

From the Philadelphia Times. THE "POKE" BUSH.

A SONG-BY MISS E. A. H.

Know ye! the humble Poke plant. In valley soft and green : It hides its tiny blossoms, Like a maid of modest mien Yet on the rugged hill side, And common wild and bare. Wherever human foot may stray. The hardy Poke is there.

When fading autumn mourneth, Her fair sweet flowers dead ; Its stem to crimson turneth. And bends with berries red And playful little children Around the poor man's door, With crimson dye their laughing cheeks, And dance upon the floor.

Some bind their brows with willows Feint resemary, and rue-But give me that red chaplet, Of berries bright and true Raise high the bonny Poke bush. Ye true sons of our land ! And forward to the conflict. Its green leaves in your hand

So like the far famed warriors, Whose arms the green wood hore, Success shall crown your struggles And liberty bless our shore. Not jewels for the lordling. Who sleeps on couch of down, But comforts for the wearied our, Of honest head and brown

Freely the blessed sunshine O'er the broad earth is thrown, And freely she puts forth her fruits, For all from zone to zone ; And freely is the red Poke dag, Flung forth from main to main, Come march beneath its shadow, And swell the rolls of fame.

SUBSTITUTE FOR STEAM -"La Reform" announces that an operative at Ruel, near Paris, has discovered a new substitute for steam. The experiment is to be made in a few days on the Versailles railroad. "Figure to yourself," says the Reform, "an enormous (double or drum) wheel, five yards in diameter, between the epokes of which you can place a horse with his rider. This large wheel being attached to four ordinary wheels placed on the rails of a road, it will merely be necessary to turn the large wheel to make the carriage advance. But what motive force does the inventor employ ? It is the horse placed in the interior of the wheel, and voked by means of two bars of iron placed perpendicularly under the axle. The horse, by drawing, causes the wheel to turn, in the same manner as a mouse or a squirrel wheel, it has been found necessary to dig an excavation near the station-horse, into which the horse is let down. The inventor states that he can modity his wheel so as to admit three horses, and that, in such case, the heaviest train may be propelled along a railroad with a velocity even more rapid than that caused by steam."

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Depura-tive Syrup of Sarsaparilla, as a purifier of the blacd, is so well known to the public generally. that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes procedence over all others; every Disc. 18 one that has taken it, have derived so signal bene-PHILAD. ficial results from it, that it is recommended by them with the u most confidence. Physicians of the highest standing in the profession, prescribe it to parients under their care; containing nothing deliterious but being composed of the most mild, vet efficacious vegetable materials, it is offered with confidence, as the chespest and most efficient purefier of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strongth of the system, erallenting any seeds of disease that may have been generated, besides giving health and vigor to the body .- For the cure of Scrofula or Kongs Evil, Rheomatism, Tetter, Pimples or cruptions of the Skin, White Swelling, Fatula, Chronic Cough Asthma, &c. The nupar merous certificates in the possession of the subsetiber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Susaparilla.

RINGWORMS, PIMPLES ON THE FACE, AND OTHER CUTANEOUS ERUPTIONS. The following certificate describes one of the most extraordinary ours ever effected by uny

application. PHILADELPHIA, February 10, 1838. OR twenty years I was severely afflicted with TETTER on the Face and Head: the disease commenced when I was seventeen years old, and continued until the Fall of 1836, varying in violence, but without ever disappearing. During most of the time, erest part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many at plications, (among them several celebrated preparations) as well as taking inward remedies, Inding a number of bottles of Swain's Panacea Extract of Sursuparilla, &c. In fact, it would be impossible to enumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time seing very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the runtion began to disappear, and before I had used a jur the disease was entirely ding, Briks County, and to be had of the following cured. It has now been nearly a year and a half ince, and there is not a vestige of the disease to maining, except the sears from the deep pits formed Sunbury; Ireland & Mixel, McEwenwille; Di by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a faller account to any person was ting further satisfaction. who will call on me.
