

Late from Mexico.

INDIAN DISTURBANCES.—Tampico dates to the 26th ult. have been received at New Orleans, which give an account of a severe contest between the Mexicans and the Camanche and Tacuacanos Indians, which shows that the Mexican government for the present has its hands full, without undertaking the subjugation of Texas, for which it is ill prepared. The latter made an incursion into the North of Mexico, and carried off a large number of women and children. The Mexicans pursued them, and about the 9th ult. had a severe fight at the Paso de los Moros. Forty six Mexicans were killed, and twenty wounded.

Cotemporary with this, at the rancho of Los Moros, twenty-two were shot or burned in the house attacked to the rancho, and many women and children carried off captives.

On the 17th of October another engagement took place. There were, according to Mexican accounts, upwards of four hundred Indians engaged in this. The affair lasted over two hours, a lively fire being kept up all the while. The Indians then abandoned the field, giving up the fifty-five Mexicans, women and children, whom they had previously carried off captives, a quantity of fire-arms, and some horses which they had stolen. Twenty of the Indians were left dead upon the field, while many more were believed to have been carried off in the fight, according to Indian usage, both dead and wounded. On the side of the Mexicans, nine were killed and thirty-four wounded. Immediately steps were taken by the sub-Prefect of Reynosa to raise a sufficient force to cut off the retreat of the savages, who retired by the way of the North. The Mexican editors pretend that upon several of the Indians killed in the fight were found medals of silver, with the bust of Mr. Van Buren upon them, and on the reverse the arms of the United States. This they imagine to be a sign of the utmost significance of the hostile designs of this country upon their own.

REMARKABLE PRESENTMENT.—In Doyleston (Pa.) Beniah Holdren, an aged man of 94 years, after partaking a happy meal with his children, apparently in perfect health, observed: "Now, my friends, this is the last meal I shall ever eat; I am about to die." He then proceeded to give directions to his worldly concerns, his burial, &c., and when he had concluded was struck down by a paralytic stroke.

SOME SCAM! tied a large grimalkin by her tail to a clothes' line on Sunday night in Race street Philadelphia, near 11th, and the whole neighborhood for hours was kept in a state of discordant alarm by the shrieks of the animal. She resisted all attempts to cut her loose too, and manifested a disposition as savage and as sanguinary as—as a regular *Caladine*. The *news* were present.

CAUTION TO SINGLE FOLKS.—The statistics of hospitals show that "the unmarried are more than four times as liable to become insane as married people." Many young ladies who affect great indifference on the subject of matrimony, will, no doubt, on receiving the above information, consent to take partners merely to preserve their intellects unimpaired.

FAST GRINDING.—Beach's stone mill, in this town, manufactured 2136 barrels of flour in 6 days of last week, being 356 barrels per day. This is using up 10,000 bushels of wheat in about the shortest time we have heard of.—*Akron Beacon.*

GROWTH OF LONDON.—We are apt to imagine here in the United States, that the growth of our towns and cities greatly surpassed in rapidity and extent, those of any part of the old world. Some facts about London would seem to contradict this notion.

It is stated, for instance, in a recent report to the Government, that "in little more than twelve years, twelve hundred new streets have been added to London, which is at the rate of 100 streets a year.

These 1200 new streets "contain 48,000 houses, most of them built on a large and commodious scale, and in a style of superior comfort." With all this wonderful increase, it is said, "that the demand for houses, instead of diminishing, continues to increase," and that while in many towns of the interior, the number of unoccupied houses is augmenting, "scarcely a new street in London, finished, before almost every house in it is fully occupied.

One great reason assigned for the rapid growth of London, is the extraordinary facility, economy and despatch with which people are now transported over Railroads terminating there—owing to this cause, "it is estimated that the daily influx of individuals is five times greater than it was fifteen years ago."

London is now about forty miles in circumference, and numbers more than two million of inhabitants.—*N. Y. Amer.*

THE VARIOUS STAGES OF LIFE.—A French statistical work states that the inclination of crime is at its *maximum* in men, about the age of 25—in women five years later; that the greatest physical strength of man is developed between the age of 25 and 30, and the greatest mental powers between the age of 45 and 50; and that gaming is the principal cause of suicide among males, and disappointment in love affairs amongst females.

VALUABLE DOGS.—The London Times of the 3d of October, contains an account of the sale of pointer dogs, the property of Mr. Edge, of Streyne, near Nottingham. The highest price was given for a dog two years old, which was purchased by the Marquis of Anglesey, for £84 sterling (upwards of \$400.) Other dogs sold for various prices—from 10 guineas to £55.

BALTIMORE MARKET.

Office of the BALTIMORE AMERICAN, Nov. 18.

GRAIN.—Prices of Wheat continue steady at 88 & 92 cents for good to strictly prime reds, and at 75 & 88 cts. for inferior to good. A sale of 1500 bushels Penna. red Wheat to-day at 85 & 91 cents—quality fair to prime. Sales of old Corn at 43 & 44 cts. for white, and 47 & 48 cts. for yellow. Sales of new at 40 & 42 cents for white, and 42 & 44 cts. for yellow. We quote Oats at 21 & 26 cents, according to condition.

WHISKEY.—The article is dull and prices have further declined. Small sales of hhds. at 24 & 24 1/2 cts. and of bbbls. at 25 & 25 1/2 cents.

Tax Three Kingdoms.—The world we inhabit is divided into three grand departments, named the Mineral, the Vegetable and the Animal Kingdom. The first named forms the base of the other two; thus the vegetable kingdom derives life and nutriment from the mineral, and the animal kingdom is supported by the vegetable.

