

### Henry Clay on the Tariff of 1841.

Among the five articles were two that Mr. Clay seemed particularly anxious to tax, but failed, though supported by a large number of his whig friends; these were tea and coffee, articles used as necessities of life, and coming in competition with none produced in this country. On this subject I will let him speak for himself September, 1841, he said,

"He should vote for the tax on tea and coffee. It was necessary under his calculations, and as he found he was to be deserted by a portion of his friends, (tariff men,) he trusted that some of those opposed to him, (free trade men of the South,) would vote for this tax. If they did not, the result would inevitably be that at the next session the tax would be certainly imposed, or a higher duty than is authorized by the compromise act levied on other articles.

"He thought tea and coffee the most desirable things on which to raise revenue."

On the motion of Mr. Woodbury, to insert in the list of free articles tea and coffee, Mr. Clay and other whigs, September 4, 1841, voted no.

### Coal Mine on Fire.

The mine of Mr. Geo. H. Potts, at Pottsville, took fire about ten days since, and on examination, it was found that as many as one hundred tons of coal were on fire.

The plan adopted was to quench the fire with water, and then haul up in wagons the refuse matter. Gang after gang of the miners were sent down, and after working five or six minutes were brought up completely lifeless. The proprietor, however, persevered, and by rubbing and resuscitating the exhausted men as soon as brought to the surface, he succeeded in conquering the element, after thirty-six hours of hard and perilous labor. The fire was completely extinguished, and about one hundred tons of charred coal and ashes taken from the spot.

We give this occurrence as a caution to all others engaged in the business. Many of our operators are now working the veins below the water level, and a great deal of inflammable gas is inevitably produced. The same accident may occur in any mine, and may be followed by much more disastrous consequences. Miners in working will sometimes strike their picks into a crevice from which will gush a complete stream of gas. It sometimes happens that these "leaders" as they are termed, will continue to emit inflammable matter for days. Such was the case in the instance we have described. After the first explosion the leader in one of the breasts continued to burn, and had it remained undiscovered a few days longer, one of the most valuable collieries in the district would have been completely destroyed. As it is, no serious damage has occurred, and the vein is now worked as usual.

### THE KENTUCKY PRISON ON FIRE!—GREAT EXCITEMENT!

A letter to the New York Tribune, dated Frankfort, August 31, gives the particulars of the bursting out of flames in the Kentucky prison on the previous night, about 10 o'clock. There were in the prison more than one hundred and sixty convicts. The flames spread so rapidly through the workshops that there seemed but one way to save the lives of the prisoners, and that to open the cells and allow all to leave the prison walls. The young men of the city rallied at once, repaired to the arsenal, broke it open without ceremony, took out four or five hundred stand of arms, organized, and put themselves under the command of the Governor. The imploring cries of the prisoners for relief grew more and more earnest. Every building within the walls was in flames except the building containing the cells and the provision house. The reservoir which supplies the city with water had been partially cleared out on Friday, and the water was not let on until the alarm was given, and the flames were permitted to move on unchecked. The Governor arranged his men, entered the prison and addressed the convicts. He told them if they attempted to escape every man would be shot. They fell upon their knees and begged but to be delivered from the horrid death that threatened them and they would submit to anything. Just as the Governor was about to open the doors of the prison to the convicts, a supply of water was obtained, and the engines began to play upon the building containing the cells. The Governor then left, assuring the prisoners that they should be rescued if the building could not be preserved. Fortunately for all, they were successful in preserving the buildings above named, and in keeping the prisoners within their cells. Nothing saved of the machinery or materials of the workshops.

### THE ORDER OF OLD FELLOWS IN ENGLAND.

Some curious statistics, illustrative of the present state of this extensive fraternity, were laid before the Grand Metropolitan Lodge, at its late anniversary meeting. It appears that on the 1st of April last, when the returns were made up, that there were in England and Wales 3,310 lodges and 325,000 members, showing an increase of 453 lodges and 22,000 members over the previous year's return. The subscriptions for this year amount to £352,583; the expenditures to £300,000; leaving a balance of £52,583 in favor of the Association. The total amount of property belonging to the Order, (including pictures, flags, banners, lodge paraphernalia, official apparel, and various insignia) was estimated at £700,000. Amongst the enrolled members are 130 members of Parliament, 629 ministers of religion of various denominations, and 9,000 honorary members who make no claim upon the funds. If each member were to contribute only one half-penny each, it would amount to £34,126 a year. If they were to walk two and two, one yard a sander, the procession would extend 92 miles and 380 yards. If they walked three miles an hour it would take 30 hours 14 minutes to pass any given spot—10,214 passing every hour. The chief item of expenditure consists of the charge for medical aid afforded to the sick and indigent of the order.—Phil. Ledger.

