration or sweat. A stoppage of this perspiration is called Catching Cold, in which case the decomposed particles that should leave the body through the skin are retained in the blood or thrown back upon the stomach and bowels, causing headache, flying pains, coughs, &c. Such being the cause and effect of colds, it must be apparent to every one, that at such a time large evacuations by the bowels are necessary, in order to relieve the alimentary canal of the accumulation of humors, as well as stimulate the blood to open again the pores of the skin.

Brother's Vegetable Universal Pills being an efficient Assistant of Nature, will be found singularly effective in accomplishing this desirable purpose; because they purge from the stomach and bowels those humors which are the cause of disease, cleanse the blood from all impurities, remove every cause of pain and weakness, and restore the constitution to perfect health and vigor.

Chemists and Druggists never have the genuine medicine for sale.

The Philosophical WASHING MACHINE.

THIS WASHING MACHINE, plain and simple in its construction, cannot fail to find its way into every family when its real value becomes known. The price (six dollars) is fixed at the lowest rate, in order to enable every family to obtain one. The inventor guarantees that it will not require more than one fourth the usual quantity of soap—that it will wash in one-third the usual time, and what is a matter of great importance, the wear and tear is so small, or at least so little, that it is not perceptible, so that finest black worsted and woolen can be washed, if necessary, in the same suds with linen and cotton. This may seem strange to those who do not know the principle upon which it works. It is the only machine ever invented that washes upon the principle of the friction of water alone. All others wash upon the principle of friction or rubbing, by bringing the clothes in contact with some part of the machine. Independent of the great saving of labor, economy should bring it into general use. The poor man cannot afford to do without it, while the rich man will use it for convenience, if nothing else. Large families will save from five to fifteen dollars a year in soap alone, and not less than 50 per cent. in the wear and tear of clothes, besides the great saving of labor and expense in washing. The subscriber will guarantee that it will perform all that he has stated, if properly used. He has secured from the patentee, the right to Northumberland, Union, Leeming, Columbia, Luzerne and Clinton counties.

THE LIVING AGE,
PUBLISHED EVERY SATURDAY.

AT 12 1/2 CENTS A NUMBER.

ON the 11th of May, 1844, we propose to issue the first number of a work to be composed chiefly of choice articles from the Periodical Literature of Europe.

Boston having become the point of communication with the Old World, and the intercourse being now so frequent, we think it the best location for our office, and believe that such a compilation may be issued once a week, from this city, as will be read with pleasure and profit in all parts of the United States.

THE LIVING AGE will be conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public, for the past 20 years), but as it will be twice as large, and will appear so often, we shall not only give spirit and freshness to it by many things which were excluded by a month's delay, but shall also,—while thus extending our scope and gathering a greater and more attractive variety,—be able so to increase the solid and substantial part of our literary, historical and political harvest, as fully to satisfy the wants of the American reader.

The editorial Quarterly Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble excursions on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History and common life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenaeum, the busy and industrious Literary Gazette, the sensible and comprehensive Britannia, the sober and respectable Christian Observer; these shall be intermingled with the Monthly and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tatler's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. We shall not consider it beneath our dignity to borrow wit and wisdom from Punch; and, when we think it good enough, shall use the thunder of The Times. We shall increase our variety by importations from the continent of Europe, and from the new growth of the British Colonies.

Geographical discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, will be favorite matter for our selections; and in general, we shall systematically and very fully acquaint our readers with the great department of Foreign Affairs.

While we aspire to make the LIVING AGE desirable to all who wish to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers and Physicians—to men of business, and to men of leisure—it is still stronger object of our ambition to make it attractive and useful to their Wives and Children. We believe that we can thus do some good in our day and generation; and hope to make the work indispensable in every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

We hope, that by "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, we may produce a work which shall be popular while at the same time it will aspire to raise the standard of public taste.

The Living Age will be a large pamphlet, handsomely printed, and stitched in a cover, containing as much matter as an ordinary duodecimo volume, and upon good type and paper.

Each number sold separately, and with the usual discount to wholesale dealers. Persons at a distance may be supplied by mail, on their remitting to us any sum of money that may be convenient.

There will be three or six numbers, making three large volumes, in the remaining part of 1844. Price of each volume of twelve numbers will be \$1.50. Postmasters, or other persons who may feel disposed to send up a subscription list, will be entitled to four copies of any volume, on remitting to us five dollars. The copies to be addressed as they may order.
