Hence it has ever been the study of all great physicians to disguise its nausrous taste. But their efforts have never been crowned with a mplete success. It was left for Dr. Smith to accomplish. Having given the se ject his unremitting attention for nearly two years, he has, after spending a considerable som of money, produced a medicine which, while it is every way agreeable to the palate, is sure to tt umph over DISEASE and all opposition, and to repay him for his devotion to the improvement of the medical serince.

WISTAR'S BALSAM OF WILD CHERRY.

Compound Balsamic Preparation from Wild Cherry Bark and Tar, The best remedy known to the world for the cure of coughs, colds. asthma. croup, bleeding of the lungs, whopping cough, bronchitis, mfu-enza, shortness of breath, pain and weakness in the breast or side,

liver complaint, and the first stages of CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in ist worst form, but it has cured reap pecuniary benefits by selling an article simil r many after all other means of relief had been tried n vain .- And why not ! It seems that the WILD CHERRY was destined by Nature to be our PAtitude. Let not the despairing invalid waste his money and loose TIME, to him so all important, in experimenting with the trashy nostrums of the "THE GREAT REMEDY," and that to sell day, but use at once a medicine that will cure, if a cure be p s ible—a medicine that science approves. and many years of experience have demonstrated T. Believe not the cunningly wrought fabrica-

that it always relieves.

"There is no such thing as fuil." in the history of this wonderful BALSAM. Evidence the most convincing -evelence that no one can doubt, fully establi hes this fact. For the sake of brevity we se ect the following from thousands.

Isaac Platt, Esq., Editor of the Pokerpsie Engle, one of the most influential journals in the state of old friends and the travelling public, that he New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842, with severe cold which immediately produced spitting of blood, cough, fever, and other dangerous and alarming symptoms. Through medical treatment and care she partially rec vered during summer. But on the return of winter she was attacked more violently than at first, she became scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consumption; at this time, when there was no sign of improvement, Mr. Platt procured a bottle of WISTAR'S BALSAN OF WILD CHERRY, which she took, and it seemingly restored her. She got a secoud, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightert symptom of her former dise se.

Mr. P att says "the cure come under my own observation and I cannot be mistaken as to the facts."
