Highly Important from Texas.

RECEPTION OF THE ANNEXATION RESOLUTIONS -GREAT REJOICING - The Philadelphia Ledger says, we have a supply of papers by a recent arrival from Texas, up to the 25th ult., and we find they are filled with rejoicing at the passage of the Annexation resolutions by the United States Congress. The citizens of both Galveston and Houston testified the livliest joy immediately on the reception of the news, a fact which proves what the journals of that country have always asserted, that the people are strongly in favor of the project, however much the prominent politicians are opposed to it. It is from the latter that the only opposition to the measure is to be found. The vessels in the harbor at Galveston displayed the Star-Spangled Banner and the Lone Star in unison from their masts ; one hundred guns were fired in honor of the event, and an illumination of the city was agreed upon with the greatest unanimity. A public meeting was convened, at which Gen. Mennucan Hunt presided. A preamble and resolutions, expressive of the joy of the people at the prospect of becoming once more citizens of the United States, were drawn up and passed without dissent from any person present.

A committee was appointed to address the inhabitants of Texas upon the great event, and every thing indicated an unanimity and fervor of popular sentiment in favor of Annexation, which we had scarcely anticipated from the rumors that have reached us of late from that country. It was also requested, by special resolution, for President Jones to call an extra session of Congress, for the purpose of ascertaining the will of the people in respect to annexation. At Houston there was the same evidence of gratification. It was hailed with a burst of enthusiasm by the citizens that has nover been exceeded. The news of the victorious battle of San Jacinto scarcely excited such general and enthusiastic rejoicing, the sound of the drum and other musical instruments, the roar of cannon, and the loud shouts of the multitude, resounding long after midnight. It is thought a favorable indication on the part of President Jones that he should have appointed the Hon David S. Kaufman, an ardent friend of Annexation, as Charge d'Affaires to the United States. We copy the following from the Galveston News

"It will now be expected that every man in Texas will speedily make up his mind and declare his sentiments upon the proposed measure of annexation. Although the joint resolutions which have just received the sanction of the U States Government do not embrace all the provisions, or give us that ample and complete justice which we could desire, yet they present to us no important or solid grounds of objection, We certainly could not expect the Government of the United States to leave us our lands and yet assume the payment of our national debt ; nor indeed could we expect that Government to assume our debt on any terms, while the amount of it has never been ascertained by our own Go vernment, but is left to vague and indefinite conjecture : so that in the United States it has been represented by mon, supposed to be well informed upon such matters, to vary from fifty to one hundred in llions ! And in regard to our public lands, the showing by this Government is still lieved he will succeed. The distance is about more indefinite and conjectural. So much so that our best informed citizens differ widely in regard to the amount of our vacant territory. Upon the subject, therefore, of our Government liabilities and unappropriated public lands, all we could expect at this time was that they should both be left entirely to our disposition and this accordingly has been done. The question of boundary every Texan will be glad to have settled by the United States. If the United States could be supposed to have an interest in this matter adverse to our own-if we could he permitted to make the preposterous assumption that the Government will have a disposition to narrow down and circumscribe her own limits. and enlarge those of Mexico, for the purpose of doing injustice to the citizens of Texas, then indeed we may object to this provision of the joint resolutions. "If such absurd exceptions will be taken, in spite of that complete identity and harmony of interest that characterizes the two governments -if the opponents of annexation are determined to find fault with every provision that militates in the slightest degree against our complete sovereignty and independence, as we expect they will, in order to be consistent with their own declared hostility to the measure-then our short answer must be, that they argue against every proposed measure in detail, merely because they intend to oppose every possible measure that can folk. he devised. And such, in fact, has been the case up to this time. The Treaty of Mr. Tyler was opposed by our government journal at that time, chiefly upon the ground that it deprived us of our public lands. The government journal at this time is opposing the Joint Resolutions because they leave us the incambrance of our own debts. and impair our severeignty. Mr. Benton's resofutions are objected to because they settle nothing but the naked question of annexation, leaving the details to be determined upon by negotiation and compromise-Mr. Brown's, again, are found very exceptionable, because they settle too much, leaving too little to negotiate. In order to satisfy such objections, it is evident we must renonnce annexation altogether; and we now forewarn the people of Texas not to allow their early attachment to the American Union to be weakened, nor those strong ties of affection of interest and kindsed to be alienated by such captions and designing arguments against the overtures of the United States, nor by specious promises of transatlautic friendship and 'stringent alliances' with European monarchies, from which this country is to be inundated with foreign wealth, and Texas made the Eldorado of America.

this country are unchangeably in favor of Annexation ; and of our planters and farmers, the bone and sinew of the land, including the early settlers, whose strong right arms and indomitable courage have triumphantly achieved our liberties-of those more than nineteen-twentieths look to their re-union with the great American family of States as the sheet-anchor of their hopes Single-handed and unaided, they have secured their freedom and they want no foreign powers to guaranty their independence. While they desire the friendship of all nations, they do not expect unbought favors from any. They understand the essential elements of civil liberty too well to be dazzled with the empty name of nationality, purchased at the expense of political dependence. Their desire is to secure a government for the sake of its blessings, and not its name. But if any name can have a charm in this country, the privilege of saying "I am an American citizen" is the proudest distinction known to the people of Texas."

