

Carlson's Records.
The following collection of curious records, taken from a Salem (Mass.) correspondent of the Public Ledger, will be amusing to our readers—

1631. In the early part of this year, provision were very scarce, and many persons depended for their subsistence upon clams, ground nuts and acorns. Wheat was sold for \$112, and a yoke of oxen at \$177.

1638. Edward Howe was fined twenty shillings for selling "stong waters," contrary to order of Court.

1685. It was the custom in those days to have an hour-glass in the pulpit by the minister timed his sermons. A printer made a picture, in which he represented Mr. Peters turning an hour-glass and saying, "I know you are good fellows, stay and take another glass."

1689. The General Court passed the following order in regard to women's dresses: No garment shall be made with short sleeves, and such as have garments already made with short sleeves shall not wear the same, unless they cover the arm to the wrist; and hereafter no person whatever shall make any garment for women with sleeves more than on all wide, that is, twenty-two and a half inches.

1643. Roger Scott was presented for common sleeping at the public exercise on the Lord's day, and for striking him that waked him. In December, not having amended his conduct, he was sentenced by the Court to be severely whipped. It was the custom at this time, during the service, for a man to go about the meeting to wake the sleepers. He bore a long wand on one end of which was a ball and on the other a for tail. When he observed the men asleep, he would tap them on the head with the ball, and rouse the slumbering ladies by drawing the fox tail lightly across their faces.

1615. A book was written this year by Rev. N. Ward, of Ipswich, which attracted much attention. It is entitled "The Simple Coler, willing to help mend his native country, lamentably tattered both in upper leather and sole, with all the honest stitches he can make." "He concludes with the following stanza:—
"And farewell, simple world;
If thou'rt thy errand mend,
There is my last and Awd,
And a shoemaker's end."

Russian Mode of Making Butter.
I have for several years had the entire care of the milk department in my father's family. I therefore read, with great interest, whatever related to making butter and cheese, and I found much that was different from what I had been in the habit of practicing. One case of this kind was, directions for making butter in winter, according to what is called the Russian method, by which it was said butter could be made in winter as sweet, and with as little churning, as in summer. So I set about trying the experiment, and the result exceeded my expectations. My new practice is as follows:
Before I go out to milk, I put a kettle, say one-third full of water, and large enough to hold the milk pail into it, on to the stove, where it will get boiling hot by the time I have come with the milk. I then strain the milk into another vessel, and wash the pail, which should always be of tin—then pour the milk back into the pail, and set into the kettle of boiling water till the milk becomes scalded, but not to let it boil, then pour it into crocks or pans, and set it in the cellar for the cream to rise in the usual way. As little time should be occupied in this heating process as possible; hence the advantage of having the water ready hot when the milk is brought in.
Cream procured in this way, will seldom require more than twenty minutes churning, while by the common practice, the poor dairy-maid may have to churn for hours, and then, perhaps, have to throw it away, as I did myself on two occasions, before I happened to gain this valuable piece of information.—Ohio Cultivator.

CANNED ENOUGH.—An apothecary in Salem, has written over his door, "All kinds of dying stuffs sold here."

BALTIMORE MARKET.
Office of the BALTIMORE AMERICAN, Aug. 11.
GRAIN.—There is a fair supply of Wheat at market, to-day, and in consequence of the recent rains the millers buy more freely, and prices are a little firmer. We quote as before, at 80 cent cents for good prime reds, and 75 cent cents for ordinary to good. Very choice white bring a cent or two more. We quote white Warrants at \$2.85 cents for ordinary, and \$2.85 cents for barrels for family Flour.
We quote Corn at 43 1/4 cts. for white, and 45 1/4 cts. for yellow.
Oats are worth 30 1/2 cts.
WHISKEY.—The market is very dull and prices inclined to recede. Sales to day at 2 1/2 cts. for hbls. and 2 1/4 cts. for barrels.

LOW SPIRITS, CAUSED BY PRESENCE OF IMPURE HUMORS IN THE BLOOD.—Health is the state of body and mind which renders mere existence a blessing; any thing short of this is disease, and is caused by the accumulation of morbid humors in the blood, and other juices, by neglect of vegetable purging. The cure is very simple: open the natural drains of the body which nature has provided for the carrying out of all its impurities, and health will be sure to follow. This can be accomplished without any inconvenience, by the use of Dr. BRANNERT'S VEGETABLE UNIVERSAL PILLS, which are known by the experience of thousands, to perfectly cleanse the blood from all foulness, remove every morbid affection, and renovate weak and enfeebled constitutions to perfect health and vigor.

The "Sugar Coated Indian Vegetable Pills," Triumphant.
AN OBSTINATE CASE.

BALTIMORE, Feb. 13th, 1845.
DR. H. W. ANDREWS, Sir:—The box of Dr. Williams' Sugar Coated Indian Vegetable Pills, which you sent me some months past, I found in my application to my son (of about fifteen years of age) the most happy effects on the system. He had been for some years very delicate in health, and very much subject to Fever and Chills, so much so as to create alarm for his future health, and for two or three years we had to keep him from school on account of the same. I am now frank to acknowledge the complete restoration of his health, and a fair prospect of its permanent enjoyment.

PENNINE PIANOS.

THE SUBSCRIBER has been appointed agent, for the sale of CONRAD MEYER'S CELEBRATED PREMIUM ROSE WOOD PIANOS, at this place. These Pianos have a plain, massive and beautiful exterior finish, and, for depth and sweetness of tone, and elegance of workmanship, are not surpassed by any in the United States. The following is a recommendation from CARL DREYER, a celebrated performer, and himself a manufacturer:
A CARD.
Having had the pleasure of trying the excellent Piano Forte manufactured by Mr. Meyer, and exhibited at the late exhibition of the Franklin Institute, I feel it due to the true merit of the maker to declare that these instruments are quite equal, and in some respects even superior, to all the Pianos Fortes, I saw at the capitals of Europe, and during a sojourn of two years at Paris.
These Pianos will be sold at the manufacturer's lowest Philadelphia prices, if not something lower. Persons are requested to call and examine for themselves, at the residence of the subscriber.
Sunbury, May 17th, 1845. H. B. MASSER.
