

Worse than Fanaticism.

Some weeks ago, says the Ledger, we copied from the Bangor Whig an account of some disgraceful proceedings at a Millerite meeting, where they washed each other's feet, got on their hands and knees on the floor, with others astride their backs, and even washed each other's person. The New York Morning News asserts that some scenes still more gross and disgraceful occurred in that city on Sunday. Private meetings it is said, are held at respectable dwellings, and scenes of the greatest licentiousness take place. The assemblages are generally of a private nature, and if any stranger, not known to be one of their number, happens to be present, he is immediately detected and requested to withdraw. Women of respectability are enticed into these places, and washing each other's feet, and the bestowment of the "kiss of peace," by designing, insinuating scoundrels, are extensively practised. Beginning with Millerism, various foul practices have resulted, and the alienation of many virtuous women and good men from their families and their social duties have been the unhappy results. One of these crafty villains was most amply flogged by an impatient husband the other day, he having the cool impudence to tell the injured man, that in "obeying the Lord" he had taken gross liberties with his wife. The News gives the following statement:

"We have received an account from a person who got in one of these places of meeting on Sunday last, of what was done there. There were collected together about a score of men and women, who soon perceived the presence of a stranger. A man rose and said: 'I am sorry to think there's a Judas in the room.' Another added, that he was sure of it; the spirit informed him that there was a betrayer among them. At length some of them began to question our informant as to what brought him there. They alleged that their meetings were not intended for the public and told him to withdraw. He insisted upon remaining, however, and they perceiving that he was not to be otherwise than forcibly dismissed, proceeded, under much apparent restraint, with their kissing and washing each other's feet; and so as to secure enough of this devout occupation, they have communion every Sunday. Other minor services having been despatched, they began this interesting ceremony in his presence. They washed each other's feet in bowls of water, and when the men (among them a negro) were doing this to the women, the latter held pocket handkerchiefs before their faces. At last a young woman went up to the stranger and offered her services to him. He declined them, however, declaring that he did not need any little personal attentions of that kind, having already washed his own feet that morning. Kisses were then interchanged (but in these he was not given a chance to participate), and the meeting separated."

OUR RELATIONS WITH BRAZIL.

The Washington correspondence of the Herald says important despatches have just been received by the Department of State from Mr. Wise, our Minister at Brazil, relating to the recent insult given by that government to himself, our Consul at Rio, and to the Commander of the frigate Baratan, who had seized upon the slave vessel Porpoise, with her cargo of slaves and specie, but which, from the threats of the Brazilian government, he was forced to relinquish.

The despatches referred to from Mr. Wise call for definite instructions as to the course he is to pursue in his present relation with the Brazilian government. He urges the immediate appearance of a formidable naval force in that quarter, for the protection of our commercial and maritime interests, and the expediency of his withdrawal from that government, inasmuch as he cannot well see how the matter is to be settled amicably and honorably to ourselves, and the insult was gratuitous on the part of the Brazilians, who refuse to apologise, and continue to hold forth fresh menaces to himself, and of course to the government of the United States. It is said that there has already been a Cabinet meeting upon the subject; that the naval force intended for Mexico will receive instructions to visit Rio; that Mr. Wise will not return until such time as our government is determined to act with efficiency and force, regarding as it does, the case as an exceedingly aggravated one.

A SECRET FOR A FARMER'S WIFE.

While the milking of your cows is going on, let your pans be placed in a kettle of boiling water. Strain the milk into one of the pans taken hot from the kettle, and cover the same with another of the hot pans, and proceed in like manner with the whole mass of milk, and you will find that you have doubled the quantity of good rich cream, and get double the quantity of sweet and delicious butter.

How to Cough.

A writer in the New York Sun says it is injurious to cough leaning forward as it serves to compress the lungs and makes the irritation greater. Persons prone to the enjoyment should keep the neck straight and throw out the chest. By these means the lungs expand and the wind-pipe is kept free and clean. There is an art in every thing, and the art of coughing is perhaps as important in its way as any other.