President Jones has vetoed the act of Congress reducing the duties on imported goods.

The Galveston News says that Gen. Arista has sent despatches to the Texan Government by way of Corpus Christi. The purport of these despatches is said to be an invitation to the Texas Government to join the Mexican General in an expedition against the Camanche Indians that have become the pest of the Rio Grande settlements

Just before the New York left Galveston, a British man of war entered that port, bearing despatches to Capt. Elliott, British Envoy, from his Government. It was said that this vessel had a vast amount of money on board, and that the despatches contained instructions to Captain Elliott to offer to guaranty the national indepenlence of Texas, provided the annexation resolutions are rejected. It was further reported that the French Government had also offered the same guaranty on the same conditions. Private advices assure us that when these propositions were made known in Galveston, the people snapped their fingers, saying "the foreigners fully solicits a communce of the some were too late."

Capt. Elliott set out for the capital immediately after receiving his despatches-M. Saligny, the French Charge, was already there.

There is a report in the Texas papers that Santa Ana had made his escape.

BRANT'S CONDUIT-CHEAP CONVEYANCE -The Cumberland Alleghanian mentions an ingenious mode for the conveyance of coal, about to be constructed by Mr. Brant. It is made up of three planks, one for the bottom, and one for each side. It is about 12 inches at the bottom and 10 inches high at the sides. The coal is thrown into this conduit at the mouth of the mine, where the water is also left in, and it floats off with the greatest rapidity. It will carry from one thousand to two thousand bashels per hour a distance of two and a half miles. There is not much triction, and consequently very little breaking or wearing away of the for the office of lumps of coal. If Mr. B. c in procure an abundance of water at the mines, and construct his conduit to Cumberland, it will certainly bear away the palm of cheap conveyance. It is be-romptness and fidelity, CHARLES WEAVER.

BALSAM OF WILD CHERRY, A Compound Balsamic Preparation from Wild Cherry Bark and Tar, The best remedy known to the world for the cure of

coughs, colds. asthma, croup, bleeding of the lungs, wheoping cough, bronchitis, influ-enza, shortness of breath, pain and wenkness in the breast or side. liver complaint, and the

first stages of CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in ist worst form but it has cured many after all other means of relief had been tried in vain .- And why not ? It seems that the WILD CHERRY was destined by Nature to be our PA-NACEA for the vavaging diseases of this cold latitude. Let not the despairing invalid waste his m ney and loose TIME, to him so all important. in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be p s-ible-a medicine that science approves. and many years of experience have demonstrated that it always relieves.

"There is no such thing as fail," in the history of this wonderful BALSAM Evidence the most Chillisquaque.-Charles Gale. Northumberland. - Joseph Vrndyke, David convincing-eveler or that no one can doubt, fully establi hes this fact. For the sake of brevity we select the following from thousands.

Isaac Plact, E.q., Editor of the Pokeepsie Eagle one of the most influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842. with severe cold which immediately produced spit ting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatment nd care she partially rec ver d during summer. Bot on the return of winter she was attacked more vidently than at first, she became scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consumption ; at this time, when there was n . sign of improvement, Mr. Platt procured a bottle of WISTAN'S BALSAN OF WILD CHERRY, which she took, and it scemingly restored her. She got a secould and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slighteri symptom of her former dise se.

Mr. P att says "the cure come under my own observation and I cannot be mistaken as to the facts."

