

THE IRON DISTRICT.—The iron district which spreads through New Jersey, Pennsylvania, Maryland, and Western Virginia, traverses regions exuberant with coal, and abounding in water power; and, travelling farther West, we find in Ohio, Kentucky, and particularly in Missouri, immense stores of metallic wealth, adjacent to the most fertile agricultural districts. It is to Pennsylvania, however, we must chiefly direct our attention, where two-fifths of all the iron in the United States is made. The United States contain 80,000 square miles of coal, which is about sixteen times as great as the coal measures of Europe. A single one of these gigantic mass-ess runs from Pennsylvania to Alabama, and must embrace, itself, 50,000 square miles. Out of fifty counties of Pennsylvania, no less than thirty have coal and iron in them; and, out of the 46,000 square miles of Pennsylvania, which form super-licies, there are 10,000 miles of coal and iron; while all Great Britain and Ireland have only 2,000—so that Pennsylvania alone has an area of coal and iron five times as great as that of Great Britain. The quality of the coal or iron is as rich as that of Great Britain, and they have the advantage of lying near the water level; while those of the latter country are sometimes more than one thousand feet below the surface, and are excavated through subterranean passages.—*Hunt's Merchants Magazine.*

A TERRIBLE OPERATION.—The Lowell Advertiser speaks of a terrible surgical operation at the Massachusetts General Hospital, performed by Dr. Warren: "No less than the complete removal from the head of nearly one half the upper jaw, that is from the mouth to the ear. The skin and flesh of the cheek were first turned up over the eye, and then the separation was effected by saws, and the use of the chisel and mallet. The whole occupied an hour and a half, and the unfortunate patient bore it with firmness. He is an elderly man, (not robust) from the eastern part of Maine, and a brother of one of our wealthiest and wealthiest merchants. The disease is cancer. Dr. Warren is of opinion that though it may remain in the head, the sufferer will live several years longer than he otherwise would."

A NEW EXPERIMENT.—The Hartford Asylum has begun the experiment of testing the extent to which *art calculation* and the understanding of what is spoken to them, can be taught to the pupils. The report of Mr. Weld, the principal, on this subject and the other topics connected with the late visit to Europe, will soon be laid before the public.

CRELUITY TO A SLAVE.—A resident inhabitant right presented itself to the residents of Chesnut street this morning. A negro boy was seen to issue from near the corner of Third street, stripped to his waist, and his back cut and lacerated in a most shocking manner; he took a straight line for the river, and plunged in, apparently with the intention of getting clear of some dreaded evil at all hazards. He was, however, rescued by some of the crew of a steamboat lying at the wharf.—*St. Louis New Era.*

THE JAIL AT UNIONTOWN, Fayette county, was partially destroyed by fire last week, says the Phila. Ledger. The fire was communicated by an insane prisoner, named Yest, who was confined in a room near the roof, and who broke away the ceiling and set fire to the roof by means of a lighted broom. This is the jail that Miss Dix describes as being dirty, ill kept and the only inmates being two madmen in chains. If it had been burned down entirely it would have been no loss, and might have prompted some of the benevolent individuals of that county to endeavor to procure a better asylum for the poor unfortunates who inhabit it. Speaking of these two prisoners, Miss Dix says: "One of these men is decidedly homicidal, and, with the exception of a short interval, has been, on one occasion, becoming violently excited at seeing an intoxicated man put into his room, and possibly provoked by him, for no one knows how it was, he fell upon him and murdered him in the most shocking manner. When the keeper came to visit his prisoners, a horrible spectacle presented itself—the murdered drunkard mangled and lifeless: the madman exulting in the deed, and covered with the blood of his victim! He also went at large and burned a building. The other man has been insane about seven years. Both are dangerous, and are subject to paroxysms of fury. Every person must comprehend something of the difficulties of taking care of the insane; but all know, likewise, that humane efforts can spare them much degradation and suffering, even in a prison."

A STRANGE TRANSFORMATION.—The Episcopal Church in West Troy on the Albany Road has been purchased, says the Troy Whig, by Mr. Dunham, and will be converted into a hotel with a race-ground attached. It is also said that a cockpit will form a part of the new establishment.

THE UNITED STATES BAPTIST BOARD OF FOREIGN MISSIONS, in reply to a circular from Alabama, say—"We can never be a party to any arrangement which would imply approbation of slavery."

MISSIONS IN GREENLAND.—From late English papers, it appears that on the ice bound coast of Greenland, 4 Moravian settlements are made, to which are attached 26 missionaries; in a climate where the cold is often 50 degrees below the freezing point. These settlements now contain 1864 native converts to Christianity, who gain chiefly from an icy and stormy sea the needful support of their families.

BOOK HANDLES.—Two thousand broom handles were lately shipped from down east to London.

A REPARTER.—Mr. Packenham, the British minister, was in the lobby when the House occurred in the amendment made by the Senate to the bill for annexing Texas, and when the result was announced, he turned to Mr. Slidell, of La., and said, "You Americans are, indeed, a grasping people." "Yes," replied Mr. Slidell, "we have a strong mixture of the Anglo-Saxon blood in us." This was touching Mr. P. in a quiet manner.

[Extract from a London paper.]
"We're not ourselves, When nature, being oppressed, commands the mind To suffer with the body."
This is a truism conceived by the master mind of Shakespeare, which neither sophistry nor argument can refute. To all those who are suffering from bilious attacks, indigestion and flatulency, we would with great sincerity recommend, as a never failing remedy, Brandreth's Pills. The testimonials we have had submitted to us in favor of this admirable medicine, fully justify our speaking of these Pills in terms of the highest praise.