MARSHY, whether in the shape of Blue Pill, Colonic, Corrosive Sublimate, or any other form, never can effect a permanent cure of any disease, because, being a mineral, it cannot be digested, and consequently cannot purify the blood. The only curative properties it possesses is to change the present development of the disease and substitute another in its place. Breadth's Vegetable Universal Pills stand pre-eminent in the cure of disease, because their effects are as certain as they are salutary, and being composed entirely of vegetables, they cannot possibly injure; therefore a trial of them is always safe.

WISTAR'S BALSAM OF WILD CHERRY.

A Compound Balsamic Preparation from the Wild Cherry Bark and Fat,
The best remedy known to the world for the cure of coughs, colds, asthma, croup, bleeding of the lungs, whooping cough, bronchitis, influenza, shortness of breath, pain and weakness in the breast or side, liver complaint, and the first stages of CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in its worst form, but it has cured many after all other means of relief had been tried in vain.—And why not? It seems that the WILD CHERRY was destined by Nature to be our PANACEA for the ravaging diseases of this cold latitude. Let not the despairing invalid waste his money and lose TIME, to him so all important, in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be possible—a medicine that science approves, and many years of experience have demonstrated that it always cures.

“There is no such thing as a fall” in the history of this wonderful BALSAM.—Evidence the most convincing—evidence that no one can doubt, fully establish the fact. For the sake of brevity we select the following from thousands.

Isaac Platt, Esq., Editor of the Pikespeak Eagle, one of the most influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842, with severe cold which immediately produced spitting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatment and care she partially recovered during summer. But on the return of winter she was attacked more violently than at first, she became scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consumption; at this time, when there was no sign of improvement, Mr. Platt procured a bottle of WISTAR'S BALSAM OF WILD CHERRY, which she used, and it seemingly restored her. She got a second, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightest symptom of her former disease.

Mr. Platt says “the cure came under my own observation and I cannot be mistaken as to the facts.”

EXTRACT OF A LETTER FROM A POST MASTER, DATED PENNSYLVANIA, Washington Co., Maine, Apr. 29, 1844.

MR. ISAAC BUTTS.—Dear Sir: At the request of many of my friends in this place and vicinity who are afflicted with consumption and liver complaints, I take the liberty of asking you to appoint some one in this County as agent to sell WISTAR'S BALSAM OF WILD CHERRY, and to send him a few dozen, as there is none of it for sale within 200 miles from here. I have no doubt that it would meet with a ready sale if it were where it could be procured without too much expense and delay.

My wife was attacked about six months since with what the physicians called the first stage of consumption—a complaint very prevalent in this section of Country. Having seen the Balsam advertised in Augustus.

I took the pains to send there for a bottle of it, which she took, and which helped her so much that I sent for two bottles more, which she has also taken, and the poor system has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you.

Please inform me by return of mail whether you conclude to send some, and if so to whom, in order that it may be known where it can be had.

I am with respect yours, etc.

P. G. FARNSWORTH, P. M.

The whole country is fast learning that no medicines—no physicians—no preparation of any kind whatever—can equal DR. WISTAR'S BALSAM OF WILD CHERRY.

A TRULY WONDERFUL CURE.

WATERVILLE, Canada Co., N. Y., Sept. 15, 1843.

Dear Sir:—I wish to be admitted to inform you that in January last I was attacked by a very violent cold, caused by working in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and sides, and also a distressing cough. I had no attendance all the first week, and in my village; but after exhausting all their skill and power, they pronounced my disease a confirmed CONSUMPTION, and they one and all gave me up to die. After much persuasion I got the consent of my physician to use the BALSAM OF WILD CHERRY prepared by Dr. Wistar. I purchased the Agent in my place one bottle, before using half of which I began to gain strength, and it was very evident my cough was much better and my symptoms in every way improving. I have now used three bottles, and am restored to perfect health. This result is due to the use of DR. WISTAR'S BALSAM OF WILD CHERRY, and I like this method of giving you the information, partly to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

Very truly yours, JAMES FAGE.

Mr. PALMER, Druggist, under date of Waterville, Sept. 24th, 1843, writes:

The statement given you by Mr. James Sage is well known to be true by this whole community. It is truly a most remarkable cure. The sale of the Balsam is very good, and its success in curing truly flattering.

Yours respectfully,
D. D. PALMER.

THE MOST REMARKABLE CURE EVER RECORDED.