EXTRACT OF A LETTER FROMA POST MASTER DATED

PERBAUKE, Workington co., Maine, Apr. 29, 1844 MR. ISAAC BUTTS .- Dear Sir: At the re quest of many of new friends in this place and vicinity who are afflicted with consumption and liver complaints. I take the liberty of asking you to apcount some one in this county as agent to sell Wis-TAR's BALSAN OF WILD CHENRY, and to send him a few dozen as there is none of it for sale within 200 miles from this I have no doubt that it would meet with a ready sale if it were where it could be accured without too much expense and delay. My wife was attacked about six m oths since with what the physicians called the first stage of

-n-umption-a complaint very prevalent in this section of country. Having seen the Ba'sam advert sed in Augusta

I took the pains to send there for a bottle of it, which she took, and which beloed her so much that I sent for two bottles more which she has also ta ken, and he now says she has not felt so well for -ix years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you Plea e inform me by return of mail whether you onclude to send some, and if so to whom, in order that it may be known where it can be had, I am with respect yours, etc.

a prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our own lond for wise purposes, that many who know nothing of the mode of its preparation are endeavoring to reap pecupiary benefits by selling an article similar in name, or in appearance, or by representing th ir own trash as superior to this BALSAM, or by putting up a mixture and solemnly asseverating that it is imported from a foreign country, which is not the

case. All these deceptive arts go to show that WISTAR'S BALSAM is known to the world to be "THE GREAT REMEDY." and that to sell any mixture it must be like this in name, or purport to be like it in su'stance.

A TRULY WONDERFUL CURE.

WATERVILLE, Onesla co. N. Y. Sept. 15, 1843 Dea, Sir-1 owe it in the offlicted to inform y u bat us Jonuary last Locas attacked, by a very viotent odd, caused by worke g in the water, which actiled on my thoras. It was a compared by a ve ry sovere painting my boost and sales, and also a discussing e-ugh. I had in attendance all the lest messed and mour volage, but after exhausting all their skill o no av il, they pronounce I my disease a CONFIRMED CONSUMPTION, and they one and all gave me up to die. After much persuasion I got he concent of my physic an to use the Balsan or WILD Cassar propared by Da WISTAR. I purchased of the Agent in our place one bottle, before using half of which I began to gain strength, and it w s very evident my cough was much better and my symptoms in every way impriving. I have new used three bottles, and am restored to perfect This result is alone owing to the use of health DR WISTAR'S BALSAM OF WILD CHER-RY ; and I take this method of a ving you the in ormation, parily to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

THE MOST REMARKABLE CURE EVER RECORDED.

HADDONFILLD, N. J. April 20, 1843. On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver, which continued for about five days, and was folloadd by the breaking of an ulter, or abscess, in wardly, which relieved the pain a little, but caused m to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this. I applied to a physician, but he said he thought he could do but hitle for me exceptigive me some Mercury Polls, which I refused to take, feeling sa sfied that they could do me no good ; many other rom dies were then procured by my wife and friends, but none did me any good-and the discharge of blood and comption still continued every for days and at last become so offensive that I could scarcely breather I was also seized with a violent cough, which at times caused me to raise much more bloo I than I had done before-and my disease continued in this way, still growing worse, until February, when all hope of my rec. very was given up, and my trends all thought I would die of a GALL-PING CONSUMPTION. At this moment, when my life was apparen is drawing near its clove, I heard of DR. WISTAR'S BALSAM OF WILD CHELRY and got a battle which ar-LIEVED ME INNEDIATELY ; and by the use of only three b tiles of this med ome, all my pains were removed-my cough and spitting of blood and corruption entirely stopped, and in a Yew weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this tme I have enjoyed good health. As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purely Vegetable, and having tried its efficacy on thousands, for upwards of 13 years, and to his knowledge when taken strictly acconting to directions, there has not been one fatiure. Under such circumstances I recommend it to the public, adding a certificate in support of my assor-

I. John Burns, do certify that I was in the ship ob cco Plant of Philadel bia, Capt. Reed, in lune, 1827, bound to Liverpool; took the fever and ague and laid in Liverpool some time under the doctor's bands, went from there to Baltimore, lay in the lofirmary for four or five weeks-from thence to Philadelphia; was six months under Dr. Coats; from thence to New York-went to it. Hospital, remained there about four weeks without, any relief-tried every thing without any benefit, for five years. Hearing of Cantrell's Ague Mi vture from a friend, I went to his store, told 'nim h w I was afflicted, and got a bottle of his mitature and used it according to directions. It made a perteet cure, and I have not had the least return since. I do with confidence recommend it to the poblic. JOHN BURNS.

Medicated Syrup of Sarsaparlila, Philadelphia, April 1005, 1844.

Mr. JOHN A. CANTRALL.

Dear Sir,-Having been afflicted for upwards of wo years with ulceration of the throat, destroying the whole of the soft palste, then through the upper part of my mouth into my nose, from which several pieces of bone came out, which partially destroys ed my speech, through a kind Providence and your Medicated Syrup of Sarsoparilla, I am now restored to perfect health, and my sight, which was so much impaired, is as strong as when a boy.

I thought it a duty I owed to you and those similarly affected, to make it public.

Yours, Respectfully,

SAMUEL, KIRK. Corner of Tenth and Contes Streets,