## POLK, DALLAS AND SHUNK.

### Grand Democratic Mass Meeting OF THE THIRTEENTH CONGRESSIONAL DISTRICT, AT MILTON, PA., ON SATURDAY, 14th OF SEPTEMBER.

**RALLY DEMOCRATS! Rally Freemen! Rally Brethren!** Rally from the Pines of gallant "OLD LYCOMING." Rally from CLINTON, the glorious Banner county of the district! Rally down-trodden but patriotic Democrats of UNION! Rally your legions NORTHUMBERLAND! Come on, ye noble sons of the "STAR OF THE NORTH!" All come with the family! Come one, come all! Come old, come young! All to the rescue!

To our brethren of all sections we would greeting, and we shall be glad to welcome you among us. Come on! Democrats will always do their duty.

We have also invited the following able speakers to attend, viz:—

B. H. Brewster, Col. James Page, Charles Brown, and E. B. Schaefer, of Philadelphia, Col. Resh Frazier and John W. Forney, of Lancaster, R. M. Barr, of Reading, Wilson McCandless, of Pottsville, Gen. By order of the Milton Democratic Club,

No State Election takes place in Tennessee, this year. They elect State officers every two years—and that election was held last year.

**THE DEFENDERS AT NORTH POINT.**—The approaching Twelfth of September, the anniversary of the battle at North Point, is to be celebrated with much spirit by the Association of Defenders and the military, at Baltimore. They will be joined by the remnant of the defenders from York, accompanied by an escort of several military companies from Pennsylvania.

CALF is generally called the first murderer, but some call him the first soldier; others might call him the first physician, as the three terms are considered synonymous.

**Frederick the Great** must have destroyed a great many thousand lives before he became so proficient in the art of killing; yet, when in the presence of his own physician he resigned his laurels to the M. D., and surrendered all claims to superiority over him in that department. Napoleon, in his fatal Russian campaign, destroyed about one million of human beings, and we call him a hero! Dr. Brandreth's Vegetable Universal Pills have saved the lives of at least half that number, and when the properties of his medicine shall be duly appreciated, he will receive the thanks of his fellow citizens; a richer gift than either titles or crowns.

In order to secure the medicine in its purity, he has excluded druggists from any participation in its sale.

For sale of H. B. Masser, Sunbury, or of the agents, published in another part of this paper.

**CARD.**  
The "Good Intent Engine Company," of Sunbury, return their thanks to Jos. R. PRINSELY, Esq., of Northumberland, for the liberal hospitality extended to them at the fire on the 10th inst.

**Who's a BETTER RIGHT?**—John A. Bryan, of Ohio, Charge d'Affaires to Peru, is at New York, on his way to South America. Mr. Bryan was formerly an editor, but he is now a diplomat, valued at \$4,500 salary, \$4,500 outfit, and as much more as he can get. Good for him.

## SHUGERT'S PATENT WASHING MACHINE.

THIS Machine has now been tested by more than thirty families in this neighborhood, and has given entire satisfaction. It is so simple in its construction, that it cannot get out of order. It contains no iron to rust, and no springs or rollers to get out of repair. It will do twice as much washing with less than half the wear and tear of any of the late inventions, and what is of greater importance, it costs but little over half as much as other washing machines.

The subscriber has the exclusive right for Northumberland, Union, Lycoming, Columbia, Luzerne and Clinton counties. Price of single machine \$6.  
H. B. MASSER.

The following certificate is from a few of those who have tried this machine:  
We, the subscribers, certify that we have now in use, in our families, "Shugert's Patent Washing Machine," and we do not believe, as long as it is a most excellent invention. That, in washing, it will save more than one half the usual labor. That it does not require more than one third the usual quantity of soap and water; and that there is no rubbing, and consequently, little or no wearing of tearing. That it knocks off all buttons, and that the finest clothes, such as collars, laces, turks, frills, &c., may be washed in a very short time without the least injury, and in fact without any apparent wear and tear, whatever. We therefore cheerfully recommend it to our friends and to the public, as a most useful and labor saving machine.