WATERVILLE, N. Y., April 20, 1843.

On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or abscess, inwardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thought he could do but little for me except give me some Mercury Pills, which I refused to take, feeling satisfied that they would do me no good; many other remedies were then prescribed by my wife and friends, but none did me any good—and the discharge of blood and corruption still continued every few days, and at last became so offensive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before—and my disease continued in this way, still growing worse, until February, when all hope of my recovery was given up, and my friends all thought I would die of a GASTRIC CONSUMPTION. At this moment, when my life was apparently drawing near its close, I heard of DR. WISTAR'S BALSAM OF WILD CHERRY, and I bought a bottle, which I used immediately; and by the use of only three bottles of this medicine, all my pains were removed—my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this time I have enjoyed good health.

THOMAS COZENS,
Waterville, N. Y., 22.

Personally came before me, the subscriber, one of

the Justice of the Peace in and for the said County, Thomas Cozens, and being duly affirmed according to law, with the above statement is in a things true.

Affirmed before me, on the 20th of April, 1843. J. W. FRILING, J. P.

Such is the unprecedented success of this BALSAM.

“NATURE'S FAVORITE PRESCRIPTION,”

a prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our own land for wise purposes, that many who know nothing of the mode of its preparation are endeavoring to reap pecuniary benefits by selling an article similar in name, or in appearance, or by representing their own trash as superior to this BALSAM, or by putting up a mixture and seditiously asserting that it is imported from a foreign country, which is not the case. All these deceptive arts go to show that WISTAR'S BALSAM is known to the world to be “THE GREAT REMEDY,” and that to sell any mixture it must be like this in name, or purport to be like it in substance.

Believe not the cunningly wrought fabrications—and take only the original and genuine WISTAR'S BALSAM OF WILD CHERRY.

NO OTHER CAN BE LIKE IT.

Cantrell's Aque Mixture, or Tonic Medicament.

For the cure of all Bilious affections, if taken according to directions.

It is a never failing remedy which no family ought to be without, especially in low malarious countries.

As this medicine is put up under the proprietor's immediate inspection on the most scientific principles, being Purely Vegetable, and having tried its efficacy on thousands, for upwards of 12 years, and to his knowledge when taken strictly according to directions, there has not been one failure. Under such circumstances I recommend it to the public, adding a certificate in support of my assertion.

I, John Burns, do certify that I was in the ship Tobacco Plant of Philadelphia, Capt. Reed, in June, 1827, bound to Liverpool, took the fever and ague and laid in Liverpool, some time; the doctor's hands went from me to Baltimore in the Infirmary for four or five weeks—during this time to Philadelphia; was six months under the Coals; from thence to New York—sent to the Hospital, remained there about four weeks without any relief—tried every thing without any benefit, for five years. Hearing of Cantrell's Aque Mixture from a friend, I went to his store, told him how I was afflicted, and got a bottle of his mixture and used it according to directions. It made a perfect cure, and I have not had the least return since. I do with confidence recommend it to the public.

JOHN BURNS.

Medicated Syrup of Sarsaparilla.

Philadelphia, April 10th, 1844.

Mr. JOHN A. CANTRELL,

Dear Sir,—Having been afflicted for upwards of two years with ulceration of the throat, destroying the whole of the soft palate, then through the upper part of my mouth into my nose; from which several pieces of loose bone came, which partially arrested my speech, through a kind Providence, and your Medicated Syrup of Sarsaparilla, I am now restored to perfect health, and my sight, which was so much impaired, is as strong as when a boy.

I thought it a duty I owed to you and those similarly affected, to make it public.

Yours, Respectfully,
SAMUEL KIRK,
Corner of Truth and Cross Streets.

I, Gabriel Jonathan, No. 5 Roobas Street, in certificate that my wife, Jane, was afflicted for two years with Rheumatism, and at last was entirely disabled, so that she was obliged to be confined to bed, being seized with Catarrh of the bladder, the use of Catarrh Medicated Syrup of Sarsaparilla completely removed all her pains and difficulties from her limbs; two more bottles made a perfect cure. She is now able to do a regular household duties as usual.

GABRIEL JONATHAN,
Philadelphia, Jan. 23d, 1844.
