BRIEF HISTORY OF TEXAS.

As the "lone star of Texas" seems to be the tar now to which all eyes are turned, some account of its political history cannot fail to be interesting. The following account is furnished by a writer in the N. Y. Sun.

It is not denied that from the discovery of Louisiana to the year 1903, Texas belonged to France, and formed a part of the territory of Mexico, In that year France sold Texas and Louisiana to the United States,-we held it as put Territory for 16 years, or until 1819, when we transferred it to Spain, and during our posnession it formed no part of the Mexican territory. At the time of our transferring it to Ferdinand VII. King of Sprin, Mexico was in a state of revolt against the mother country. We could not therefore in transerring Texas to Spain, be considered as giving it to her revolted colonies.

Texas became independent of Old Spain and of all the world in 1836, before Spain acknowledged the independence of Mexico herself. What ground is there for assuming that Texas is now or ever has been Mexican Territory, which she has a right to subjugate at will while we have a right to acquire it by treaty without her consent? The only party really entitled to consideration in this matter is Old Spain, and as she has made no opposition it is reasonable that she has no objection. The only connection which ever existed between the citlzens of Texas and the people of Mexico was that of a civil compact or bargain. A compact can only endure so long as it is faithfully adhered to by the contracting parties. In 1824, Mexico made a constitution similar to our own, which like ours was ratified by the states forming the confederacy-it professed to be an instrument of limited powers preserving to each state its own sovereignty; each state had its Governor, Legislature and Judiciary. A President and congress were to be chosen at the head of the confederation, precisely like our own. The people of Texas, whose territory had been sold to a foreign king who could afford them no protection, being at the same seveed from the United States, were compelled from their feeble state to seek other alleancas. As the constitution of Mexico was of a democratic character, it was arranged that Texas, and Coahuila should form a distinct state and enter the confederacy as a member, with the dstinct understanding that whenever Texas should become sufficiently populous to Farmers' & Drovers' Bank become a separate and independent state the should be admitted as such. The constitution of 1925 was so formed that it did not probabit the introduction of slaves from the United States. Under its administration and authority they were continually carried into Mexico and apprenticed to their owners for 99 years. in 1824 this federal compact went into operation, continuing in full force until 1825 when Santa Anna, a successful General in the rebellion formed the design of subverting the constitution, erecting a Central Government, innking himself supreme Dictator. Accordingly the priests, who feared the Protestant faith under an entire free government, and especially through the Northern states of Coalmila and Texas, united their interests with Santa Anna to effect the contemplated revolution.

In 1825, they succeeded in electing a Congress who proclaimed the federal constitution at an end; pronounced all separate Governments dissolved and decreed that all power and authority should be concentrated in the city of Mexico, from which edicts were to emenate for the Government of the empire! The Roman Catholic religion was declared the established religion of the land, and the States including Texas, were called upon to swear allegiance to the new form of government, and surrender their private arms to the Agents appointed to receive, and also to subscribe to the Catholic faith as the established religion. An armed force was sept into Texas and Conbuila at the time their legislature was in session. Several members were seized and imprisoned with their Governor, without being charged with any offence. Gen. Stephen Austin went to the city of Mexico to intercede for his countrymen, and without accusation was thrown into a dangeon and confined two years, which so undermined his constitution as to cause his death. This violent, traitorous and sudden revolution and usurpation caused several of the states to take up arms in defence of the federal constitut on of 1824, among which were Zacetecas, Durango, Texas and Coahuila. In a short time Santa Anna having the army and the treasure, forced them all to submit except Texas alone. On this handtu, of tree-born Americans, Santa Anna in his pride and power, determined to your all the vials of wrath, denouncing them as pirates, and demanding their unconditional submission, or threatening them with extermination from the land which they had improved and made fertile without protection or aid from Mexico.