No mineral substance can become a part of an animal body, because it cannot be digested. Quicksilver is a mineral. Calomel is sublimated quicksilver; therefore, calomel cannot be digested, but when lodged in the body acts as a corroding poison. Instead, therefore, of calomel, use Dr. Caldwell's Vegetable Universal Pill; because they are a medicine extracted entirely from vegetables, and known by long experience to be perfectly innocuous, and yet of more power as a purgative or cleanser of the alimentary canal, than any other medicine. Their effect on the system is so easy that it is a remarkable fact that the same dose may be given to an infant or adult, without the possibility of doing any injury—but on the contrary good.

Assignees' Sale

VALUABLE COAL LANDS,

Situate in Coal Township, Northumberland County, Pennsylvania.

WILL be sold at public auction, at the Exchange, in the City of Philadelphia, on **THURSDAY, the 28th inst.**

the following tracts of Anthracite Coal Lands, to wit:

No. 1, Containing 212 acres, strict measure, it being the equal undivided one-fourth part of **BUCK RIDGE TRACT**, which contains, by estimate, in all 818 acres, strict measure.

Upon this tract there are several mines opened; some of them are now being worked. Thereon are also erected four two-story **DOUBLE FRAME Dwelling Houses**, built to accommodate eight families; a **Frame Stable, Smith Shop, a branch Rail Road**, about a quarter of a mile in length, leading from the Sunbury and Danville and Pottsville Rail Road to the coal mines; and other improvements suitable for a complete Colliery.

Back Run passes through the middle of this tract.

No. 2, Containing 973 acres, 433 perches, strict measure, it being the equal undivided one half part of **GREEN RIDGE TRACT**, which contains, by estimate, in all, 1874 acres, 87 perches, strict measure. The Sunbury and Danville and Pottsville Rail Road passes through it, (near the middle,) and also the Shamokin creek. Valuable mines of Iron Ore, and a great number of Coal Vens, have been discovered and opened upon this tract; but none of the coal vens have yet been worked for market.

The above one half of the tract will be sold together, or in two equal one fourth parts, of 468 acres 1013 perches each, to suit purchasers.

No. 3, Containing 220 acres, strict measure, it being the undivided one half part of the **ESTHER CREAMOR TRACT**, containing, by estimate, in all, 452 acres, strict measure. Valuable Iron Ore has been found upon this tract. Thereon are also erected a **SMALL DWELLING HOUSE** and a **Saw-Mill**, upon a branch of Shamokin creek, which passes through it. A large Anthracite Furnace, now in blast, is situated within a quarter of a mile of Buck Ridge, and within a mile of Green Ridge and Esther Creamor tracts.

The whole of the above described lands are situated in the **Shamokin Coal Region**, near the town of Shamokin, which is 19 miles by rail road to Sunbury, and 30 miles by the proposed improved route, without included planes, to Pottsville. They are all well timbered, and are all **Coal Land** except about 20 acres of Buck Ridge, running into the adjoining red shale. And in quantity and quality of Coal, together with convenient adaptation for railways, for numerous openings for mines above water level, they are not inferior to any Land in the region, or perhaps in Pennsylvania.

Persons wishing to view the Lands are respectfully referred to Mr. John Wood, of Sunbury; and for further particulars respecting them, and the region generally, to the subscriber, at Lancaster, or Burt Patter-on, Esq., at Pottsville.

Specimens of the Coal and Iron Ore, and a map of the Lands, together with a more particular description of the region, will be left at the Exchange in Philadelphia for perusal.

Sale will commence at 7 o'clock, P. M., when conditions will be made known, and attendance given, by

JAMES B. LANE,
Assignee of George Hecker.

NOTE.—C. J. Wolbert, Auctioneer, No. 51 Market Street, Philadelphia, will give any information that may be desired respecting the above described land.

Medicated Syrup of Sarsaparilla.

For the cure of all B. h. affections, if taken according to directions.

It is a never failing remedy which no family ought to be without, especially in low marshy countries.

As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purly Vegetable, and having tried on thousands, for upwards of 12 years, and to his knowledge, when taken strictly according to directions, there has not been one failure. Under such circumstances I recommend it to the public, adding a certificate in support of my assertion.

I, John Burns, do certify that I was in the ship Tub-coc Plant of Philadelphia, Capt. Redd, in June, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time; and the doctor's lands, went from there to Baltimore, lay in the Infirmary for four or five weeks—from thence to Philadelphia; was six months under Dr. Coats; from thence to New York; went to the Hospital, remained there about four weeks without any relief—told every thing without any benefit. From a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfect cure, and I have not had the least return since. I do with confidence recommend it to the public.

For the cure of all B. h. affections, if taken according to directions.

It is a never failing remedy which no family ought to be without, especially in low marshy countries.

As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purly Vegetable, and having tried on thousands, for upwards of 12 years, and to his knowledge, when taken strictly according to directions, there has not been one failure. Under such circumstances I recommend it to the public, adding a certificate in support of my assertion.

I, John Burns, do certify that I was in the ship Tub-coc Plant of Philadelphia, Capt. Redd, in June, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time; and the doctor's lands, went from there to Baltimore, lay in the Infirmary for four or five weeks—from thence to Philadelphia; was six months under Dr. Coats; from thence to New York; went to the Hospital, remained there about four weeks without any relief—told every thing without any benefit. From a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfect cure, and I have not had the least return since. I do with confidence recommend it to the public.