The people of Texas resisted and drove their invaders out of the territory, declared themselves independent, and formed a constitution and government of their own. We content, and it is clearly apparent, that Texas had in connection with Mexico, other than that of a civil compact. Texas was bound to remain as a member of the Federal family, and had no right to proclaim separation and independence. But when the compact, bargain, agreement or constitution was perfidiously destroyed and senttered to winds; when a central dictator-hip was established for a republic, and the people called upon to embrace and swear allegiance to a religion to which they were opposed, it became righteous and proper to resist. The compact was at an end, and Texas was as free to become independent, or to form new alliances, as she was before the civil compact of connection was formed with the Mexican confederacy. This is the simple and just explanation of the position of Texas, as fortified by history.

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Depura-tive Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the u most confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deliterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the chespest and most efficient puoffice of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strongth of the system, eradicating any seeds of disease that may have been generated, besides giving health and vigor to the body .- For the cure of Strofula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling. Fistula, Chronic Cough Asthans, &c. The numerous certificates in the possession of the subscriher and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sursaparilla.

Said whole ale and retail, by the proprietor, GEORGE W. OAKLEY, North 5th street, Reading, Brike County, and to be had of the following Detsons :

In Northumberland County - H. B. Masses, Sunbory; Ireland & Mixel, McEwensville; D Krauser, Milton. In Union County .- J. Geath et, Schiegrove;

Reading, March 14, 1843,

Mn. OAKLEY:-I believe it the uty of every one to do whatever in their power lies, for the b nefit of their fellow man, and having had politive proof in my own family, of the worderful properties of your Deparative Syrup of Sassaporilla, I m st consciention-ly recommend it to the afflicted. had the misfortune to lose two of our children, by the breaking out of ulcerous sores that covered the face, head and reck, although we had some of the most scientific physicians to attend thim, and had tried all the known remedies, including Swaim's Panacca, without avail. Another of my children was attached in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wanderful effects of your Deparative Symp of Susaparille, we were induced to make trial of it, as the last resert; it impediately a few battles entirely restored her to her health, which she has enjoyed uninterruptedly ever since. As a positive of the blood, I verily behere it has not its equal.

Douglassville, April 19th, 1843. scrotela in the most dreadful and distressing manner for three years, during which time he was deprived of the use of his timbs, his head and neck were covered with olcers. We tried all the differ ent remedies, but to no effect, until recommended by Dr. Johnson of Norristown, and also Dr. Isaac Hiester, of Reading, to use your Depurative Symp of Sarsaparilla, of which I obtained several bottles the use of which drove the disease entirely out of his system, the sore healed up, and the child was restored to perfect health, which he has enjoyed uninterpretedly ever since, to the ast hishment of many persons who seen him during his affliction. I have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a medicine. Yours truly.

ROSE OINTMENT, WM. HEILMAN & CO., FOR TETTER.

RINGWORMS, PIMPLES ON THE FACE, AND OTHER CUTANEOUS ERUPTIONS. The following certificate describes one of the most extraordinary oures ever effected by any application.

PHILADELPHIA, February 10, 1838. FOR twenty years I was severely afflicted with TETER on the Face and Head: the disease commenced when I was seventeen years old, and continued until the Fall of 1836, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many as plications, (among them several celebrated preparations) as will as taking inward remedies, including a number of bottles of Swaim's Panacea, Extract of Sarsuparilla, &c. In fact, it would be impossible to enumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruption began to disappear, and before I had used a jar the disease was entirely cured. It has now been nearly a year and a half since, and there is not a vestige of the disease remaining, except the sears from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller account to any person wanting further satisfaction, who will coll on me. At the time I commenced using the Rose Ointment I would have given hundeeds of do last to be rid of the disease. Since using it. I have recommended it to several persons. (among them my mother, who had the disease badon her nem.) who were a leured by it.

PHILADELPHIA, May 27th, 1839. HIS is to certify that I was a verely afficied with Tetter in the hands and feet for upwards of forty years; the disease was attended generally with violent itching and swelling. I applied to a number of physicisms, and used a great many appliacted like a charm; the u cers commenced healing carious without effecting a core. About a year since, I applied the Rose Ointment, which entirely stopped the itching, and a few applications immediately cured the disease, which there has been no return of, although I had never been rid of it at any time for forty years. PRILADELPHIA, Sept. 19, 1836. I was recently troubled with a tedious herpetic cruption, which covered morely one side of my face, and extended over the ear.
